On October 29, 1962, MM T-4 advised that the subject was planning a mission to Cuba. The subject recently returned from Cuba, where he claimed to have been on a mission. VIDAL is reported to have said that when they were 35 miles off the Cuban coast, his boat was followed by a Cuban gunboat, and that when they were ten miles off the coast, another gunboat joined in the surveillance. At this point VIDAL returned to Miami. He was reportedly using a borrowed boat and the purpose of the mission was to drop an agent in the Matanzas Province of Cuba.

On November 13, 1962, MM T-4 advised that approximately three weeks previously the subject had departed from Vaca Key, Marathon, Florida, in a private boat on a trip to Cuba.

1. INTRODUCTION. In Reference E, JMWAVE forwarded a review of the nature of its relationship with AMCARDON-2. This review indicates that the relationship with AMCARDON-2 evolved from that action which was taken in September 1962 to insure that a security breach would not occur as a result of an investigation which was being carried out by the Identity 1 relative to the fact that the establishment of the Identity 2 was being kept from the YOBELT South Campus as a result of security restrictions which were in some way related to JMDUSK. While the relationship with AMCARDON-2 stemmed from the remedial action which had been taken in a crisis situation, the establishment of a working relationship with the Identity 3 was an objective which JMWAVE had always hoped to obtain. As a matter of fact, in Reference A, the recommendation was made that JMWAVE be given approval to contact the major South Florida news media in an attempt to work out a relationship with these news media which would insure that they did not turn the publicity spotlight on those KUBARK activities in South Florida which might come to their attention. Thus, when a relationship was established with AMCARDON-2, it was carefully cultivated in order that JMWAVE might be able to use this contact at the Identity 3 as a means of achieving the objective of having a relationship with the Identity 3, which would simultaneously insure the security of JMWAVE's operations and give JMWAVE an outlet into the press which could be used for surfacing certain select propaganda items. In the period October to

December 1962, all of JMWAVE's business with the Identity 3 was handled via AMCARBON-2. In mid-December 1962, AMCARBON-2 made the suggestion that he introduce REUTEMAN to AMCARBON-1 in order that there be a backup contact, in the event that AMCARBON-2 were out of town or unavailable at such times as REUTEMAN might require assistance from the Identity 3. REUTEMAN agreed to AMCARBON-2's suggestion, and, as a result, AMCARBON-2 hosted a luncheon on 12 December 1962 at the Miami Club in the Hotel Columbus, Miami, Florida, at which AMCARBON-2 introduced AMCARBON-1 to REUTEMAN. As a result of this initial meeting on 12 December 1962, an operational relationship has developed with AMCARBON-1, and it is believed that this relationship contributes to the fulfillment of the over-all JMWAVE mission. In view of this, a special activities report is being submitted to cover the nature of JMWAVE's relationship with AMCARBON-1 during the period December 1962 to March 1964.

2. FRAME OF REFERENCE FOR JMWAVE'S RELATIONSHIP WITH AMCARBON-1 When AMCARBON-2 introduced AMCARBON-1 to REUTEMAN, AMCARBON-2 reviewed the ground rules under which he had been cooperating with REUTEMAN. This review was conducted for AMCARBON-1's benefit, in order that he might clearly understand the frame of reference which should prevail in his relationships with REUTEMAN. In this review, AMCARBON-2 pointed out that it was the policy of the Identity 3 that it would take no action which would purposely embarrass KUBARK or its South Florida operations. As a result, if any embarrassing items relative to KUBARK's operations in South Florida did come to the attention of the Identity 3, this material would be brought to REUTEMAN's immediate attention. AMCARBON-2 made it clear to AMCARBON-1 that such items should be discussed with REUTEMAN in a frank manner. In addition, AMCARBON-2 made the point that, after an item was discussed, AMCARBON-1 should follow REUTEMAN's guidance relative to how any particularly embarrassing item might be handled by the Identity 3, so that it would not expose KUBARK operations and, at the same time, would not jeopardize the journalistic reputation of the Identity 3. In addition, AMCARBON-2 pointed out that, if AMCARBON-1 brought a potentially embarrassing item to REUTEMAN's attention and remedial action on the matter was not taken by REUTEMAN within a reasonable period of time, then the Identity 3 would feel free to expose any ineptness on KUBARK's part. AMCARBON-2 pointed out that in return for this cooperation from the Identity 3, REUTEMAN had agreed that he would be available for contact by telephone or periodic personal meetings at which AMCARBON-1 and AMCARBON-2 could discuss broad trends and developments in Latin American affairs. AMCARBON-2 advised AMCARBON-1 that this arrangement did not mean that AMCARBON-1 could expect to obtain any classified information from REUTEMAN. The point was also made that AMCARBON-1 should not press for the obtaining of classified information, but he should be alert to steering tips which REUTEMAN might furnish him on fast-breaking news stories. AMCARBON-1 indicated that he understood the frame of reference which had been outlined by AMCARBON-2. This frame of reference has prevailed throughout JMWAVE's relationship with AMCARBON-1 during the period December 1962 to March 1964.

3. AMCARBON-1'S JOURNALISTIC CAREER. AMCARBON-1 originally started to work for the Identity 3 in 1957 on the City Desk, and subsequently advanced from this assignment to an assignment which entailed covering major political developments in Florida. At a later date, AMCARBON-1 became a feature writer for the Identity 3. Then in July or August 1962, AMCARBON-1 was made the Identity 4. This assignment was considered to be a significant

promotion for AMCARBON-1, and it reflected confidence in him by the Identity 3 management. AMCARBON-1 is by no means an expert on Latin America, but he is developing his knowledge on the area and, at the moment, he gives every indication of wanting to be a long-term Latin American specialist. QDELF has been questioned about AMCARBON-1, and he has indicated that AMCARBON-1 is regarded in the journalistic trade as an extremely likeable fellow who has a keen mind but who lacks experience in depth on Latin American affairs. It is QDELF's opinion that given an appropriate lapse of time, AMCARBON-1 will develop into one of the leading Latin American specialists in U.S. journalistic circles. AMCARBON-1 has a working command of Spanish, and he is constantly attempting to improve his language fluency. It is REUTEMAN's opinion that AMCARBON-1 has developed rapidly as a Latin American specialist, and he will continue to grow in this field. Thus, he is a contact who should be developed and harnessed for exploitation, bearing in mind that he does have long-term potential.

4. AMCARBON-1'S CONTACTS AND SOURCES. In keeping with the traditional pattern of source protection which is common to newspapermen, intelligence officers and law enforcement officers, AMCARBON-1 attempts to guard the true identity of all of his sources. On the other hand, when pressed, AMCARBON-1 has identified some of his sources to REUTEMAN, in order that meaningful evaluations could be made of that information which AMCARBON-1 had passed to KUBARK. As a result of these occasional witting identifications of his sources, and, as a result of general conversations with AMCARBON-1, REUTEMAN has learned that AMCARBON-1's sources include the following persons:

a. Luis *FERNANDEZ Rocha (201-316766), secretary general of the DRE.

b. Manolo *RAY Rivero (201-239298), chief of JURE.

c. Carlos *TODD y Lobo (201-264141) of the defunct Havana Times.

d. AMBIDDY-1 (201-267437)

e. Aureliano *SANCHEZ Arango (201-010245), leader of the AAA

f. Edmund *LEAHY of the Washington News Bureau. AMCARBON-1 regards this source as being particularly interesting, in view of the fact that LEAHY's daughter is a secretary in the office of Attorney General Robert KENNEDY.

g. Frank *FIORINI (201-242256), free-lance pilot and adventurer.

h. Eduardo *SUAREZ Riva, public relations man for the MRR.

i. Luis *MUNOZ Marin, governor of Puerto Rico.

j. Juan *BOSCH Gavino (201-103272), former president of the Dominican Republic.

k. Charles *KEELY of the Copley Wire Service.

l. Jorge *VOLSKY Kraisler (201-352252), an employee of USIA in Miami. AMCARBON-1 is well aware of the fact that VOLSKY is a defacto stringer for Tad SZULC of the New York Times, but this does not deter AMCARBON-1 from attempting to exploit VOLSKY as a source of information.

5. OPERATIONAL SUPPORT. On occasion, AMCARBON-1 is used to carry out certain operational support tasks. In such instances, AMCARBON-1 makes his inquiries or carries out the required action within the context of his normal journalistic activities. The use of AMCARBON-1 for operational support tasks enables JMWAVE to harness the investigative facilities of the Identity 3. Several examples of how AMCARBON-1 has been used in operational support tasks are outlined below:

a. Andrew ORDONO Camps. In March 1963, Andrew *ORDONO Camps, DPOB 30 September 1914, Gibara, Cuba, A 12 837 617, arrived in Miami and was given routine CAC processing. The details of this processing are contained in MIAM-0085, dated 12 March 1963. After being released by CAC, ORDONO was interviewed by the Identity 3, and a sensational story was developed. In view of this story, JMWAVE tried to locate ORDONO for debriefing. This effort was not productive, thus AMCARBON-1 was asked to locate ORDONO. AMCARBON-1 did locate ORDONO in Houston, Texas. See WAVE-6307, dated 25 March 1963, for details.

b. Discrediting Carlos BANDIN of the MRR Splinter Group. In UFGW-2555, dated 13 September 1963, Headquarters suggested that JMWAVE might be able to discredit Carlos BANDIN Cruz (201-309611) of the MRR splinter group as a result of BANDIN's overinflated claims relative to his faction invading Cuba. Headquarters' interest in discrediting BANDIN was also stimulated by the fact that BANDIN's irresponsible publicity stunts were causing problems for AMBIDDY-1. As a result of Headquarters' interest in this matter, REUTEMAN had a luncheon session with AMCARBON-1 on 24 September 1963, at which AMCARBON-1 was advised that the BANDIN faction of the MRR was less than accurate in its claims relative to its activities in Cuba. In view of this, REUTEMAN suggested that the Identity 3 might want to soft peddle any future war communiques which the BANDIN faction might release. AMCARBON-1 stated that, in view of REUTEMAN's comments, the Identity 3 would not only soft peddle, but would ignore the BANDIN faction in the future. Once BANDIN was discredited with AMCARBON-1, the word was soon leaked by AMCARBON-1 to other newspapermen that BANDIN was not a reliable source. As a result of this action, the BANDIN group has received minimal media coverage in South Florida since September 1963.

6. OPERATIONAL INTELLIGENCE. In the period February 1963 to February 1964, AMCARBON-1 has furnished JMWAVE with operational intelligence as outlined below:

a. In WAVE 4836, dated 21 February 1963, AMCARBON-1 reported that AMBEND-1 was back in Miami and was the object of a great deal of press interest in view of AMBEND-1's release from a Havana prison. AMCARBON-1 also indicated that AMBEND-1 would probably be a knowledgeable source on the current activities of the UR in Cuba. This operational intelligence was most helpful in terms of keeping JMWAVE informed on AMBEND-1's movements. Subsequent developments revealed that AMCARBON-1 could not contact AMBEND-1, and thus AMBEND-1's return to the United States did not cause the publicity stir that was initially anticipated.

b. In WAVE 6176, dated 22 March 1963, AMCARBON-1 reported that the Identity 3 was attempting to research a full feature article on the Bay of Pigs invasion. The intent of this article was to furnish a recapitulation of the entire tactical situation. In this connection, AMCARBON-1 pointed out that he was

thinking about exposing the role of Miami attorney Alex E. *CARLSON, residing 145 Curtiss Parkway, Miami Springs, Florida, in the Bay of Pigs operation. AMCARBON-1 stated that, if CARLSON were of any current interest to REUTEMAN, then the Identity 3 would soft peddle the CARLSON angle. REUTEMAN advised AMCARBON-1 that he had no interest in CARLSON but knew of him and was of the opinion that CARLSON was a sound and honest attorney. The receipt of this operational intelligence enabled JMWAVE to brief CARLSON on the Identity 3's over-all interest in the role that CARLSON had played in the Bay of Pigs invasion. This briefing, in turn, enabled CARLSON to more adequately prepare himself for a meeting with AMCARBON-1. While AMCARBON-1 did attempt to pursue this Bay of Pigs story, he never did put anything into print as the story was overtaken by other developments before AMCARBON-1 could finish his research.

c. In WAVE 0904, dated 9 July 1963, AMCARBON-1 advised JMWAVE that Mr. Trevor *ARMBRISTER, an associate editor for the Saturday Evening Post, was in Miami during July 1963 attempting to research a story regarding the possibility that strategic missiles were hidden in Cuban caves. This information enabled JMWAVE to keep Headquarters informed on sensational-type articles which might be appearing relative to Soviet missiles in Cuba.

d. In WAVE 4701, dated 20 September 1963, AMCARBON-1 gave JMWAVE his resume of the discussions which he had with AMBIDDY-1 at the Miami Playboy Club on 19 September 1963. This information was useful in obtaining an insight into what AMBIDDY-1 was telling the press.

e. In WAVE 5661, dated 10 October 1963, AMCARBON-1 reported on a discussion that he had had on 10 October 1963 with AMBIDDY-1's public relations man. This operational intelligence was useful in terms of keeping KUBARK advised as to what AMBIDDY-1's representatives were telling the outside world about their operational activities.

f. In WAVE 6910, dated 31 October 1963, AMCARBON-1 informed JMWAVE about the flood of telephone calls which were being received at the Identity 3 relative to so-called KUBARK vessels which were located in South Florida waters. This information alerted JMWAVE to the fact that press scrutiny was going to be directed toward the Identity 5. Armed with this warning, JMWAVE was able to take action which minimized the publicity repercussions from a renewed press interest in the Identity 5.

g. In WAVE 7671, dated 16 November 1963, AMCARBON-1 reported to JMWAVE the fact that he had received a letter from Peru which contained an interesting operational lead to one Carlos MONTALVANO in Puno, Peru. This lead was examined by JMWAVE, Headquarters and the Lima Station. This examination revealed that the letter was written by a crackpot; thus, there was no real operational potential in this lead. This incident did underscore the fact that AMCARBON-1 is willing to bring potentially significant operational leads to JMWAVE's attention.

h. In WAVE 1614, dated 6 February 1964, AMCARBON-1 advised JMWAVE that he had received numerous telephone calls indicating that Armando Andres GUIROLA Forte, who had defected from a Cuban fishing vessel might be an individual who had previously been seen in Miami during November or December 1963. At the same time, AMCARBON-1 pointed out that he was suspicious and thought that these telephone calls indicated that GUIROLA was not a bona fide defector, but was either a GOC agent or a KUBARK plant, who was being used as a means of creating an incident which would embarrass the GOC, as a result of their fishing boats penetrating

United States territorial waters. REUTEMAN advised AMCARDON-1 that KUBARK had played no role in mounting a provocation operation against the GOC. At the same time, REUTEMAN pointed out that it was highly unlikely that GUIROLA was a GOC agent. As a result of this conversation, arrangements were made for JMWAVE to check out certain aspects of the GUIROLA story. At the same time, AMCARDON-1 was prevailed upon not to write a story which might lead the public to speculate on whether GUIROLA was an agent or a plant in a propaganda play designed to embarrass the GOC.

7. PROPAGANDA OUTLET. AMCARDON-1 has been used successfully, during the period covered by this report, as a propaganda outlet through which items of interest to KUBARK could be surfaced in the free world press. Examples of how AMCARDON-1 has been harnessed in this field are outlined below:

a. AMCRAB-1. The AMCRAB-1 defection story originally surfaced in the Miami area on 13 October 1963 via the Diario de las Americas, which played up an API release from Montevideo. The API Montevideo story highlighted AMCRAB-1's information relative to GOC activities in Uruguay. The story in the Diario de las Americas had an extremely limited impact on Spanish readers in the Miami area. As a result, it was decided to do a series of feature stories on AMCRAB-1, pointing up the fact that AMCRAB-1 was typical of the veterans of the Granma expedition, who felt they had been betrayed by CASTRO and had been relegated to positions of obscurity once the revolution had put CASTRO in power. AMCARDON-1 was briefed in detail on the AMCRAB-1 story, and he was given an opportunity to debrief AMCRAB-1 under controlled conditions in a JMWAVE safehouse. After completing his debriefing, AMCARDON-1 wrote a series of feature articles on AMCRAB-1. The first article in the series received front page headline play. The series of articles on AMCRAB-1 were well written, and they provided an excellent peg for JMWAVE to mount a replay operation via other propaganda assets. AMCARDON-1's story on AMCRAB-1 was picked up by UPI, API and others, and it was played throughout Latin America. The details of this surfacing can be found in WAVE 5826, dated 14 October 1963; WAVE 6092, dated 19 October 1963; and, WAVE 6174, dated 21 October 1963.

b. Charles GRIFFIN Shrimp Boat Story. On 26 February 1964, JMWAVE learned that when Mr. Charles GRIFFIN's sons went to Cuba to reclaim the hijacked shrimp boat, JOHNNY REB, they found that select items were missing from the boat when it was turned over to them. It was believed that this information would make a good human interest story which JMWAVE assets could use to counter GOC propaganda claims that United States officials had stolen items from the Cuban fishing boats which had violated United States territorial waters. In view of this opinion, a steering tip was given to AMCARDON-1 to have the Identity 3 representative in Key West interview Mr. GRIFFIN. This interview was carried out, and an article outlining the points which were of interest to JMWAVE was published in the 27 February 1964 edition of the Identity 3.

c. LAYC Story. The March 1964 LAYC meeting in Santiago, Chile, was not receiving appropriate coverage in the South Florida newspapers; as a result, REUTEMAN contacted AMCARDON-1 on 5 March 1964 and suggested that the LAYC meeting was a story which the Identity 3 should pursue. AMCARDON-1 was grateful for this steering tip, and he assigned the task of preparing the story on the LAYC to one of the members of his staff. A story on the LAYC was subsequently published in the 6 March 1964 edition of the Identity 3.

(COMMENT: Copies of the articles cited in subparagraphs a through c above are attached for Headquarters information.)

8. POSITIVE INTELLIGENCE. Attempts have been made to obtain disseminable positive intelligence from AMCARDON-1 during the period covered by this report. This attempt has been generally unsuccessful, in that AMCARDON-1 does not have a great number of contacts in Latin America who would give him access to worthwhile intelligence appreciably in advance of the information appearing in the overt press. As a result, AMCARDON-1 is usually not aware of inside developments in any Latin American country; consequently, he is not a worthwhile source of positive intelligence. As a matter of fact, AMCARDON-1 is less valuable as a source of positive intelligence than most journalists. This is attributable solely to his lack of long-standing contacts in the Latin American political scene. It is believed that AMCARDON-1 will ultimately overcome this shortcoming; thus, we will continue to attempt to harness him for the collection of positive intelligence.

9. COMMENT. In the period covered by this report, AMCARDON-1 has been found to be a straight-forward individual who is honest, cooperative and who understands the need for security. Our relationship also indicates that AMCARDON-1 is an accurate reporter of that information which he passes to KUBARK. In view of this, JMWAVE plans to continue to harness AMCARDON-1 in the same manner that he has been used in the past. It is believed that our relationship with AMCARDON-1 enhances our ability to conduct our operational mission in a secure manner. In addition, this relationship tends to minimize the possibility that JMWAVE might have difficulties with the media outlets in the South Florida area. As a result of our continuing relationship with AMCARDON-1, a special activities report will be forwarded at appropriate intervals.

10. It is requested that a 201 number be assigned AMCARDON-1 and that JMWAVE be advised of the number.

No taxes will be withheld therefrom, but it will be your responsibility to report such income under existing Federal income tax laws and regulations. An appropriate Form 1099 will be furnished by the Government in furtherance of its tax reporting requirement.

2. Travel. You will be advanced or reimbursed funds for necessary expenses incurred in connection with such operational travel as may be directed or authorized by the Government. Such funds will be subject to accounting in substantial compliance with Government regulations.

4. Execution of Documents. If, in the performance of services under this contract, you assume the custody of Government funds or take title of record to property of any nature whatsoever and wherever situate, which property has in fact been purchased with monies of the U. S. Government, you hereby recognize and acknowledge the existence of a trust relationship, either express or constructive, and you agree to execute whatever documents may be required by the Government to evidence this relationship.

5. Status. You are not an employee of the United States Government under this agreement and are not entitled to any benefits normally incident to an employee status.

6. Secrecy. You will be required to keep forever secret this contract and all information which you may obtain by reason hereof (unless released in writing by the Government from such obligation), with full knowledge that violation of such secrecy may subject you to criminal prosecution under the Espionage Laws, dated 25 June 1948, as amended, and other applicable laws and regulations.

7. Instructions. Instructions received by you from the Government in briefing or otherwise are a part of this contract and are incorporated herein, provided that such instructions are not inconsistent with the terms hereof.

8. Unauthorized Commitments. No promises or commitments pertaining to rights, privileges or benefits other than those expressly stipulated in writing in this agreement or any amendment thereto shall be binding on the Government.

9. Term. This contract is effective as of 5 June 1959, and shall continue thereafter for a period of one (1) year unless sooner terminated either:

(a) By thirty (30) days' actual notice by either party hereto, or

(b) Without prior notice by the Government, in the event of a breach of this contract by your violation of the security provisions hereof or by your otherwise rendering yourself unavailable for acceptable service.

MEMORANDUM FOR: Office of Training Registrar

THROUGH : TO/ORD

SUBJECT : Evaluation of Contract Management Institute Course

1. I attended the Contract Management Institute on 28 to 31 March 1967. Immediately after that course I submitted extensive comments to Mr. Arthur Leach, DD/S&T coordinator for the course, and I understand that those comments were included in the overall recommendations for future changes.

2. Since three and one-half months have transpired since completion of that course, details such as the names of speakers and subject material are a bit hazy but I will repeat my overall reaction to it for whatever benefit it might afford. The course material was good although it could have been oriented much more toward technical project managers rather than administrative officers, to the ultimate benefit of DD/S&T. Two of the speakers were excellent; however, the third, who also was apparently Director of the Institute was very poor both with respect to his understanding of the material and his presentation. Dr. Kennedy of Notre Dame and the lawyer, whose name I do not recall, were excellent.

3. This was primarily a sales pitch for CPIF contracts. My personal impression was that U.S. Government contracting agencies have just about completed the circle of a great procurement fiasco. In departing from fixed-price and CPFF contracts to CPIF's with various award arrangements, the contract negotiators were unable to really ever define cost and ended up invariably in giving away additional fees to the contractors for nothing received. Definitive costs were always a function of experienced and sound

technical investigation and management of a contract and whenever costs followed a nonlinear curve, most estimates became almost completely unpredictable. NASA and the DoD generally have, therefore, gone from CPIF types to CPAF-type contracts; the CPAF type ends up being simply another CPFF but with the contractor having the advantage in the establishment of an award fee and with the Government having no recourse to redetermination. My reaction was simply that the DoD experience simply reaffirms my own -- that for R&D there appears to be no good substitute for a well-managed CPFF-type arrangement.

MEMORANDUM FOR: David L. Christ

VIA : Chief, TSS

1. The problem of effective management of the operational records of the Clandestine Services is one of our most important responsibilities. In this connection, you have been selected by your Division, and authorized by the Clandestine Services Records Committee, to act as Records Officer for your component. Your selection is based on your professional qualifications to carry out an assignment requiring experience, judgment, and a knowledge of the objectives of the Clandestine Services. A copy of this memorandum will be placed in your official personnel folder to record your appointment as Records Officer.

2. You are to act on behalf of your Division or Staff element in authorizing the destruction of material of no value to the Clandestine Services in accordance with criteria established for this purpose. You are empowered to authorize the destruction of documents and index cards recommended for destruction by other members of your Branch, and to desensitize KAPOK and RYBAT material which is no longer sensitive or which has been restricted in error. Your signature will be recognized by RID as that of an officially appointed Records Officer.

3. At the meeting of 26 August 1958 , you were briefed on the details of your duties as Records Officer. It is now considered that you will be able fully to execute your duties as Records Officer and thus make a real contribution to the CS Records Management Program.

I am aware of the fact that the Central Intelligence Agency, by reason of the sensitive nature of its work, must observe very strict security measures. I agree to honor the requests of CIA relative to my application whether it be accepted or rejected. I agree not to inform anyone that I am being considered for a position in CIA. If questioned directly, I will say that I have applied for positions in various government agencies, and if pressed for an answer will acknowledge that CIA is one of them but will attach no particular significance to such application. I agree not to disclose personnel procedures I have observed in CIA. I agree not to discuss by name or otherwise, any individuals with whom I have talked in the course of my application to CIA.

Mr. Christ continues to lead the Applied Physics Division in a progressive, responsive and aggressive manner. Some turbulence is occasionally generated by this vigorous leadership; however, the record of solid and potential accomplishments by his group continues to be impressive. On balance, his creative, forward-looking leadership ~~continues to~~ be a talent suited for the goals and missions of this Office.

The technological innovations established in his Division are continuing to lead to a variety of items of great potential value to the Intelligence Community. His aggressive search for and application of other-agency funds has directly saved this Agency many hundreds of thousands of dollars.

COMMENTS OF REVIEWING OFFICIAL

Mr. Christ will be retiring 30 November 1970. Prior to 1970 he has generally been considered a capable officer and the list of his accomplishments during his Agency career is not unimpressive. Christ's performance, particularly in the last six months, however, has revealed critical weakness in judgment, discretion and self-evaluation. These flaws have been called to Christ's attention by me personally, and I deem them sufficiently serious that were it not for his proposed retirement I would be constrained to seek other means to separate him from Agency employment.

During the past year Mr. Christ has attempted to consolidate the large areas of responsibility in his Applied Physics Division which now encompasses effort in positive audio surveillance, countermeasures, micropower and micro-technology, and emplacement. He continues to be conscientious, responsive, and aggressive in the management and development of these technical programs. Further, during the past year giant strides have been taken in the coordination of many of these efforts with their eventual consumers. This coordination has been above and beyond that required by existing Agency regulations.

His managerial talents encompass a wide range of activities and it must be acknowledged that they are responsible in large measure for many of the forward-looking, highly productive programs under his direction. On occasion his enthusiasm for some of the Division efforts tends to lead to over-acceleration in some cases where perhaps careful reassessment would be in order. However, his generally cooperative and thoughtful exercise of initiative has resulted in truly large steps forward in technical areas where the cost effectiveness cannot yet be determined. His judicious application of other-agency funds has directly saved this Agency many hundreds of thousands of dollars.

Mr. Christ received a QSI for his efforts during this reporting period.

During the past year, Mr. Christ has expanded his responsibilities for his Applied Physics Division, which now encompasses effort in positive audiosurveillance, countermeasures, micropower-microtechnology, and emplacement problems. He continues to be conscientious, responsive, and aggressive in the management and development of the technical programs under his direction and supervision.

His managerial talents encompass a wide range of activities, and it must be acknowledged that they are responsible, in large measure, for the forward-looking, highly productive programs under his direction.

His cost consciousness is best exemplified by his detailed planning and charting of cost, time, and technical details in a variety of complex areas. He has taken the lead in solving many involved, detailed and intricate interface and coordination problems with virtually all other technical groups within the Agency.

I expect a high degree of intelligence pay-off as a result of programs under his supervision.

OFFICE OF PERSONNEL
JUN 6 3 25 PM '66

Mr. Christ has been under my direct supervision for 2-1/2 years during the continuing period of growth and expansion in the Office of Research and Development, in which he played a major role. During the past year, Mr. Christ has given up his responsibilities in the Radio-Physics area and has devoted himself to expansion and growth problems of the Audio-Physics Division, which encompasses effort in positive audiosurveillance, countermeasures, and emplacement problems.

Mr. Christ continues to be conscientious, responsive, and alert to the needs of the Agency in terms of the substantive content of technical programs under his direction and supervision. He couples this with a vigorous managerial attitude that encompasses the recruiting, programming, coordination, and other factors necessary to implement these programs in an effective manner. His cost-consciousness is a continuing effort throughout the year and is best exemplified by his careful over-all planning and charting of total program efforts in order that projects lead directly to productive intelligence efforts.

Mr. Christ has had an unusually difficult position in one respect, in that his technical surveillance effort was a major interface area with the DD/P in a realm where political and bureaucratic considerations could have deleteriously affected the content of his programs. He handled these problems in a manner that was favorable for the over-all good of the Agency in terms of technical progress in numerous areas and which far exceeded what might be called "par" for the course.

COMMENTS OF REVIEWING OFFICIAL

Mr. Christ has done an extremely good job in developing a truly exciting program and capable staff focused on advanced audio and counteraudio techniques, in the face of a difficult environment. I would hope that during the coming year he could develop a tighter managerial control over the many small diverse elements of the large program.

Manner of performance of managerial or supervisory duties must be described, if applicable.

Mr. Christ has been under my direct supervision for about eighteen months, during a continuing period of growth and expansion in the Office of Research and Development. During most of the past year Mr. Christ has doubled as group leader of the Radio-Physics area and has had responsibility for the tremendous growth of a separate Audio-Physics group, both of which continue to comprise about 40% of the effort of the Physical Sciences portion of the Office. Mr. Christ has performed these duties in a mangerial capacity in an extremely effective manner, so that both groups are well developed and capable of continuing growth on a self-sustaining basis.

Mr. Christ is extremely conscientious, receptive, and alert to the needs of the Agency in terms of the substantive content of technical programs under his direction and supervision. His cost consciousness is a continuing effort throughout the year, and is best demonstrated by the manner in which he has reprogrammed funds internally and reduced the costs of a number of contracts. Also, he is not one to "rubber-stamp" approval of contractor efforts, and has called several of them to task this year for what he considered efforts below what he felt their capabilities should be.

Amplify or explain ratings given in Section B to provide best basis for determining future personnel action. Manner of performance of managerial or supervisory duties must be described, if applicable.

Mr. Christ has been under my direct supervision for about six months, during a difficult period of growth, expansion, and change in the Office of Research and Development. During the process of reorganization of the Office, Mr. Christ has emerged as acting group leader of both the Radio-Physics and Audio-Physics areas of effort, which comprise about 40% of the effort in the Physical Sciences portion of the Office.

Considering his geographical location for the previous three years, Mr. Christ has done a remarkable job in organizing the Radio-Physics effort and in developing a new effort in Audio-Physics which promises to be one of the major programs in the Office. All of this required that he exercise considerable initiative and judgment in the delegation of responsibility for existing projects and in the formulation and organization of new projects with an extremely under-manned staff.

Mr. Christ was extremely imaginative, vigorous, enthusiastic, and responsive in the performance of these difficult assignments, and demonstrated very clear ability to manage programs and develop teamwork against these continuing and new objectives. In the development of the organizations necessary to implement these programs, Mr. Christ has demonstrated a high degree of cost consciousness by organizing personnel of the two groups so that with a limited staff they could operate in both programs, and by vigorously combing the country to locate the best contractors to implement the program and to seek advice as to appropriate sources for such procurement.

COMMENTS OF REVIEWING OFFICIAL

I am quite familiar with Mr. Christ's performance during the rating period and am in complete agreement with the supervisor's rating and analysis. He has done the tremendous job of organizing our research in the brand new area of audio physics. This program has a very high priority, and he has done a superior job of launching it in a very short time and with very modest resources.

SEP 16

Subject is a technical man who combines a taste for action with professional competence, producing excellent leadership for the specialized branch he heads. His treatment of personnel is direct, frank, unusually honest and just. He helps the men and their families in times of trouble and personal difficulties and has earned their respect for his technical competence. He is imaginative and bold in his approach to the responsibilities of his branch and is a fertile source of ideas. He has driven hard towards raising professional standards.

Although he is a good innovator, he sometimes pushes harder on new approaches than on completion of programs in being, and on occasion his devotion to a program leads him to heavy emphasis on it and too little on other aspects equally as important. However, this was in the earlier part of the rated period rather than recently. I believe he will continue to grow with his job and that he can undertake more responsible and broader assignments.

Christ contributed very substantially to the conception and establishment of EARWORT, the program under which TSD procures and supplies audio equipment for field use. He is learning how to convert the intense enthusiasm which he has at the start of a project to the steady continuous push required to carry the work through to completion.

Mr. Christ is an excellent Chief of our Audio Support Division. He is a leader of men, is loyal to his superiors, and is technically professional in his work.

Mr. Christ has one short coming, which is not of his own making--he lacks field experience--only because his superiors have felt his services were more needed at Headquarters. It is some times hard for him to understand the operational aspects of things as outlined by his assistants. To his credit it must be said he realizes this lack of field experience and uses the advice of his men to best advantage.

As soon as feasable he should be assigned to a responsible position at one of our overseas bases.

SECTION V

A. WHAT ARE HIS OUTSTANDING STRENGTHS?

Mr. Christ is particularily cooperative and dependable. He can accurately report events observed or reproduce, in writing, the facts associated with monitored contracts, Agency briefings, general liaison, etc. He has been very helpful in organizing the administrative procedures, the files and the engineering project procedures for the division.

B. WHAT ARE HIS OUTSTANDING WEAKNESSES?

Mr. Christ's outstanding weakness results from his limited formal technical training which in several cases is not as extensive as is the training of men that he is supervising. He has off-set this short-coming to some extent by experience, good judgement, and his interest in and his response to the opinions of others.

MEMORANDUM FOR: Director of Personnel

THROUGH: Deputy Director for Science and Technology

SUBJECT: Recommendation for Quality Step Increase - David L. Christ

1. It is recommended that Mr. David L. Christ, Chief of the Applied Physics Division, Office of Research and Development, be granted a Quality Step Increase from GS-16, step 6, to GS-16, step 7.

2. Mr. Christ entered on duty with the Agency on 16 November 1950. He transferred to ORD from the DD/P as a GS-16 in September, 1963. During the past four and one-half years he has assumed increasing responsibilities and has expertly implemented and fulfilled the objectives for which his Division was formed in the early growth period of the Office. Although he has performed equally as well, and perhaps better than, many of his equivalent Division chiefs within the Office, the supergrade T.O. limitation within the Office has prevented a raise other than the Legislative pay raises.

3. Mr. Christ is considered to be a key individual in ORD. His energy, initiative, and enthusiasm in developing concepts and applying managerial talents make his services to this Office invaluable. In particular, his development of audio surveillance, micropower-

microtechnology, audio countermeasures, and emanations intelligence areas of effort within his Division make this Quality Step Increase long overdue, in my opinion.

This form should be checked for holding of office, pension, suitability in connection with any record of recent discharge or arrest, and particularly for the following:

(1) *Identity of appointee.*—The appointee's signature and handwriting are to be compared with the application and/or other pertinent papers. The physical appearance may be checked against the medical certificate. The appointee may also be questioned on his personal history for agreement with his previous statements.

(2) *Age.*—If definite age limits have been established for the position, it should be determined that applicant is not outside the age range for appointment. Until such determination is made, the appointment may not be consummated.

(3) *Citizenship.*—The appointing officer is responsible for observing the citizenship provisions of (1) the Civil Service Rules and (2) appropriation acts. Form 61 constitutes an affidavit for both purposes and is acceptable proof of citizenship status in the absence of conflicting evidence. In doubtful cases the appointment should not be consummated until clearance has been secured from the certifying office of the Civil Service Commission.

(4) *Members of Family.*—Section 9 of the Civil Service Act provides that whenever there are already two or more members of a family serving under probational or permanent appointment in the competitive service, no other member of such family is eligible for probational or permanent appointment in the competitive service. The appointments of persons entitled to veteran preference are not subject to this requirement. The members-of-family provision does not apply to temporary appointments. Attached is a draft of an amendment on TICHBORN. Note memo of request asks for an increase in basic fee from $12,000 to $17,000 based on TICHBORN's "overall performance and full time services". ~~This~~

Additional memoranda in file reflect the following:

(1) 19 May 1961 contract (still in effect) provided a basic fee of $8000 with no mention of amount of time subject worked to earn such.

(2) WH memo of 18 June 63 asked a pay increase from $8000 to $9000 based upon, "manner of TICHBORN's performance and the increase amt. of time which he devotes to Agency requirements".

(3) WH dispatch of 9 Nov 64 said that, "Hqs agrees that present expiring contract called for about 2/3rds subject's time---TICHBORN pointed out.... he now engaged 90% of his time for Agency".

(4) WH memo of 24 Nov 64 requested an increase from $9000 to $12,000 based upon TICHBORN's increased value plus "using TICHBORN's service on substantially a full time basis".

(5) As cited above, current WH memo of 7 Oct 66 asks for an increase of ~~$14~~ from $12,000 to $17,000 based on subject's "overall performance and full time services".

I pointed out the above chrono with respect to the ever increasing usage of subject's time to Henehan who apparently feels the last memo is OK unless CPD desires to make a formal objection and return it.

Because of cover, operational, and security considerations the Tax Committee of this organization is authorized to make certain determinations and establish procedures (including tax withholdings) which will result in the full satisfaction of your Federal income and Social Security tax obligations. It is specifically understood and agreed that such determinations and procedures, whether oral or written, constitute an integral part of this contract and are legally incorporated herein by reference."

Mr. [redacted]

Dear Mr. [redacted]:

Reference is made to your current contract with the United States Government, as represented by the Contracting Officer.

Arrangements have been recently completed allowing certain independent contractors of this organization to obtain social security credits by covering such individuals under the social security tax provisions applicable to employees. These arrangements also include a provision for retroactive applicability to the beginning of the 1965 tax year. This can be done only for reasons of security since the procedure results in reducing the social security tax from the self-employed rate to the employee rate. For example, in January of 1965 the tax rates were 5.4% and 3-5/8% respectively.

As a consequence thereof, said contract is amended by deleting all reference to social security and by adding the following paragraph:

"Effective 1 December 1964, social security taxes will be covertly deducted by this organization from your compensation in the same manner and to the same extent as would be done if you were a Government employee. Security reasons make this procedure necessary. Its implementation does not imply in any manner the actual creation of an employee-employer relationship. Your legal status under this agreement continues to be that of an independent contractor."

If you receive or expect to receive full or partial social security credits from overt sources you will so notify this organization and an adjustment will be made or covert deductions discontinued, depending upon the circumstances. Further, if you should subsequently receive overt social security credits, evidence thereof will be submitted to this organization. In such event your covert credits will be erased and your covert deductions returned.

All other terms and conditions of said contract remain in full force and effect.

EMPLOYEE'S WITHHOLDING EXEMPTION CERTIFICATE AND QUESTIONNAIRE

PRINT NAME (Pseudonym)

TICHBORN, Edward O.

WITHHOLDING EXEMPTIONS

INSTRUCTIONS

1. NUMBER OF EXEMPTIONS.--Do not claim more than the correct number of exemptions. However, if you expect to owe more income tax for the year than will be withheld if you claim every exemption to which you are entitled, you may increase the withholding by claiming a smaller number of exemptions.

2. CHANGES IN EXEMPTIONS.--You may file a new certificate at any time if the number of your exemptions INCREASES.

You must file a new certificate within 10 days if the number of exemptions previously claimed by you DECREASES for any of the following reasons:

(a) Your wife (or husband) for whom you have been claiming exemption is divorced or legally separated, or claims her (or his) own exemption on a separate certificate.

(b) The support of a dependent for whom you claimed exemption is taken over by someone else, so that you no longer expect to furnish more than half the support for the year.

(c) You find that a dependent for whom you claimed exemption will receive $600 or more of income of his own during the year (except your child who is a student or who is under 19 years of age).

OTHER DECREASES in exemption, such as the death of a wife or a dependent, do not affect your withholding until the next year, but require the filing of a new certificate by December 1 of the year in which they occur.

For further information about changes in exemption status resulting from marriage, divorce, legal separation, birth, death, new dependents, multiple-support agreements, old age, blindness, etc., consult your local District Director of Internal Revenue or your employer.

3. DEPENDENTS.--To qualify as your dependent (line 4 below), a person (a) must receive more than one-half of his or her support from you for the year, and (b) must have less than $600 gross income during the year (except your child who is a student or who is under 19 years of age), and (c) must not be claimed as an exemption by such person's husband or wife, and (d) must be a citizen or resident of the United States or a resident of Canada, Mexico, the Republic of Panama or the Canal Zone, and (e) must (1) have your home as his principal residence and be a member of your household for the entire year, or (2) be related to you as follows:

Your son or daughter (including legally adopted children), grandchild, stepson, stepdaughter, son-in-law, or daughter-in-law;

Your father, mother, grandparent, stepfather, stepmother, father-in-law, or mother-in-law;

Your brother, sister, stepbrother, stepsister, half brother, half sister, brother-in-law, or sister-in-law;

Your uncle, aunt, nephew, or niece (but only if related by blood).

4. PENALTIES.--Penalties are imposed for willfully supplying false information or willful failure to supply information which would reduce the withholding exemption.

1. If SINGLE, and you claim an exemption, write the figure "1" . . . . ____

2. If MARRIED, one exemption each for husband and wife if not claimed on another certificate.

(a) If you claim both of these exemptions, write the figure "2"

(b) If you claim one of these exemptions, write the figure "1" 2

(c) If you claim neither of these exemptions, write "0"

3. Exemptions for age and blindness (applicable only to you and your wife but not to dependents):

(a) If you or your wife will be 65 years of age or older at the end of the year, and you claim this exemption, write the figure "1"; if both will be 65 or older, and you claim both of these exemptions, write the figure "2". ____

(b) If you or your wife are blind, and you claim this exemption, write the figure "1"; if both are blind, and you claim both of these exemptions, write the figure "2" . . . . ____

4. If you claim exemptions for one or more dependents, write the number of such exemptions. (Do not claim exemption for a dependent unless you are qualified under instruction 3 above.) 3

5. Add the number of exemptions which you have claimed above and write the total. 5

Mr. Edward G. Tichborn

Dear Mr. Tichborn:

Reference is made to your contract with the United States Government, as represented by the Contracting Officer, effective 15 October 1959, as amended. Effective 18 May 1961, said contract is hereby terminated by mutual consent of the parties hereto and in lieu thereof the following is substituted.

The United States Government, as represented by the Contracting Officer, hereby contracts with you as an independent contractor for the submission of certain information and related services of a confidential nature under the following terms and conditions:

1. Compensation. In full consideration for the submission of such information and services, you will be paid an amount calculated at the rate of $8000 per annum. Payments will be made as directed by you in writing in a manner acceptable to the Government. Monies paid you by the Government under this paragraph constitute income for Federal tax purposes. You will be advised as to the method to be followed in reporting and paying such taxes. The method as well as the procedures used by this organization to implement its tax reporting responsibilities will be based primarily upon cover and security requirements. You herein authorize this organization to withhold taxes on said income if it determines such requirements so necessitate.

2. Travel and Operational Expenses. You will be advanced or reimbursed funds incurred in connection with such operational travel as may be directed or authorized by the Government. This may include per diem in lieu of subsistence in the course of such travel and while on temporary duty away from your permanent post of assignment. In addition, you will be advanced or reimbursed funds for necessary operational expenses as specifically approved by the Government. Payment and accounting for all expenses incurred hereunder will be in substantial conformance with applicable Government regulations.

3. Repayment. It is recognized that your failure to account for or refund any monies advanced you hereunder shall entitle the Government to withhold the total amount of such indebtedness or any portion thereof from any monies due you under the terms of this contract in such manner as it deems appropriate.

4. Funding. If necessary to protect the security of this arrangement, monies due you hereunder may be funded in other than a direct manner. It is understood and agreed that any monies so funded constitute payment by the Government in satisfaction of its obligations under this agreement.

5. Execution of Documents. If, in the performance of services under this contract, you assume the custody of Government funds or take title of record to property of any nature whatsoever and wherever situate, which property has in fact been purchased with monies of the U. S. Government, you hereby recognize and acknowledge the existence of a trust relationship, either express or constructive, and you agree to execute whatever documents may be required by the Government to evidence this relationship.

6. Status. You are not an employee of the United States Government under this agreement and are not entitled to any benefits normally incident to an employee status.

7. Instructions. Instructions received by you from the Government in briefing, training or otherwise are a part of this contract and are incorporated herein, provided that such instructions are not inconsistent with the terms hereof.

8. Unauthorized Commitments. No promises or commitments pertaining to rights, privileges or benefits other than those expressly stipulated in writing in this agreement or any amendment thereto shall be binding on the Government.

9. Secrecy. You will be required to keep forever secret this contract and all information which you may obtain by reason hereof (unless released in writing by the Government from such obligation), with full knowledge that violation of such secrecy may subject you to criminal prosecution under the Espionage Laws, dated 25 June 1948, as amended, and other applicable laws and regulations.

10. Term. This contract is effective as of 19 May 1961, and shall continue thereafter for a period of two (2) years unless sooner terminated either:

(a) By thirty (30) days' actual notice by either party hereto, or

(b) Without prior notice by the Government, in the event of a breach of this contract by your violation of the security provisions hereof or by your otherwise rendering yourself unavailable for acceptable service.

Subject to the availability of appropriations, this agreement may be extended upon notice from the Government. Termination of this agreement will not release you from the obligations of any security oath you may be required to take.

MEMORANDUM FOR THE RECORD

SUBJECT: Edward G. Tichborn (P) - Hernia

1. On 1 February Edward G. Tichborn advised me that in lifting his bag out of a taxi on his return trip from Cuba, he suddenly felt a pain in the groin and was afraid that he had a hernia.

2. On the way to the airport he asked me if there would be any chance of the Government picking up his medical expenses in the event that he actually had a hernia which required any substantial treatment. I told him at that time that I did not know what the Government's position would be, but that I would check into the matter and let him know.

3. On 2 February, I contacted Mr. Vernon Turner, SSA/DDS, and explained the circumstances to him. At that time, I also pointed out that as far as the provisions of his contract were concerned, it was stated that he was not an employee of the U. S. Government and while it did not make specific reference to medical payments while he was working for us, it did not specifically preclude such payments. Mr. Turner opined that although the contract stated he was not an employee of the U. S. Government, in actual fact during the period he was doing our bidding, he was. I went on further to explain to Mr. Turner that in all probability we will call on Tichborn to do future services for us and that while he was being paid, it was doubtful that this reimbursement from us equaled what he would make in his regular law practice. Mr. Turner stated that there were a number of ways that we could alleviate his situation should it become necessary.

Misunderstanding. I said the facts of a case - not the words in a paper would probably be the basis for determination of employee status. If we wish to pay in this case a contractual payment - not necessarily related to medical problem - would probably be best solution. V.T.

4. The conclusion reached between me and Mr. Turner was that I should point out to Tichborn that we were under no obligation to recompense him for his injury; however, that upon the completion of treatment if he would submit a claim, we should be glad to review it sympathetically.

5. I passed the gist of the above on to Tichborn on 3 February.

It is understood and agreed that said fee is based upon the fact that the completion of the specified task can be achieved within a 21-day period. One-half of said fee may be advanced you as of the effective date of this amendment. 1. Compensation. In full consideration for the submission of such information and services you will be compensated, on a fee basis, at the rate of $50.00 per day or any fraction thereof during which your services are utilized hereunder, not to exceed $265 per week. Payments will be made as directed by you in writing in a manner acceptable to CIA. An appropriate Form 1099 will be furnished by the Central Intelligence Agency in furtherance of the tax reporting requirement.

2. Travel and Operational Expenses. You will be advanced or reimbursed funds on an actual, reasonable and necessary expense basis for those expenses incurred by you in connection with such operational travel as may be directed or authorized by the Government and while on temporary duty away from your permanent post of assignment. In addition, you will be advanced or reimbursed funds for necessary operational expenses as specifically approved by CIA. Payment and accounting for all expenses incurred hereunder will be in substantial conformance with applicable Government regulations.

3. Repayment. It is recognized that your failure to account for or refund any monies advanced you hereunder shall entitle CIA to withhold the total amount of such indebtedness or any portion thereof from any monies due you under the terms of this contract in such manner as it deems appropriate.

4. Execution of Documents. If, in the performance of services under this contract, you assume the custody of Government funds or take title of record to property of any nature whatsoever and wherever situate, which property has in fact been purchased with monies of the U. S. Government, you hereby recognize and acknowledge the existence of a trust relationship, either express or constructive, and you agree to execute whatever documents may be required by the Government to evidence this relationship.

5. Status. You are not an employee of the United States Government under this agreement and are not entitled to any benefits normally incident to an employee status.

6. Secrecy. You will be required to keep forever secret this contract and all information which you may obtain by reason hereof (unless released in writing by the Government from such obligation), with full knowledge that violation of such secrecy may subject you to criminal prosecution under the Espionage Laws, dated 25 June 1948, as amended, and other applicable laws and regulations.

7. Instructions. Instructions received by you from CIA in briefing, training or otherwise are a part of this contract and are incorporated herein, provided that such instructions are not inconsistent with the terms hereof.

8. Unauthorized Commitments. No promises or commitments pertaining to rights, privileges or benefits other than those expressly stipulated in writing in this agreement or any amendment thereto shall be binding on the Government.

9. Term. This contract is effective as of 15 October 1959, and shall continue thereafter for a period of two (2) years unless sooner terminated either:

(a) By thirty (30) days' actual notice by either party hereto, or

(b) Without prior notice by CIA, in the event of a breach of this contract by your violation of the security provisions hereof or by your otherwise rendering yourself unavailable for acceptable service.

Subject to the availability of appropriations, this agreement may be extended upon notice from CIA. Termination of this agreement will not release you from the obligations of any security oath you may be required to take.

SECTION E NARRATIVE DESCRIPTION OF MANNER OF JOB PERFORMANCE

Stress strengths and weaknesses demonstrated in current position. Indicate suggestions made to employee for improvement of his work. Give recommendations for his training. Describe, if appropriate, his potential for development and for assuming greater responsibilities. Amplify or explain, if appropriate, ratings given in SECTIONS B, C, and D to provide the best basis for determining future personnel actions.

This officer is willing, and has become much more effective and sure of himself during the past year. He is an excellent photographer and this with his increasing resourcefulness in support of operations, has resulted in some unusually good work of the ops support type.

This officer has a pleasant personality, is well liked, gets along well with his fellow employees, works overtime without question, and is well adjusted to overseas life in Mexico. The Station is very pleased to have him for another tour as he is most definitely a part of our operational capabilities.

[redacted] was commended by COS, Mexico in January 1961 and a review of this file should include a review of HMMT-1798 dated 12 January 1961.

SUBJECT'S KNOWLEDGE OF PHOTOGRAPHY IS INCREASING AT A STEADY PACE. HE IS VERY ATTENTIVE TO HIS ON-THE-JOB TRAINING AND APPLIES IT VERY WELL. CONSIDERABLE INITIATIVE HAS BEEN SHOWN BY LEARNING NEW METHODS AND TECHNIQUES. THIS IS PARTLY DUE TO THE CORRESPONDENCE COURSE, IN PHOTOGRAPHY, IN WHICH HE IS CURRENTLY ENGAGED.

SUBJECT LACKS SOME CONFIDENCE IN HIS ABILITY TO PRODUCE PHOTOGRAPHIC PRINTS, HOWEVER, IT IS FELT BY THE RATER THAT THIS IS DUE TO HIS LIMITED EXPERIENCE IN DARKROOM TECHNIQUES AND PROCEDURES. THE RATER FEELS CONFIDENT THAT SUBJECT WILL OVERCOME THIS LACK OF CONFIDENCE SOON.

Mr. Zambernardi joined the Photographic Support Division in January 1958 with no photographic experience. Mr. Zambernardi has progressed very rapidly in his newly chosen field during the past year by taking an active interest in his on the job training and by displaying considerable initiative in learning new methods and techniques. Mr. Zambernardi is supplementing his Agency training by completing a correspondence course in photography given by the New York Institute of Photography. In relatively short time, Mr. Zambernardi has developed into a valued asset to this division.

Because of his brief background in photography, Mr. Zambernardi lacks some confidence in performing his duties. The undersigned feels confident that this will remedy itself as more experience is gained.

MEMORANDUM FOR: Director of Personnel

SUBJECT : Compromise of Cover

1. As a result of information obtained from reliable sources who served in Vietnam, we have established that the former Staff personnel listed on the attachment should be presumed to have been compromised as CIA employees to the North Vietnam Intelligence Service as of April 1975. We presume also that the identifications of these individuals as CIA employees were passed by the North Vietnamese to the Soviets.

2. Although the personnel listed in the attachment are no longer employed by CIA, nevertheless, I suggest that their official personnel records should be documented concerning the possible past compromise of their cover.

3. Please coordinate any action connected with this memorandum with Chief, CCS; Chief, CMG; and Chief, CI Staff.

Conein was in U.S. military from September 1941 through September 1961, and on detail to OSS, SSU, CIG, and CIA to time of military retirement.

He was picked up as a civilian and as a career agent on 12 November 1961 and retired on disability on 15 July 1968.

Archenhold advised that subject claims military service as indicated above and that the only period to be certified is the period as a civilian, November '61 to July '68. This all we know about what Conein told DEA.

Luke Conein has applied for employment with the Drug Enforcement Agency. The Acting D/Pers asked for the attached info from CIA.

Sent to D/Pers for signature. Conein was very controversial, much in the news about the overthrow of Ngo Dinh Diem and has been mentioned by Howard Hunt in Hunt's recent hearing before "Watergate" committee. Dick Biladeau, Central Cover, affirms that Conein is "opened up".

Ben -

Stan Archenhold, x 7264, one of the Agency's drug coordinators with DEA, called me yesterday afternoon. DEA had requested a memo verifying employment of Mr. Lucien E. Conein, whose name has appeared frequently during the Watergate hearings. The attached memorandum is what Archenhold wants.

Conein's service was verified with ROB; his "honorable service" was cleared with SAS. Since he was under cover as contract, I discussed the case with Dick Biladeau of Central Cover. CCS had opened up Conein last year and Biladeau approved release of the information to DEA. We had verified this service to a Justice Department investigator approximately one year ago when Conein was being considered as a consultant for BNDD.

Archenhold offered to carry the memorandum to DEA.

NBC Claims Diem Death Inside Story

Seventeen generals and colonels of the South Vietnamese Army voted unanimously to kill President Ngo Dinh Diem in 1963, and were not particularly discouraged by a high-ranking U.S. CIA official, an NBC report scheduled to be telecast tonight discloses.

The report is Part 2 of "An NBC News White Paper: Vietnam Hindsight," and deals with the origins of America's involvement in that Southeast Asia country.

The report presents the first supposed inside account of Diem's assassination, disguised as a political coup, and includes statements by Alvin Davis, associate producer of the program, and Lt. Col. Lucien Conein, the key CIA man in South Vietnam during the time of the coup.

It is "quite inconceivable" to Conein that Gen. Maxwell Taylor and others were not aware of the timing of the coup, Conein says on the program, which depicts Diem's death as a Diem maneuver that backfired.

The decision to kill Diem is reported to have developed over a series of eight meetings and arguments, and, finally, a vote. Three who would have voted to save Diem were assassinated before the vote was taken. Four others including the present Prime Minister, Khiem, were deliberately excluded from the vote.

Minh among the 17, however, wanted him killed from the start, and the only overheard phrase spoken in French rather than in Vietnamese was by Big Minh, might have been presidential contender in the October 1971 election, who said, "The dog must be killed."

After that, the vote went like this: Big Minh: kill; Gen. Don: kill; Gen. Xuan, kill; Col. Nghia, kill. At the end there was total unanimity, and a vow of silence was taken. The silence is to be broken tonight, Davis says.

Diem had asked for full honors, and a "graceful" exit from Vienam to exile in another country, but refused to ask Big Minh—who in turn was furious at the slight.

Between 6 and 9 p.m. Nov. 2, the day of Diem's death, he refused again to speak to Minh, then finally spoke to him on the telephone, but Minh, outraged, hung up. On the third try, Diem gave in, asking only for safe conduct.

At this point Col. Conein said he was told by Ambassador Henry Cabot Lodge not to instigate, encourage or discourage a coup, which was in the planning stages throughout October, 1963. But Diem, Conein said, had his own plans for a phony coup, after which he and his family would be brought in honors, by popular acclaim, back to Saigon from their place of exile, Pleiku.

What happened, apparently, is that both the phony coup and the real one came off at the same time, fooling Diem and his brother, Ngo Dinh Nhu.

Conein, in an attempt to get Diem out of the country says he asked his embassy for a plane, but was told that he would have to wait 24 hours for it.

"I spoke for the U.S. government and I was authorized, and I informed the junta (Diem's organization) that I had an aircraft, but it would take me 24 hours to have that aircraft on the ground."

"'Instead'" Davis asked.

"Instead, he was shot by a major in the Vietnamese army," Conein says on the telecast.

LANGUAGE TRAINING OBJECTIVES AND METHODS

The general aims of language training are attainment of proficiency in speaking, understanding, reading and writing. The specific objectives are (1) ability to produce and distinguish the sounds of the language; (2) ability to use a stock of basic sentences and expressions; (3) ability to recombine the elements of basic sentences and expressions and to apply them to new situations; (4) ability to comprehend the language spoken at normal speed in various situations; (5) ability to write and read the language commensurate with ability to speak.

Methods used in all courses stress oral drills and free conversation based at first on memorized material and, at a later stage, on varied reading materials. Written and oral tests are given at intervals. Listening to and recording on tapes in the Language Lab is essential for class preparation.

This officer is personally acquainted with almost every senior official or officer in the Vietnamese Government and armed forces, and with a significant number of these this acquaintanceship amounts to close personal friendships extending back over a number of years. These associations have given this officer truly unique access to senior echelons of Vietnamese leadership, and he has exploited this access effectively and to great value to the Station. He has had long experience in this area, and uses his understanding of it to great effect. He works very well independently and has shown considerable initiative. He balks at no assignment, and carries out all assignments without regard for his personal convenience, safety, or well being. In the field of written expression this officer's performance falls somewhat short, but he has made strenuous efforts to improve in this sector with some success. All in all, he is an imaginative and dedicated officer who can be counted on to discharge his duties with high effectiveness and total personal commitment. It has been a pleasure to have had him at the Station.

Subject is a virtual walking encylopedia on the history, customs and senior personalities of Vietnam. He has been associated with this area on and off over the period of the last 10 years. During this time he has developed lasting friendships with many individuals who are now in high positions of power within the government. These contacts are of considerable importance to the Station in its intelligence appreciation of the situation and in the coordination of operational activities on a discreet basis with those high personalities. At the personal request of the Prime Minister he has become senior advisor to the Prime Minister's personal protection force and has, in fact, formed and trained this force from scratch. He is a highly motivated and dedicated officer to whom considerations of personal convenience and safety are always second to his determination to achieve whatever mission is given to him.

On the negative side, his written and oral presentation, while showing some improvement over the previous report, still needs additional improvement. He has no supervisory responsibilities at the present time and therefore is not rated on that score. He exhibits a good sense of cost consciousness in utilization of man power, materiel and funds.

Only his difficulty in expressing himself in writing prevents this officer from being rated "Outstanding". He is a calm and detached professional who at the same time is intimately caught up in his work and in the many important contacts he has on the local scene. His very valuable role could not be performed by anyone else at this Station, nor to my knowledge, by anyone else in the organization at the present time. He is a highly valued member of the Station.

Subject is one of the outstanding American experts on current day Vietnam. He has lived and traveled in the area for a number of years and has continued a study of the area while absent from it. Many of the current senior officers up to the general staff level were formerly Subject's subordinates and regard him as a friend and colleague whom they trust and in whom they will confide. This relationship of trust and friendship fortunately also exists with the Minister of Interior who is the forth or fifth leading personality in the government. Subject was formerly a senior officer in the U.S. Special Forces and by virtue of his qualifications and experience in this field has been of considerable value to this Station in the extensive programs it has undertaken in concert with that command. He is additionally a skilled clandestine operator with a thorough grounding in technique and a wide and colorful background of experience. Subject's ability to express himself in writing, while adequate, can stand improvement. He is evidently sincerely attempting to remedy this and some progress is noticeable. Overall, Subject is a distinct asset to the Station and we are particularly pleased to have him. Subject is a career agent and an amendment of his contract to reflect a promotion to the next higher equivalent grade is recommended. It is likewise recommended that he be promoted from the USAR reserve rank of Lt. Col. to Col. in order to increase his prestige in negotiations on behalf of the COS.

3. BY REVIEWING OFFICIAL

COMMENTS OF REVIEWING OFFICIAL I concur in the rating given above to Subject who has proved himself invaluable to the Station and to the front office in terms of his thorough knowledge of the Vietnamese scene, of Vietnamese personalities, and of the many issues involved here. I have personally leaned heavily on his judgment and advice. Our high appraisal of Subject is shared by the Ambassador and by the Deputy Chief of Mission. I have found that Subject works in a discipline manner and functions cooperatively with other members of the Station. He has made very definite progress as a Staff officer and in applying himself to the paper work which goes with that responsibility. I personally initiated the recommendation that Subject be promoted in Agency grade as well as in U.S.Army rank, mentioned in Section C, above.

Mr. Arthur B. Schwickrath

Dear Mr. Schwickrath:

The United States Government, as represented by the Contracting Officer, hereby contracts with you for your services as a Career Agent under the following terms and conditions:

1. Status. Your status is that of a Government employee under contract and, as such, your rights and benefits are governed by the provisions of this agreement. It is specifically understood that you are not entitled to rights and benefits pertaining to appointed staff status, except as provided herein.

2. Cover. In the performance of your services hereunder, you will act under cover suitable to conceal your relationship with the Government. It is expressly understood and agreed that any and all documents which you may execute in the course of such cover employment are subordinate to this agreement and any contradiction in terms which may in any way amplify, extend or restrict your rights and/or obligations hereunder shall be resolved by this agreement which shall always be dominant.

3. Compensation and Taxes. For your services as a Career Agent, you will be compensated at a basic salary of $11,415 per annum. You will be entitled to a post differential in conformance with applicable Government regulations. In addition, you will be entitled to within-grade promotions and Legislative pay adjustments in substantial conformance with rules and regulations applicable to Government appointed personnel. Payments will be made as directed by you in writing in a manner acceptable to the Government. Monies paid you directly or guaranteed by the Government under this paragraph constitute income for Federal tax purposes. You will be advised as to the method to be followed in reporting and paying such taxes. The method as well as the procedures used by this organization to implement its tax reporting responsibilities will be based primarily upon cover and security requirements. Unless precluded by such requirements, taxes will be withheld therefrom and submitted by this organization.

4. Allowances. You will be entitled to: (a) Living quarters allowances in conformance with applicable Government regulations. You may be provided quarters by your cover facility or the Government and, in such event, you will not be entitled to the living quarters allowances herein indicated.

(b) Cost of living allowances in conformance with applicable Government regulations including, but not limited to, a post allowance or an equalization allowance in lieu thereof, a supplementary post allowance, a transfer allowance, a home service transfer allowance, an education allowance and a separation allowance.

5. Travel. You will be advanced or reimbursed funds for travel and transportation expenses for you, your dependents, your household effects and your personal automobile to and from your permanent post of assignment, and for you alone for authorized operational travel. In addition, you will be entitled to storage of such household and personal effects as are not shipped

in conformance with applicable Government regulations. You will be entitled to per diem in lieu of subsistence in the course of all travel performed hereunder, and when authorized, for you alone while on temporary duty away from your permanent post of assignment. In addition, you will be entitled to reimbursement in accordance with standardized Government rates for the authorized official use of your private automobile. All travel, transportation and per diem provided for under this paragraph must be properly authorized, and expenses incurred hereunder are subject to payment and accounting in compliance with Government regulations or according to the established policies of your cover facility, whichever is directed by the Government.

6. Operational Expenses. You will be advanced or reimbursed funds for necessary operational expenses including, but not limited to, entertainment and the purchase of information, as specifically approved by the Government. Such funds will be subject to payment and accounting in compliance with applicable Government regulations or according to the established policies of your cover facility, whichever is directed by the Government.

7. Repayment. It is recognized that your failure to account for or refund any monies advanced you hereunder shall entitle the Government to withhold the total amount of such indebtedness or any portion thereof from any monies due you under the terms of this contract in such manner as it deems appropriate.

8. Benefits. (a) You will be entitled to death and disability benefits equal to those authorized under the Federal Employees' Compensation Act, as amended. Claims by you, your heirs, or legal representatives under this paragraph will be processed by this organization in accordance with its procedures in such manner as not to impair security.

(b) You will be entitled to the continuance of pay and allowances in a manner similar to that set forth in the Missing Persons Act (50 U. S. C. A., App. 1001-1015).

(c) You will be entitled to sick, annual and home leave (including travel expenses incident thereto) equal to and subject to the same rules and regulations applicable to Government appointed employees. Annual leave may only be taken at times and places approved in advance by appropriate Government representatives.

(d) From the salary paid pursuant to this contract there shall be deducted the appropriate rate percentage (presently 6 1/2%) for deposit and eventual crediting to the Civil Service Retirement Fund. When circumstances of your cover warrant or require contributions to social security, such contributions will be at your expense and you will not be reimbursed therefor by the Government.

(e) (1) This organization is authorized to pay the cost of necessary hospitalization and related travel expenses for illness or injury incurred by the U. S. citizen full-time Career Agent in the line of duty while permanently assigned abroad.

(2) This organization may pay certain necessary costs of hospitalization and related travel expenses for illness or injury incurred by the dependents of a U. S. citizen full-time Career Agent permanently assigned abroad, while they are located abroad.

It is understood and agreed that the eligibility and extent of the participation by you and your dependents in the above medical programs will be in conformance with the rules, regulations and policies of this organization in effect at the time an illness or injury is incurred, that all claims will be submitted only to this organization and that adjudication of such claims by this organization shall be final and conclusive.

(f) You are herein authorized to apply for enrollment in a health insurance program for certain selected Career Agents in this organization, subject to all the terms and conditions of that program. If accepted, this organization is presently authorized to bear a portion of the premium cost, you will bear the remainder. Your financial contribution will be effected either by payroll deduction or by direct remittance at periodic intervals to be established by this organization.

9. Offset. Any and all compensation, allowances or other benefits (including benefits in kind) received from or through your cover acitivites will be used to offset amounts due you under this contract and will reduce accordingly the Government's direct payment obligation hereunder. Sums so offset are payment by the Government under this contract and for purposes of Federal income taxation. You will report every four (4) months during the term of this agreement all benefits received from or through your cover acitivities and, if such benefits exceed those due you under this contract, the report will be accompanied by said excess amount, which you hereby agree is the sole property of the Government. Failure to submit timely reports and, as appropriate, excess payments, may result in suspension of any payments due you hereunder. As an alternative to the above, the Government may at any time exercise its basic right to require payment over to it of the emoluments received by you from or through your cover acitivities which would otherwise be offset as described above. In such cases the Government will pay directly to you the emoluments called for by this contract.

10. Execution of Documents. If, in the performance of services under this contract, you assume the custody of Government funds or take title of record to property of any nature whatsoever and wherever situate, which property has in fact been purchased with monies of the U. S. Government, you hereby recognize and acknowledge the existence of a trust relationship, either express or constructive, and you agree to execute whatever documents may be required by the Government to evidence this relationship.

11. Instructions. Instructions received by you from the Government in briefing, training or otherwise are a part of this contract and are incorporated herein, provided that such instructions are not inconsistent with the terms hereof.

12. Unauthorized Commitments. No promises or commitments pertaining to rights, privileges or benefits other than those expressly stipulated in writing in this agreement or any amendment thereto shall be binding on the Government.

13. Secrecy. You will be required to keep forever secret this contract and all information which you may obtain by reason hereof (unless released in writing by the Government from such obligation), with full knowledge that violation of such secrecy may subject you to criminal prosecution under the Espionage Laws, dated 25 June 1948, as amended, and other applicable laws and regulations.

14. Term. This contract is effective as of 12 Dec 61, and shall continue thereafter for an indefinite period unless sooner terminated:

(a) Upon ninety (90) days' actual notice by either party hereto, or

(b) Upon actual notice to you in the event the results of an initially required medical examination are determined by this organization to be unsatisfactory, or

(c) Without prior notice by the Government in the event of a breach of this contract by your violation of the security provisions hereof or by your otherwise rendering yourself unavailable for acceptable service.

Subject to the availability of appropriations, this agreement may be extended upon notice from the Government. In the event of voluntary termination on your part or termination for cause by the Government prior to the expiration of this agreement or any renewal thereof, you will not be entitled to return travel expense to the United States. Termination of this agreement will not release you from the obligations of any security oath you may be required to take.

INSTRUCTIONS

A. This questionnaire is designed to provide information for consideration by headquarters in planning your next assignment.

B. Each supervisor in the field will ensure that this questionnaire is completed for each employee under his immediate supervision and forwarded to headquarters eight (8) months prior to the individual's planned date of departure from the station.

C. The questionnaire will be completed and forwarded through normal channels to headquarters in triplicate.

D. The questionnaires of Staff Agents should include cover duties and discussion of cover factors where appropriate.

SPECIAL NOTE

This form must be prepared with due regard for security considerations. For example, in the case of administrative and support personnel and others whose duties do not in themselves reveal sources of information or methods of operations, it is normally expected that a complete and realistic statement of major duties may be reported in Item No. 8. However, the nature, purpose or disposition of information or operations will not be included. On the other hand, the description of the major duties of certain other employees may jeopardize security and should not be fully reported on this form. In these cases a general statement of duties will be indicated in Item No. 8 so as to show the level of responsibilities involved and enable reviewers at headquarters to understand the nature of your position. No names, operational techniques, objectives or purposes of the operation should be included.

1. Forwarded under separate cover is a commendation from General Langdale for SCHWICKRATH.

2. I though you would be interested in seeing it since it is a good indicator of how much of the General's reporting can be believed. Notice particularly the paragraph on page 2 concerning SCHWICKRATH's "services to my staff...in an applied field of philology, particularly in Vietnamese oral linguistics and the working of official documents..." When this paragraph was shown to SCHWICKRATH, he gave vent to some very soldierly language, pointing out that he doesn't speak a word of Vietnamese nor can he read it.

MEMORANDUM FOR: Clandestine Services Personnel Division

ATTENTION : Agent Panel

SUBJECT : Deletion of Arthur R. SCHWICKRATH from Project IUJEWEL roster.

1. Arthur R. SCHWICKRATH has been employed as a Career Agent in Project IUJEWEL since 16 October 1961. During that period he was assigned to the Saigon Station as a Staff Advisor on Paramilitary matters to the Chief of Station.

2. When at the termination of that assignment, SCHWICKRATH returned to Headquarters, it was assumed by SOD that he would return to SOD and be again covered by Project IUJEWEL. However, I now understand that SCHWICKRATH is being processed for an assignment in WH Division and is, in fact, engaged in language training for that assignment.

3. In view of the foregoing, it is requested that the name of Arthur R. SCHWICKRATH be removed from the Project IUJEWEL personnel assets.

1. In view of present and past Fitness Reports, and by comparison with other ZRJEWEL personnel, I believe that the promotion of [redacted] to GS-14 equivalent is justified, and that it would be in order to convey this view to FE/Personnel. Technically, however, the administration of (and decision to promote) [redacted] is a responsibility of FE Division until [redacted] reverts to SOD under ZRJEWEL.

2. I would strongly recommend against any move to request Army to advance [redacted]'s retired status from Lt. Col. to Col.; although, for operational purposes while he is at Saigon it might be possible to give him notional or "assimilated" rank.

1. FE/Pers will not honor promotion recommendation to GS-14 equiv. until field sends in a specific recommendation. This is the way FE Operates. FE Division feels [redacted] is their employee until his tour in Saigon is completed. If SOD wants to take action re the fitness report recommendation, Mr. Jorgenson should discuss this with Paul Breitwiser.

2. FE/Per advised the field by [redacted] "Personal note" from Mary Boulger that promotion ~~to~~ from Lt. Col. to Col. is not possible. SOD/Pers advised by FE/Pers that Department of Defense turned down active duty status [redacted] for cover purposes because in addition to being a retired reservist, [redacted] departed for the field under Department of Army Civilian cover and was assigned to Saigon in that capacity. After his arrival it was determined [redacted] in the field that he would represent himself as military. This was never sanctioned by headquarters.

ACTION REQUIRED REFERENCES
FVSS-2216

1. A FORMAL FITNESS REPORT ON ARTHUR R. SCHWICKRATH WILL BE DISPATCHED SHORTLY. AD INTERIM, THOSE QUESTIONS RAISED IN REFERENCE ARE ANSWERED BELOW.

2. ARTHUR R. SCHWICKRATH, ZRJEWEL CAREER AGENT, IS ASSIGNED AS CHIEF OF THE PARAMILITARY STAFF REPORTING DIRECTLY TO THE CHIEF OF STATION. AS SUCH, HIS DUTIES ENCOMPASS PLANNING, OPERATIONAL COORDINATION, FIELD INSPECTION, AND LIAISON WITH VERY SENIOR GOVERNMENT OF VIETNAM OFFICIALS IN THE INITIATION AND IMPLEMENTATION OF PARAMILITARY OPERATIONS. IN ADDITION, SCHWICKRATH IS THEXPRIMARY STATION CONTACT WITH THEXMINISTER OF INTERIOR, WHO IS A PROLIFIC SOURCE OF INTELLIGENCEXAND A MAJOR ELEMENT IN THE STATION'S POLITICAL ACTION PROGRAM. SCHWICKRATH ALSO REPRESENTS THE STATION ON THE ODYOKE COMMITTEE FOR PROVINCE REHABILITATION /THE SO-CALLED TRUE-HEART COMMITTEE/.

3. SCHWICKRATH IS NOT DIRECTLY ENGAGED IN AGENT OPERATIONS, BUT AS THE STATION SENIOR PARAMILITARY STAFF OFFICER, HE INDIRECTLY SUPERVISES A NUMBER OF SUCH OPERATIONS /E.G., SIGALLY/, AND HIS ADVICE IS OFTEN SOUGHT ON MANY OTHER STATION AGENT OPERATIONS BECAUSE OF HIS LONG SERVICE IN VIETNAM AND HIS INTIMATE FAMILIARITY WITH MANY KEY MILITARY AND POLITICAL FIGURES IN VIETNAM.

4. SCHWICKRATH'S DUTIES MAY BE CONSIDERED AS HAZARDOUS WITHIN THE NORMAL MEANING OF THE TERM AS UTILIZED BY KUBARK. SCHWICKRATH IS FREQUENTLY INVOLVED IN OVERFLIGHTS ON FIXED AND ROTARY WINGED AIRCRAFT OF AREAS KNOWN TO BE CONTROLLED BY THE VIET CONG. 5. IT HAS NOT BEEN POSSIBLE TO MAINTAIN STRICT PERSONAL SECURITY FOR SCHWICKRATH. HE IS KNOWN TO MANY VIETNAMESE BOTH IN THE NORTH AND THE SOUTH AS HAVING BEEN ENGAGED IN VARIOUS INTELLIGENCE ACTIVITIES IN VIETNAM SINCE 1945. IN ADDITION, THE STATION HAS JUDGED THAT HIS BEST UTILIZATION HAS BEEN AS A REPRESENTATIVE OF THE CHIEF OF STATION IN VARIOUS COMMITTEE MEETINGS AND LIAISONS WHERE IT WAS NECESSARY HE BE IDENTIFIED AS THE REPRESENTATIVE OF THE COS. IT WOULD BE BOTH IMPOSSIBLE AND COUNTER-PRODUCTIVE IN SCHWICKRATH'S CASE TO ATTEMPT TO HIDE COMPLETELY HIS AFFILIATION WITH KUBARK.

6. DURING HIS CURRENT TOUR, SCHWICKRATH HAS ACQUIRED INCREASING SKILL AND FAMILIARITY IN THE INTRICACIES OF KUBARK STAFF WORK, BOTH AT THE INTER-STATION LEVEL AND THE INTGA-MISSION LEVEL. THIS IS A NEW CAPACITY FOR SCHWICKRATH WHO HAS HERETOFORE BEEN KNOWN AS A VERY AGGRESSIVE ACTION OFFICER. SCHWICKRATH HAS PERFORMED THESE NEW DUTIES WITH CONSIDERABLE FINESSE DESPITE A VERY RAPID BUILDUP OF PARAMILITARY ASSETS WITHIN VIETNAM AND AN EXTREMELY FLUID COMMAND RELATIONSHIP WITH THE COMMANDER OF THE U.S. MILITARY ASSISTANCE COMMAND, VIETNAM. IT IS WORTH NOTING THAT SCHWICKRATH WAS THE ONLY STATION REPRESENTATIVE IN A RECENT CONFERENCE CONVOKED BY CINCPAC IN HAWAII TO RECOMMEND PROCEDURES FOR IMPLEMENTATION OF A TEN MILLION DOLLAR PROJECT INVOLVING A YEAR-LONG TURNOVER OF CIVILIAN IRREGULAR ASSETS IN VIETNAM FROM THE STATION TO MACV. SCHWICKRATH'S PERFORMANCE AT THAT CONFERENCE RESULTED IN THE CONFERENCE'S ADOPTING ALL STJIVON RECOMMENDATIONS IN RESPECT TO ITS FUTURE ROLE IN CIVILIAN IRREGULAR ACTIVITIES. AT THE SAME TIME SCHWICKRATH'S PERFORMANCE WAS SUCH AS TO MAINTAIN CLOSE, HARMONIOUS RELATIONSHIPS BETWEEN KUBARK, CINCPAC AND MACV.

7. I HAVE PERSONALLY FOUND SCHWICKRATH TO BE AN INVALUABLE MEMBER OF OUR STAFF WITH AN INDISPENSABLE DEPTH OF KNOWLEDGE AND BACKGROUND ON SOUTH VIETNAM AND ON ALL MATTERS PERTAINING TO GUERRILLA WARFARE. IT IS A DISTINCT PLEASURE TO HAVE HIM WORKING HERE AS A MEMBER OF THE STATION.

MEMORANDUM FOR: Chief, FE Division

SUBJECT: Employment of Lou Conein

1. At my request, General Lansdale has quietly checked on the status of Lou Conein's retirement from the Army. He is presently in Iran and is slated for return home and retirement in August. He has made an effort to return sooner but the Iranian Government protested that it would be an act of bad faith (apparently, he is doing a good job with them).

2. At the moment, Conein belongs to ACSI and Lansdale feels that any move on our part to accelerate his return would be misinterpreted, or perhaps I should say correctly interpreted, by ACSI. I am getting his address and will establish contact with him by personal letter. Lansdale feels that Conein is very anxious to come back to work for the Agency.

LUCIEN CONEIN

1. Served with the Saigon Military Mission from 1 July 1954 to 20 April 1955; although he has served in Saigon at another station from September 1955 to date, he has voluntarily supported SMM activities in his spare time. Conein's major duties have been in the paramilitary field, with contributions and support to a wide variety of other activities

2. In July and early August 1954, Conein served as assistant to the Chief of SMM. As such, he helped in making contact with Vietnamese political underground groups in Tonkin and Cochin China, assisted in the initial survey of the Vietnamese resistance potential in Tonkin, aided in SMM political efforts to stop the assassination of French military by Vietnamese revolutionaries and participated in developing SMM's contacts with the Vietnamese government.

3. In August 1954, additional paramilitary personnel reported for duty with SMM and it was decided to place a separate SMM team in Tonkin to attempt to recruit, train, and place Vietnamese stay-behind forces there prior to the turn-over of the area to the Communist Vietminh under the Geneva Agreement deadline. Further, sabotage targets were to be [illegible] [illegible] and French [illegible] on Conein's ability. Two complete stay-behind organizations were in place when the Vietminh took over the North, despite the presence of [illegible] and Vietnamese [illegible] in the [illegible] of [illegible], Tonkin. Important sabotage, within U.S. imposed limits, was successfully carried out.

4. One stay-behind organization was developed by Conein personally. He then successfully cached adequate operational equipment in Tonkin, recruited secretly exfiltrated, supervised overseas training, and secretly infiltrated the stay-behind organization into Tonkin successfully prior to the last phase of the Vietminh take-over of Haiphong starting 20 April 1955. All equipment was in place, for future use, by 31 January 1955, which was no small feat of [illegible] since it had to be done under the increasing surveillance of Vietminh [illegible] security forces who [illegible] into Haiphong [illegible] in the final days. Covert infiltration of personnel was accomplished over a 30-day period in March 1955.

5. Sabotage efforts included the contamination of the oil supply of the Hanoi Bus Company and of coal used by the Tonkin railroad. Both contaminants were devised in Japan by the technical [illegible] and were [illegible] into Tonkin by SMM. Contamination had to be accomplished at the last minute, to insure that it would damage the Vietminh rather than French commercial interests. The

Bus Company was accomplished with the witting help of its French manager, whose friendship was developed by Conein; the coal operation was a unilateral operation by SMM.

6. The oil contamination took place just prior to the Vietminh takeover of Hanoi on 9 October 1954. Conein, assisted by Frank Garvers, gained entry to stored drums of the Bus Company's lubricating oil, opened the drums, and started pouring in the contaminant. Fumes from the contaminant overcame them in the enclosed storage space. Upon reviving, the two placed handkerchiefs over their faces and completed the task.

7. Surveys and plans also were made for other sabotage missions, which were later cancelled by U.S. decisions. The team was in place and capable of carrying out the missions.

8. On 11 January 1955, SMM had so multiple and complex a mission that personnel were reorganized into separate teams by operational duties rather than by geography. Conein was appointed Chief of the White Team, which was responsible for all paramilitary and support operations. The latter included a skilled smuggling operation which successfully eluded Vietminh security agents and the International Commission (Poles, Indians, Canadians). Conein's close friendship with the French Foreign Legion and with Corsican underworld elements was of assistance.

9. In April 1955, Corsican contacts started developing a liaison between SMM and the Binh Xuyen (police, opium, prostitution, and gambling) through Conein. This was an alternate operation, since another covert liaison was being [illegible] between the Vietnamese National Army and the Binh Xuyen. It was a touchy game, since the Chief of SMM had been [illegible] the Binh Xuyen [illegible] list publicly by the Binh Xuyen and Conein's connections were known by them. After several cloak-and-dagger contacts, in which negotiations progressed towards a covert solution of the Binh Xuyen problem, the final contact was broken on 28 April by orders of the chief, SMM. Conein was at the contact point when open fighting broke out in Saigon in the afternoon; it was feared that Conein would be taken and held as a hostage. (During the fighting an American USOM [illegible] in a third commercial aircraft was shot down by the Binh Xuyen, who mistook him as an agent of the chief of SMM; his close social friendship with Conein was the only connection; SMM's covert contact, the Chief of Staff of the Binh Xuyen, was last seen bound and gagged on the floor of a taxi, screaming from a beating, after he had arranged the defection of his personally-led battalion finally fighting its way through the Binh Xuyen and joined the National Army; these side facts are entered only to indicate the additional tension Conein ran as a member of SMM in dealing with the Binh Xuyen; SMM psychological action against the Binh Xuyen remained undiscovered by them).

10. Conein's practical solutions to problems, great resourcefulness, skill and knowledge of equipment as well as all phases of paramilitary operations, contributed materially to the success of the Saigon Military Mission in advancing U.S. objectives. Conein is a good, strong right-hand man in a tight spot and proved it in a number of tense situations during this assignment.

1. Your parent military service has detailed you to another Governmental organization (hereinafter called 'this organization') and considers you permanently assigned to Washington, D. C., for temporary duty abroad for an indeterminate period. In recognition of the special mission to which you have been assigned, it is hereby agreed that the following rights, restrictions and obligations will be in force during the period you are performing this particular mission for this organization.

2. You will be required to keep forever secret this Letter and all information which you may obtain in the course of your association with this organization (unless released in writing by this organization from such obligation), with full knowledge that violation of such secrecy may subject you to criminal prosecution under the Espionage Laws, dated 25 June 1948, as amended, and other applicable laws and regulations.

3. It is specifically understood and agreed that you are a member of the Armed Forces of the United States and that you are entitled to retain from either the United States Army or this organization, only the military salary, allowances and other benefits which are commensurate with your military grade and post of assignment. You will continue to receive from the United States Army the base pay and longevity applicable to a married officer of your rank and length of service. Due to the cover and security considerations involved, you may be precluded from receiving certain of your military entitlements from your parent military service and upon appropriate certification thereto, this organization shall make such payments directly to you, as follows:

(a) In accordance with the Joint Travel Regulations, any overseas military station allowance authorized for your post of assignment (for which the present per diem rate $2.20 for subsistence and $[illegible] for quarters, without dependents). If this organization does not make the above payments, you will receive from your parent military service the allowances applicable to the designated unit to which you will be assigned.

4. If, as a direct result of your detail to this organization, you are precluded from utilizing available military travel, transportation or storage facilities, this organization will advance or reimburse you funds to insure that you are not deprived of your military entitlements as set forth and limited in the Joint Travel Regulations and the regulations of your parent military service. Therefore, authority is hereby granted to advance or reimburse you funds for the following expenses:

(a) Personal Travel. Travel expenses incurred by you (as defined in the Joint Travel Regulations) between permanent posts of duty. Such expenses shall be either the actual cost of transportation (as directed by this organization) and military per diem or the applicable mileage allowance as set forth in the Joint Travel Regulations, in conformance with the criteria established therein.

(b) Personal Baggage. Transportation (including priority baggage by surface transportation) and related expenses incurred in the course of permanent change of station and temporary duty travel, subject to the limitations set forth in applicable regulations of your parent military service and the Joint Travel Regulations, provided that if air travel is authorized and performed for permanent change of station travel, you will be entitled to ship unaccompanied 100 pounds of such baggage by air.

(c) Temporary Duty. Travel expenses incurred by you for authorized temporary duty travel. In addition to military per diem and in lieu of transportation, you may be reimbursed the applicable mileage allowance as set forth in the Joint Travel Regulations in conformance with the criteria established therein. You will be paid per diem in accordance with the Joint Travel Regulations.

All travel and transportation performed hereunder must be directed by appropriate authorities. Expenses payable by this organization hereunder are explicitly limited in kind and quantity to those expressly authorized above. Accounting and payment therefor will be made to and by this organization under applicable regulations.

5. You will be advanced or reimbursed funds for necessary operational expenses as specifically approved by this organization. Such funds will be subject to accounting in compliance with the regulations of this organization.

6. You will be entitled to leave in accordance with the policies of your parent military service. MEMORANDUM FOR THE RECORD

SUBJECT: CONEIN, Lucien - Major

On 27 June 1955, Major Conein returned to Washington, D. C., after serving one year PCS at Saigon, Vietnam, where he was with the Saigon Military Mission under MAAG cover as Major, U.S.Army. Upon Major Conein's return it was decided that since no replacement had been found for him it would be necessary for him to return to Saigon under the same cover arrangements he used for his PCS, for a period of TDY. Major Conein was informed by CFE/4/Support and VN/Support Officer that CIA travel orders were being prepared authorizing him only 90 days TDY in Saigon. These orders were signed by C.V.Hulick, DDP/EXO, CFE, LCB, MPD, FE/CFI, CFI, and FE/BF. At the conclusion of the 90 days TDY no replacement had been found for Major Conein and he remained in Saigon. No amendment to his travel order was submitted however, no extension by cable from Headquarters was sent to indicate that Major Conein was either TDY or PCS.*

Upon checking with MPD it was found that Major Conein, if he remained in the field for even one year's TDY, would receive the maximum per diem rate as prescribed by FTR's ($20 per day less 1/5 for quarters which were being furnished) and that this per diem rate could not be reduced. ACFE/4, ACFE/4/VN, and VN/Support Officer discussed the entire case and since Major Conein had been informed prior to his departure that he would remain in Saigon on TDY for 90 days only, a Form-52 was submitted reassinging Major Conein to a PCS status in Sagon, Vietnam effective 27 October 1955 (90 days after his TDY started). An amendment to the original travel order was submitted to show the change from TDY to PCS effective 27 Oct.

Major Conein has been informed of the fact that he was made PCS effective 27 Oct. 1955, per DIR , dated .

FROM Chief, FE

SUBJECT
GENERAL Administrative - Personnel
SPECIFIC Assignment of [redacted] and VILLIERS

REF: a. SAIG 2922
b. DIR 49205

1. Headquarters appreciates SLADE's reply to Ref b, and will make it a matter for the record. For SLADE's (and VILLIER's) information [redacted] has, in the course of his duties in Europe, come to the attention of the French, probably including the UNION organization. Naturally, his former KUTWIN record is well-known to UNION and he is personally acquainted, we have since learned, with TUTOR himself.

2. Headquarters appreciates, too, the probable reaction of TUTOR to the advent in the Indochina scene of VILLIERS, [redacted] and possibly other with similar histories. This is unavoidable and unfortunate; however, under the circumstances Headquarters considers their assignment a necessary risk.

3. In a [illegible] it can [illegible] firmly stated that, in the case of [redacted] -- yes, he was assigned to KUBARK by ODIBEX as a reserve officer on extended active duty. Further [redacted] actually had been released back to ODIBEX, and had already been reassigned by ODIBEX. As this dispatch is being written, those ODIBEX orders are in process of being rescinded and new orders are being initiated assigning [redacted] to [illegible].

4. In the case of VILLIERS, whose orders have just been received transferring him to Saigon, if indeed his previous KUBARK connection is known to TUTOR, it can only be stated that he, too, has been released back to ODUNIT, at their or ODEARL's request, in response to their urgent need for an experienced senior officer with his qualifications for a special mission in Indochina.

5. This movement of personnel from one agency to another is by no means an unheard-of thing. As you are aware, as in the case of French service officers assigned to the to the TUTOR ORG, so are selected military personnel assigned to KUBARK. Very recently two senior ODIBEX officers on the KUHOOK Senior Staff were released at ODIBEX request by KUBARK and subsequently transferred to ODTOWN, Thailand, with no further KUBARK connection.

6. In spite of sincere protestations and denials on your part, we realize of course that at least some bit of suspicion will linger on in TUTOR's mind and that these suspicions will not be allayed by even the most circumspect of routine contacts between persons in VILLIER's group and members of the SIM Staff. Such contacts are bound to occur, particularly if the VILLIERS group does indeed succeed in getting an HTARCADE program of any sort in motion. However, as we have stated, this is an accepted risk, and we have to play the game out, even though we cannot assess the possible damage to the SIM liaison.

LETTER OF AUTHORIZATION FOR [redacted] (P)

1. *Effective* [illegible] 1954, this Letter of Authorization will define your relationship with the United States Government while you are on detail from the United States Army to another Governmental organization (hereinafter called "this organization").

2. In recognition of the special mission to which you have been assigned, it is hereby agreed that the following rights, restrictions, and obligations will be in force during the period you are performing this particular mission for this organization:

(a) It is specifically understood and agreed that you are a member of the Armed Forces of the United States and that you are entitled to retain from either the U. S. Army or this organization, only the salary, allowances and other benefits which are commensurate with your military grade and post of assignment.

(b) As you will be assigned by the United States Army on bona fide military PCS orders to Indo-China, you will receive from your parent military service your base pay and longevity, and the allowances applicable to the designated unit to which you will be assigned.

(c) It is contemplated that you may be furnished transportation to and from your permanent post of duty overseas by your parent military service. In the event that such transportation is not so furnished, you will be advanced or reimbursed funds by this organization for said travel and transportation expenses and for authorized travel within your operational area. You will be entitled to per diem in lieu of subsistence in the course of this travel in accordance with applicable Government civilian travel regulations. All travel, transportation and per diem provided you under this paragraph by this organization must be properly authorized, and expenses incurred hereunder are subject to payment and accounting in compliance with the regulations of this organization.

(d) In conformance with the Joint Travel Regulations, this organisation will advance or reimburse you funds for the travel and transportation expenses of your dependents and your household effects from your present area of assignment to any place in the United States which you may designate. If authority is granted for your dependents to join you at your permanent post of duty overseas, this organization will advance or reimburse you funds for the travel and transportation expenses of your dependents and your household effects subject to the emergency restrictions of your parent military service; from the place so designated by you to your permanent post of duty overseas, and, upon completion of your assignment with this organisation, from your permanent post of duty overseas to Washington, D. C. Your dependents will be entitled to per diem in the course of such overseas travel in accordance with applicable Government civilian travel regulations. The expenses incurred in the movement of your dependents and your household effects from said designated place in the United States to your permanent post of duty

overseas shall include transportation as indicated above and storage of such household effects as are not moved, provided that the total amount of household effects moved plus the total amount of household effects stored shall not exceed the total weight allowance prescribed (by the Joint Travel Regulations) for a major in the U. S. Army. All travel transportation and per diem provided for under this paragraph must be properly authorized, and expenses incurred hereunder are subject to payment and accounting in compliance with the organization's regulations and, where applicable, the Joint Travel Regulations.

(e) You will be advanced or reimbursed funds for necessary operational expenses as specifically approved by this organization. Such funds will be subject to accounting in compliance with the regulations of this organization.

(f) It is anticipated that by virtue of your duties on this particular assignment for this organization you may be required to fulfill the minimum Department of the Army requirements necessary for the receipt of extra-hazardous duty pay (demolition pay). If such requirements are met and proper certification is made thereto, and if for security or operational reasons such payments cannot be made to you by your parent military organization, then, this organization will pay to you the sum of $100.00 per month in lieu of an identical amount you would have received from the United States Army had you been on overt military duty abroad. Your mission chief, or a responsible senior mission official will be required to certify to this organization that the handling and exploding of demolitions is a requirement of your duty with this organization, that you have fulfilled the minimum Department of the Army regulations necessary for the receipt of such extra-hazardous duty pay, and that no payment therefor has been received by you from your parent military service.

(g) You will be entitled to leave in accordance with the policies of your parent military service. Upon the completion of your present assignment, you will be required to certify to your parent military service the number of days annual leave you have taken during your assignment with this organization.

(h) If, in the performance of your cover service, you assume the custody of government funds or take title of record to property of any nature whatsoever and wherever situate, which property has in fact been purchased with monies of the U. S. Government, you hereby recognize and acknowledge the existence of a trust relationship, either express or constructive, and you agree to execute whatever documents may be required by this organization to evidence this relationship.

3. You will be required to keep forever secret this Letter and all information which you may obtain in the course of your association with this organization (unless released in writing by this organization from such obligation), with full knowledge that violation of such secrecy may subject you to criminal prosecution under the espionage laws dated 25 June 1948, as amended, and other applicable laws and regulations.

4. MEMORANDUM FOR: Mr. John H. Richardson

FROM: Major Lucien E. Conein

Attached hereto is a copy of a letter I am forwarding to Dick Helms. The letter in itself is self-explanatory.

I want you to know that my decision is in no way intended to reflect on you or the SE Division.

Lucien Conein

Attachment.

11 December 1953

Dear Dick,

You will recall that it was my intention in 1951 to civilianise and assume a staff position upon my return from Germany. Since my return last August, however, I have decided to return to the Army and, accordingly, I signed a statement of category to this effect on 1 December 1953.

This decision is in no way a reflection on you or members of your staff but rather recognition that I cannot afford to civilianize due to my personal obligations. I intend to inform John Richardson of my action at the same time you receive this letter.

Since I am at present holding a slot, I think it is only fair to all concerned to have it filled by a qualified person before my departure.

I want to thank you and Gordon for the trust you have given me in the past. You may rest assured that I will always be glad to be of service to the Agency in the military if the need should ever arise.

Yours truly,

MEMORANDUM FOR: Chairman, GS-13 Evaluation Board

SUBJECT : Recommendation for Promotion to GS-14
Charlotte Bustos-Videla

1. It is recommended that Charlotte Bustos-Videla be promoted from GS-13 to GS-14.

2. The performance of this officer has been characterized for many years by all of her supervisors as consistently strong to outstanding. She has been able to establish herself as indispensable in each Headquarters Branch or Field Station assignment, usually functioning as the backbone of the unit to which assigned. Since return to Headquarters in September 1972 from her field assignment in Mexico, her performance has been entirely congruent with the thrust of the Field Station's enthusiasm over her ability, performance, attitude and growth potential. She is currently chief of the Cuban and CA Section of her branch, and has established once again her mastery over her assigned duties. She is the kind of sound, dependable, yet imaginative officer greatly appreciated by her supervisors. In short, she is a true professional who performs beyond her grade level.

3. In regard to her potential, she has served in the Agency since 1951, starting as a secretary/stenographer, and advancing brilliantly with each new challenge offered. She achieved professional status in 1953 and has spent the bulk of her time since then specializing in Latin American affairs, demonstrating total flexibility in assignments, a voracious appetite for work and a penchant for exceptionally precise and thorough production. A review of her career to date can lead to the conclusion that she has always risen successfully to each new professional challenge, and is still far from reaching her maximum capacities. While she has had little supervisory experience in the field, her supervisor was of the opinion that she is a "natural leader". This has been borne out in her performance in her current capacity as a Branch Section Chief, in which she has demonstrated exemplary supervisory ability. Notwithstanding her drive, aggressiveness and professional aplomb, she is a popular co-worker, is receptive to guidance and sensitive and responsive to the needs of her subordinates.

4. This employee has utilized her fluency in the Spanish language to maximum advantage in her work. Formal testing recently confirmed her high proficiency in that language. Coupled with a comprehensive training record and her invaluable experiences over a twenty year period, she has become particularly effective in Latin American operations and operational support, demonstrating excellence in each of several recognized specializations, including CI operations, functional support, reports and requirements, area support and varied covert action activities.

5. The officer's adaptability, high intelligence and mastery over her trade was of inestimable value to Mexico City Station, and over a five year period from 1967 to 1972, she functioned as the Station's internal troubleshooter. Her duties included the maintenance of watchlists, screening of travel documents, processing of raw technical take, target analysis, reports writing, operational support, handling of outside contract agents, and special assignments as the Chief of Station's Executive Assistant.

6. The employee is occasionally called upon by the Office of Training to administer specialized training, and she was chosen recently to attend the Mid-Career Course ending in December 1972. Meanwhile, her absence from her new job is felt sorely by the Branch. It is expected that her current assignment will last about two years.

7. In summary, we have here an exceptional officer who has been performing at the level of a GS-14 for some years; it is now time to promote her to that grade commensurate with her performance and which she so justly deserves.

MEMORANDUM FOR: Chairman, QSI - Honor and Merit Awards Panel

SUBJECT : Request for Quality Step Increase (HR 20-37)
Mrs. Charlotte Bustos-Videla

1. On the basis of the information presented below, it is recommended that a Quality Step Increase be approved for Charlotte Bustos-Videla.

2. As noted in the attached fitness report, Subject's performance of her duties has been uniformly outstanding. In addition to her responsibilities in the Cuban section of the Mexico City Station, she has recently been made the executive assistant to the Chief of Station at Mexico City. In this job, she screens all incoming material for matters of interest to the Chief and Deputy Chief of Station. She also continues performing her past functions in the Cuban section for the Station.

3. Subject's present high quality of performance is typical of her performance since she entered the Agency in 1951. It is fully expected that this level of performance will be maintained.

4. Although the present Chief of Station was not the reviewing official on the attached fitness report, he has commented that he considered Subject an outstanding officer and has recommended that she be considered for a Quality Step Increase.

SUBJECT: Recommendation for Promotion to Grade GS-13
Charlotte Z. Bustos-Videla

1. The promotion of Charlotte Z. Bustos-Videla from GS-12 to GS-13 is hereby recommended.

2. This exceptional officer has now been performing at a senior level for several years and, while recognition through a Quality Step Increase was granted her last year, her sustained performance clearly exceeding the requirements of a GS-13 qualifies her for a promotion at this time. Subject is one of the outstanding women who have demonstrated their capacity for even further advancement within the Agency and will probably continue to advance in the future. The present recommendation is based on already demonstrated ability to operate at a senior level.

3. Subject is 36 years old and has been in grade as a GS-12 for the past five and one-half years.

MEMORANDUM FOR: CSPS/B

SUBJECT : Recommendation for Promotion of Charlotte Bustos-Videla

1. The promotion recommendation to GS-13 of Mrs. Charlotte Bustos-Videla is hereby submitted. Mrs. Bustos-Videla entered the Agency in August 1951 as a GS-5 and rapidly and deservedly rose to a GS-12 by 1959. She has now been almost seven years in grade and has been recommended for promotion to the CSPS/B by WH Division five times previously.

2. This outstanding officer has continued to perform at the exceptional level which has by now become her standard of performance. Her past four annual Fitness Reports have each given her an overall rating of outstanding. In this connection it is noteworthy that no two Fitness Reports were written by the same rating officer. She continues to occupy a GS-12 officer slot and her performance clearly continues to exceed the requirements for that position. She is considered to be one of the outstanding women who have demonstrated their capacity for further advancement within the Agency.

3. Mrs. Bustos-Videla not only continues to bring continuity to the Mexican Branch through her long experience on Mexican affairs, but consistently contributes to the smooth functioning of the Branch through her highly efficient organizational capabilities. She has been called upon to handle all manner of difficult desk problems. She invariably responds quickly, cheerfully, and effectively. She has been instrumental in on-the-job training of a number of officers, both for desk assignments and in preparation for field assignments. She has excellent rapport with innumerable persons in other areas and staffs, thus adding to the efficiency and speed with which she accomplishes her daily tasks. Her promotion at this time is urged.

MEMORANDUM FOR: Charlott Z. Bustos-Videla

THROUGH : Head of CI Career Service

SUBJECT : Notification of Non-eligibility for Designation as a Participant in the CIA Retirement and Disability System

1. As you may know, we are in the process of reviewing the employment history and current ~~career~~ field of all employees in the Agency to identify those who are eligible for designation as a participant in the new CIA Retirement and Disability System. In this process, the initial review of each case is made by the individual's Career Service. If the Head of his Career Service nominates him for participation in the System, this nomination is reviewed by the CIA Retirement Board which recommends final action to me. However, if the Head of the Career Service advises that the employee does not meet the basic requirements of HR 20-50 for participation, I have accepted this finding without further review by the CIA Retirement Board. This practice has been adopted in the interest of expediting this screening process so that those employees who are eligible to participate in the System may be designated participants as soon as possible.

2. In your case, the Head of your Career Service has advised me that you do not meet the requirements of HR 20-50 for designation as a participant and I have accordingly made the formal determination required by the regulation that you are not eligible for designation. From a review of your record it appears that the decision of your Career Service was based upon the fact that you do not have sufficient time prior to completing 15 years of service with the Agency in which you could complete a minimum of 60 months of qualifying service as required by regulation. My determination that you are not eligible at this time for designation in no way affects your current status under the Civil Service Retirement System, nor does it preclude reconsideration of your eligibility to participate in the CIA System if you should meet the requirements for designation in the future.

3. Should you desire further information concerning the requirements for designation as a participant in the CIA Retirement System, I suggest that you read paragraph e of HR 20-50 and paragraph 5 of the Employee Bulletin dated 30 July 1965, entitled "Public Law 88-643, The Central Intelligence Agency Retirement Act of 1964 for Certain Employees."

4. It is always possible that the records upon which the determination made in your case may have been incomplete or inaccurate regarding your actual employment history with the Agency. If, after studying the materials cited above, you have questions regarding the determination that you are not eligible to participate in the CIA Retirement System, please feel free to contact officials of your Career Service. They are familiar with the details of your case and will gladly discuss them with you. In addition, you may wish to discuss your case with the CIA Retirement Staff located in Room 205, Magazine Building (extension 2847). If such discussions do not resolve any questions you have regarding your eligibility, you may request that your case be formally considered by the CIA Retirement Board. However, this request must be made within 30 days of the date of this memorandum.

MEMORANDUM FOR: Secretary, CSCS (Panel A)

SUBJECT : Recommendation for Promotion to GS-13
Mrs. Charlotte Bustos-Videla.

1. The promotion to GS-13 of Mrs. Charlotte Bustos-Videla is recommended. Mrs. Bustos-Videla entered the Agency in August 1951 as a GS-5 and rapidly and deservedly rose to a GS-12 grade by 1959.

2. This recommendation is based on Mrs. Bustos-Videla's performance during the past three years as the senior assistant to the various chiefs of the Mexican desk/branch, who unanimously have found her to be extremely competent and reliable both in her routine assignments and special tasks occasionally levied on her, such as country studies, compilation of programs, requirement reviews, etc.

3. Mrs. Bustos-Videla has consistently responded with intelligence and clarity and has materially contributed to orderly imaginative administration of Headquarters support to a most active station. In the process, she has been instrumental in training on-the-job innumerable officers both for desk assignments and in preparation for field assignments.

4. For her outstanding performance she received a quality step increase in April 1964. This deserved recognition should now be followed up at this time by a promotion to the next grade in accordance with the consistently good performance at the GS-13 level over a prolonged period of time.

SUBJECT : Notification of Approval of Quality Step Increase - Mrs. Charlotte Bustos-Videla

1. I am pleased to send to you the attached official notification of the approval of the Quality Step Increase which you recommended for this employee.

2. The salary increase accomplished by the award of a Quality Step Increase is important and tangible evidence of the esteem in which the employee so recognized is held. However, I believe the commendatory and incentive benefits of this award will be partially lost unless it is presented in an appropriate ceremony which will afford the individual recognition among co-workers and supervisory officials. Also, I believe such recognition serves to inspire other employees to aspire to earning such recognition.

3. May I ask, therefore, that you arrange to have this Quality Step Increase presented at an appropriate ceremony.

SUBJECT : Charlotte Z. Bustos-Videla -- Request for Quality Step Increase

1. It is recommended that a Quality Step Increase for Mrs. Charlotte Z. Bustos-Videla be endorsed by you for the reasons presented in the attached memorandum prepared by the Chief, Western Hemisphere Division.

2. A review of Mrs. Bustos-Videla's Official Personnel File unequivocally supports the statements of Chief WH. Without exception, the performance of this officer during [illegible] Agency employment has been identified by various and all supervisors as "Superior" and "Outstanding." Likewise, nothing in other records maintained by the Office of Personnel contradicts or modifies the impressive record made by Mrs. Bustos-Videla.

3. Testimony to the high regard which officials of WH Division view this officer's work is furnished by noting that Mrs. Bustos-Videla is the first female officer to be proposed for a QSI by WH and one of a total of but three officers nominated by that Division for the award since the QSI provision of the Federal Salary Reform Act of 1962 became effective in CIA approximately fifteen months ago.

ATTENTION : DDP/OP

SUBJECT : Request for Quality Step Increase for Charlotte Bustos-Videla

1. On the basis of the information presented below, it is recommended that a quality step increase be approved for Charlotte Bustos-Videla.

2. As stated in the accompanying Fitness Report, Subject's performance of her duties has been uniformly outstanding. In addition to her responsibilities as the desk officer for Mexico FI and Operational Support Projects, she carries a heavy burden in the areas of administration, preparation of special reports and training of personnel. She frequently represents the Mexico Section in dealings with other elements of the Agency and acts for the Chief of Section in his absence. Subject's performance clearly exceeds the normal requirements of the assignment and of her present GS grade level.

3. Subject's present high quality of performance typifies her performance over a period of several years and it is fully expected that this level will be maintained.

4. Consideration was given to the granting of a Merit Award but the quality step increase seems more appropriate in this case. Subject has been passed over for promotion in the past and due to limitations as to

area of assignment, it is unlikely that a promotion to grade GS-13 can be obtained. The salary increase is therefore thought to be the most fitting reward for her outstanding service.

1. Mrs. Charlotte Bustos-Videla entered on duty with WH Division in August of 1951. She has served on a variety of desks covering South American as well as Mexican and Central American affairs. In each of her assignments she has demonstrated exceptional competence and devotion to duty.

2. Since December 1957 Mrs. Bustos has been assigned to the Mexican Desk and at present is Acting Chief. She is the soul and motor of that desk, managing many of its operations and supervising its staff, many of whom she has trained. She is past mistress of administrative procedures and the ease with which she obtains clearances, maintains files and secures necessary approvals while handling the most complicated operational aspects of projects is phenomenal. Her work output is enormous and yet everything is done simply and modestly with a minimum of excess motion. She is an outstanding employee and should be deserving of recognition.

In the 8 months during which she was under my supervision, Mrs. Bustos has performed in that same hard-working, highly-productive style which has become her trademark over the years. She understands the intelligence process from start to finish and is personally experienced with each step along the way, save the agent handling aspects. She excels in each phase of the work.

As chief of the Branch SA and Cuban activities section, she has once again demonstrated her mastery over her assigned duties. She is a sound, dependable, yet imaginative and energetic operations officer, whose performance leaves little to be desired. While she had had little previous supervisory experience, she has in this assignment demonstrated exemplary supervisory ability. Notwithstanding her drive, tenacity and attention to detail, she is a popular co-worker, is receptive to guidance and is sensitive to, and responsive to the needs of her subordinates.

In her performance of specific duty No. 2, she has brought to bear upon her daily duties her broad experience, high intelligence and good operational sense, functioning with practically no need of close supervision. It is comforting to know that an assignment given to this employee is always done promptly, professionally and cheerfully.

Her adaptability was demonstrated in her specific duty No. 3. Despite the press of normal daily activity, she was often called upon to produce "crash"

COMMENTS OF REVIEWING OFFICIAL: The rater has written an accurate and thorough evaluation of Mrs. Bustos. I concur without reservation in the ratings provided subject. She is an exceptional officer. Her ability to perform a variety of assignments in Headquarters and the Field has measured up to an outstanding record. Her work with subordinates clearly indicate she is a good supervisor. Mrs. Bustos performs all facets of her work in an exemplary manner and in my judgement rates in the upper percentile in the A Category.

papers for the Branch because of her innate talents and established reliability. She never failed to impress her supervisor with her production, writing ability and energy. Her overall performance is clearly in excess of her grade level.

In terms of true cost and security-consciousness, she must also be considered very strong because she has a positive and aggressive attitude towards these subjects. It is with deep regret that the Branch parts with this employee who now moves up to the Division front office staff.

In reviewing my previous fitness report and those of my predecessors, on this fine officer, I find myself hard put not to repeat what has been said so often before. She has been the backbone of this section and of those where she has worked previously. Her work has always shown excellent judgement and ingenuity. A self-starter with tremendous drive and discipline, the amount of work she has produced has been prodigious. An excellent team worker, she has never shirked when - as so often happens - she is asked to take on additional work or work on a matter outside of her regular field. While forceful, she is diplomatic and tactful and is able to present suggestions and criticisms in a pleasant manner. She is one of the most dedicated persons I have met in the Organization, and exceptionally dependable. While, as a woman and a Specialist, she has had little opportunity to handle agents she has done very well with those we have given her to handle. She has showed great ability in the training of two transcribers and in the debriefing of two female agents and their husbands. This is in large part due to her in-depth knowledge of the targets this section is working on. The past few months have been difficult, requiring the complete reorganization of this Section and the termination of the majority of our assets. Under this stress, she has performed in her usual outstanding manner. Perhaps, even a little better. Her handling of a great deal of file work has been excellent, probably in part because she was the one who set it up and has maintained it in its present very good state. (continued)

Without any hesitation I concur with the outstanding ratings above. Subject is now up for rotation and we will miss her immensely. For years she has dedicated her entire time to her job which she has done so well. She has been creative, thorough and accurate. Although she has not had supervisory experience at this station, she has performed in a manner which clearly reflects that she would have no problem with supervising. A truly outstanding employee with growth potential.

The one criticism of this Officer's work that I and others have made in the past still stands. She tries to do everything and somethings in this business just don't deserve the attention she gives them.

I have no personal knowledge of her supervisor abilities, but believe she is a natural leader.

DEC 27 8 55 AM '71

This supervisor has worked with a variety of Intelligence Assistants. Many were good, but none compared with this Subject. She is the most thorough and fastest working IA I have met. Her capacity for hard work and long hours is prodigious. Her knowledge of operational matters is equal to that of most case officers. She has an operationally creative mind and has made many excellent suggestions for the improvement of the section's work. Additionally, her command of the Spanish language enhances all of the above abilities. This officer has found her very pleasant to work with. She has a unique ability to make constructive criticism in a tactful manner.

If this Subject has a weakness, it was pointed out by the reviewing officer in the last fitness report when he said, "in her voracious appetite for all kinds of facts (she) can at times put undue emphasis on them, including factual minutiae as against equally important but more elusive subjective factors.

Because of her outstanding performance and abilities the Subject will be given some activity handling agent personnel, during the forthcoming year.

The Subject's continued fine performance since her last promotion merits special consideration by the Promotion Board.

COMMENTS OF REVIEWING OFFICIAL

I concur with the above ratings and comments. Subject performs all the tasks outlined above in a very professional and methodical manner. One does not even sense that the work is going on until the finished product is produced. It is always excellent. We count heavily on her thoughts and ideas in all operational studies and considerations. She is ops oriented and has an excellent bank of information to call on when necessary. She is pleasant and has the respect of her co-workers as well as her supervisors. Her abilities are varied and she can be counted on to perform extremely well regardless of assignment or target. We will be losing this fine officer soon and we will be hard put to find someone who will be able to replace her.

APR 12 9 32 AM '71

Subject worked most of the year in the station PBRUMEN section. She was clearly outstanding in collating information from all sources during a recent intensified "PBRUMEN" month, determining as a result the overall pattern of the PBRUMEN mission here, spotting operational leads and updating target studies on all PBRUMEN officials as a result. Her final writeup regarding both new information obtained and the gaps that remain was thorough and useful.

Subject is extraordinarily rapid and efficient in researching for info, organizing files and other material and writing up any kind of resulting memo or dispatch. The same might be said perhaps of some other real pros in the IA field. However, in addition, Subject has a good, tough, operations-oriented mind and positively contributes ideas and suggestions re new operational techniques which the station has used profitably. Subject has natural managerial abilities as recently demonstrated in her organizing TDY help in a station-wide file and watchlist effort in connection with a presidential visit. Her Spanish is more than adequate for reading reports, and handling operational messages in that language. In sum, Subject is a tremendous station asset and would be extremely hard to replace without noting a serious loss in station efficiency.

COMMENTS OF REVIEWING OFFICIAL

Although in my opinion there is an excessive use of "outstanding" by the rating officer, I am in accord with his narrative comments. Subject is definitely more than an IA and has performed as such when the station has required an individual with in-depth knowledge of station procedures, operational awareness combined with an ability to prepare studies in a short period of time. She's thorough, concise and rapid. One of our hardest workers and most dependable employees.

SECTION C NARRATIVE COMMENTS -continued

Three rather personalized comments might add meaning to this fitness report. Anyone, particularly a female, fitting the above description of efficiency and achievement can be, and often is a little overbearing and difficult to work with as a person. Subject, withall, is a pleasant personality who knows how to make her contributions and comments in a forthright but tactful manner. Secondly, and this one is a little hard to say, Subject in her voracious appetite for all kinds of facts can at times put undue emphasis on them including factual minutiae as against equally important but more elusive subjective factors. Thirdly, this rating officer has personally observed Subject only working on station premises at an office job, and frankly has no idea how she might function in outside operational work (cultivating people, working under outside cover).

Method of Recognition

1. This memo is being written in accordance with paragraph three of Book Dispatch 5273 of 12 April 1966.

3. Consideration should be given to an appropriate occasion in the fairly near future to grant another QSI to [redacted].

In July 1969 Subject was transferred from the Cuba Section to the Station front office to serve as an executive assistant to the COS with special responsibility for ensuring that the paper flow of the Station remained under effective control during the period of transition resulting from the assignment here of several senior officers. This transition period necessitated or gave rise to a number of changes in the management and administrative areas of the Station. Subject's performance in this assignment under these circumstances was clearly outstanding. Her sound judgement, imagination and responsiveness to guidance not only contributed to maintaining the stability and momentum of the Station but also made possible an early effort to come to grips with many of the problems which an inflated Registry and a highly distinctive records system created for the new Station management team.

During the ensuing six month period, Subject has recommended and implemented a number of changes which have produced a more effective and less costly records system. Paper holdings have been reduced substantially, input has been reduced and now conforms to basic CS procedures and requirements. Personnel savings have been effected and supervisory responsibilities more clearly delineated.

To sum up, Subject has made and continues to make a major contribution in a singularly unsensational area of Station activity. Her advice is sought and appreciated not only by the COS and myself, but by other

COMMENTS OF REVIEWING OFFICIAL It would be difficult to overstate the contribution made by Subject to this Station during the past six month period, and I concur fully in the ratings and comments of the Rating Officer. I might add that Subject is one of the more versatile, conscientious and productive employees with whom I have worked in this organization, and that in addition to the administrative/management role outlined above, continued to provide valuable operational/analytical assistance to the Cuban and other operational sections of the Station. The initiative and imagination shown by Subject in the very complicated administrative management assignment have been particularly commendable and her complete familiarity with the country, the language, and the background of the Station has been invaluable during this period of change.

personnel who appreciate her personal and professional qualities.

Subject is aware that her current assignment is an unusual one and that she soon may have worked herself out of her current job. Since she speaks fluent Spanish, has a unique ability to get along with people and to get things done, there will be no problem in assigning her back into a position more closely supporting operations. Our operations are certain to benefit thereby.

Subject's performance continued during the period under review to deserve high praise. Her enormous appetite for work, her attention to detail, her ability to absorb and digest enormous files and complicated cases, her professionalism and devotion to the duties entrusted to her really deserve the rating of outstanding. Subject speaks good Spanish, has considerable initiative, much experience in analytic work and a genuine talent for administrative work.

In view of her past performance, her record at the Station and her potential, Subject who was recommended for promotion to the GS-14 level should be promoted as soon as possible.

Subject's performance during the period of over one year under review continued to deserve the rating of Outstanding. Her major contributions during that period were in the fields of operational research and exploitation of information obtained through technical means. She was, during this period, given full responsibility for the handling of two full time senior transcribers including administrative matters. In view of the difficulty of recruiting target personnel the task of fully exploiting information obtained from technical sources is of great importance. Subject handled this task with her usual enormous capability for work, displaying initiative and great professionalism. She continued, in addition, to handle the other tasks listed in this report together with sensative reporting sent by a separate channel, altogether a much heavier workload than is usually carried by one person. She was helped in this by her good knowledge of Spanish, a talent for administrative work, considerable analytic experience and great devotion to her work. Subject should be considered for promotion to the grade of GS-14 at the first opportune moment.

Since her arrival at this Station, Subject's performance has truly been outstanding. She has, on her own initiative, reorganized many of the operational files and procedures of the PBRUMEN Section. She has made particularly useful exhaustive analyses of the documents concerning a number of Station targets not only per request of this Station but also on her own initiative. She has revamped the Section's travel program, curtailing the watchlist to more manageable size and expediting the reporting of travel information to the many customers for such information. Her thorough review of the take of several technical operations has increased their usefulness as well as emphasized their weaknesses.

Subject's [illegible] talent for administration, her initiative, sharp analytic mind and good knowledge of Spanish have greatly facilitated the operation of the PBRUMEN Section of this Station at a time of almost complete personnel change. She has not been directly involved with the actual running of operations both because she appears much better suited for the support type work intrusted to her and because she frankly would not have the time under present circumstances to do so. Subject is carrying the workload usually handled by more than one person.

COMMENTS OF REVIEWING OFFICIAL

The Reviewing Officer fully concurs in the evaluation of Subject by the Rating Officer. Subject consistently turns in a superior performance, whatever her task, and for a Station Chief the only problem she presents is to determine where best to assign her. She is a source of strength to her Section, has the knack of making herself irreplaceable.

Subject has continued to perform during the period under review in the same highly competent manner which all who know her have come to expect of her. She continues to put forth her best efforts at all times. She is particularly to be commended for the manner in which she cheerfully accepts onerous tasks, usually with very short deadlines, and invariably comes up with a thoroughly prepared answer within the time allotted. She is efficient, she is fully knowledgeable and capable in her job, she has a friendly, warm, and pleasant personality, and is always ready to respond to her fellow workers with a helping hand. She has no supervisory responsibility per se, but is frequently called upon for guidance to new secretaries and case officers alike and is of real help in such cases. Subject is one of the strongest Headquarters case officers known to rater, and her overall performance certainly borders very closely on being evaluated Outstanding.

This exceptionally competent and productive officer continued to perform at a level well above that of the GS-13 slot she occupies. While a good deal of her tremendous effectiveness stems from experience, continuity on the job and her natural retentive memory, during the period under review she also demonstrated a flair for, and applied her talents to, the solution of relatively major and complex planning and managerial problems in the area of operational support to Mexico Station activities.

To the list of her previously abudantly acknowledged capacity for hard, effective work, talent for training on the job younger officers, diligence, and versatile ability, this rater would like to add a note of appreciation for her everpresent tactfullness and discretion. No weaknesses affecting her present assignment have been noted; she is very careful and realistic in planning for expenditure of funds.

This officer is separately being recommended for promotion to GS-13.

WH will review this fitness report with others during a special meeting scheduled periodically to consider suitable recommendation for outstanding performance.

Amplify or explain ratings given in Section B to provide best basis for determining future personnel action. Manner of performance of managerial or supervisory duties must be described, if applicable.

Subject's performance during the rating period has been marked by general excellence. As indicated in Section B her supervision and direction of the Section's work relating to intel support, administration, preparation of special reports, training personnel, etc. is uniformly outstanding. The fact that these functions are handled in addition to her duties as the desk officer for the FI and Ops Support projects, which she performs with unusual competence, serves to illustrate her value to this Section. She has an exceptional ability independently to determine proper courses of action and to initiate action to carry them out. She has a profound understanding of the area operational program and contributions to it are imaginative and constructive.

In the opinion of the rater Subject's performance compares favorably with any GS-13 desk officer within his experience and she performs occasionally at the GS-14 level. Moreover, she carries out her duties cheerfully, loyally and in close and amicable cooperation with her fellow employees at all levels.

In those aspects of her duties which involve cost e.g. the review of operational projects, she has given close attention to the budgetary matters and has frequently suggested ways in which economies on the operations might be effected.

REPORT ON FOREIGN LANGUAGE APTITUDE AND EXPERIENCE

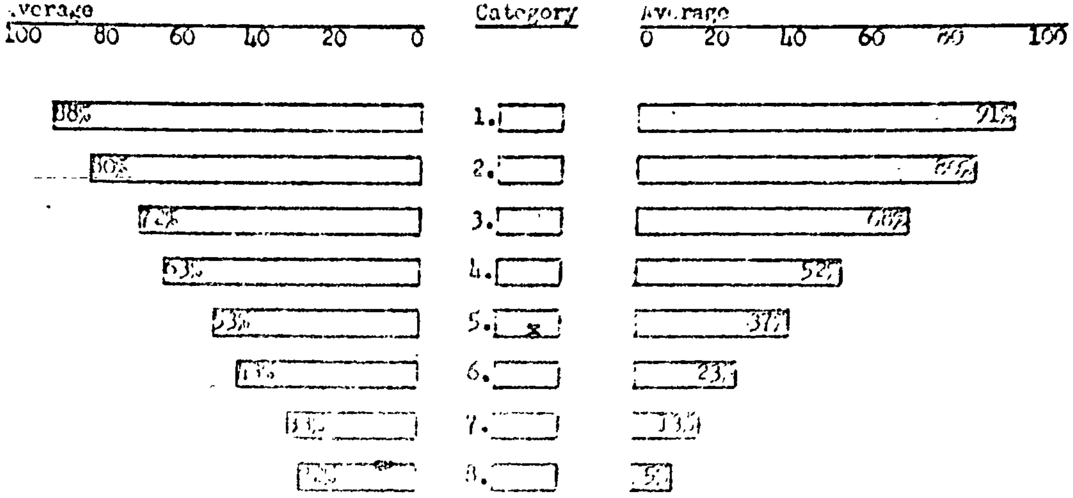
~~[illegible]~~ (Name) ____ (Office) ~~Female~~ (Sex) ~~27 September 1963~~ (Date of testing)

The category checked below is an interpretation of the scores made by the person named above on a battery of foreign language aptitude tests. The relationships between test performance and subsequent training performance of trainees in Agency language training courses are indicated by the graphs next to the aptitude categories. The graphs to the left are for women and the graphs to the right are for men. From these graphs you can read for each aptitude category the probability that a person in that category will perform in an Agency foreign language training course at an average or better-than-average level. For example, 22 per cent of the women who obtain an aptitude rating of "8" can be expected to be average or better in course performance, while 5 per cent of the men with ratings of "8" can be expected to be average or better in course performance. A man needs an aptitude rating of "6" to have about the same expectation of success in language training as a woman with a rating of "8". At the other end of the scale, 90 per cent of either men or women who obtain aptitude ratings of "2" can be expected to do average or better-than-average work in training. The differences in relationship are due to differences between men and women in both training performance and test scores. On the average women are somewhat higher on both.

Percent of Women Whose Language Training Performance Is Expected to Be Average or Better than Average

Aptitude Category

Percent of Men Whose Language Training Performance Is Expected to Be Average or Better than Average



Since many things other than aptitudes enter into the determination of training course performance, in any class of students there will usually be some whose performance will be better than would be expected from their test scores, just as there will likely be some whose performance is poorer than expected. STRENGTH OF MOTIVATION, PRIOR EXPERIENCE WITH A FOREIGN LANGUAGE, and other factors should be considered in selecting people for language training and in interpreting language training results. For example, the number of languages previously studied or learned and the amount of academic and non-academic language-learning experience are factors not measured by the tests but are indicative of probable success in learning a foreign language. Whether such experience was in the same language as the one to be studied or in a different one is, of course, an additional relevant factor.

3 foreign languages have been studied or learned by this individual.

Indicate significant strengths or weaknesses demonstrated in current position keeping in proper perspective their relationship to overall performance. State suggestions made for improvement of work performance. Give recommendations for training. Comment on foreign language competence, if required for current position. Amplify or explain ratings given in Section B to provide best basis for determining future personnel action. Manner of performance of managerial or supervisory duties must be described, if applicable.

This officer is the person chiefly responsible for the Mexico Desk's deserved reputation for excellence and efficiency. The complicated and never-ending tasks of project processing, clearances, tracing, and coordination are handled by her with blinding speed and unerring perfection. Procedural problems are there to be solved, and the solutions come with amazing rapidity. Operational problems are worked out thoroughly and conscientiously. No corners are cut and no principles are compromised.

Never at a loss for an answer, this officer never shrinks from any assignment and instinctively wants to take over any vexing problem which is holding up progress. She is complete mistress of file and record resources and answers all queries within minutes. The most complex budgetary and planning projects are handled by her with deceptive ease.

These qualities of rare efficiency and speed are coupled with an even rarer degree of amiability and cooperativeness. The work which proceeds under her at such a break-neck pace nonetheless goes on in an air of placidity and good humor. The large office staff is run without a trace of tension, jealousy, or friction. All of this is traceable to this officer's fine example and catalytic effect on her colleagues.

Finely-educated, handling the Spanish language with fluency, and keeping up with current events in her area, this officer is a unique asset to our organization.

This is a truly outstanding employee with capabilities far beyond those required for her present position. She has an unusually keen mind, makes decisions that are correct without hesitation and carries out all actions promptly and efficiently. She is the supervisor of the office staff, who respect and admire her ability. In addition to her skill, she is possessed of a most pleasing disposition which ingratiates her with the other members of the staff. The years of experience she has had at the various jobs to be done at a country desk make her invaluable as a trainer and supervisor for new personnel. Her knowledge of Spanish has also been especially helpful at the Mexican Desk. This supervisor would be most pleased to have her serve with him on any future assignment.

INSTRUCTIONS TO APPOINTING OFFICER

The appointing officer before whom the foregoing certificate is made shall determine to his own satisfaction that the appointment would be in conformance with the Civil Service Act, applicable Civil Service Rules and Regulations and acts of Congress pertaining to appointment.

This form should be checked for holding of office, pension, suitability in connection with any record of recent discharge or arrest, and particularly for the following.

(1) *Identity of appointee.*—The appointee's signature and handwriting are to be compared with the application and/or other pertinent papers. The physical appearance may be checked against the medical certificate. The appointee may also be questioned on his personal history for agreement with his previous statements.

(2) *Age.*—If definite age limits have been established for the position, it should be determined that applicant is not outside the age range for appointment. Until such determination is made, the appointment may not be consummated.

(3) *Citizenship.*—The appointing officer is responsible for observing the citizenship provisions of (1) the Civil Service Rules and (2) appropriation acts. Form 61 constitutes an affidavit for both purposes and is acceptable proof of citizenship status in the absence of conflicting evidence. In doubtful cases the appointment should not be consummated until clearance has been secured from the certifying office of the Civil Service Commission.

(4) *Members of Family.*—Section 9 of the Civil Service Act provides that whenever there are already two or more members of a family serving under probational or permanent appointment in the competitive service, no other member of such family is eligible for probational or permanent appointment in the competitive service. The appointments of persons entitled to veteran preference are not subject to this requirement. The members-of-family provision does not apply to temporary appointments. Doubtful cases may be referred to the appropriate office of the Civil Service Commission for decision.

12. REPORTING PERIOD (From- to-): 1 Jan 1964 - 22 November 1964

SECTION B — PERFORMANCE EVALUATION

W - Weak	Performance ranges from wholly inadequate to slightly less than satisfactory. A rating in this category requires positive remedial action. The nature of the action could range from counseling, to further training, to placing on probation, to reassignment or to separation. Describe action taken or proposed in Section C.
A - Adequate	Performance meets all requirements. It is entirely satisfactory and is characterized neither by deficiency nor excellence.
P - Proficient	Performance is more than satisfactory. Desired results are being produced in a proficient manner.
S - Strong	Performance is characterized by exceptional proficiency.
O - Outstanding	Performance is so exceptional in relation to requirements of the work and in comparison to the performance of others doing similar work as to warrant special recognition.

SPECIFIC DUTIES

List up to six of the most important specific duties performed during the rating period. Insert rating letter which best describes the manner in which employee performs EACH specific duty. Consider ONLY effectiveness in performance of that duty. All employees with supervisory responsibilities MUST be rated on their ability to supervise (indicate number of employees supervised).

SECTION C	NARRATIVE COMMENTS

Indicate significant strengths or weaknesses demonstrated in current position keeping in proper perspective their relationship to overall performance. State suggestions made for improvement of work performance. Give recommendations for training. Comment on foreign language competence, if required for current position. Amplify or explain ratings given in Section B to provide best basis for determining future personnel action. Manner of performance of managerial or supervisory duties must be described, if applicable. As explained in the previous fitness report, Subject was assigned to the Station for the purpose of taking charge of the Station's joint telephone tap center, a position for which he was and is eminently qualified by reason of extensive experience and outstanding language qualifications. However, this position did not materialize because of circumstances beyond the control of Subject and the Station.

It was therefore subsequently decided to train Subject locally, and have him gradually assume case officer and analyst responsibilities in certain simpler aspects of the Station's Soviet program.

Given the circumstances that Subject had not had prior case officer or analytical experience (or even any substantial past exposure to operations to give him vicarious experience) he progressed more than adequately in absorbing the training offered, in assuming responsibility for two Soviet operations and in the preparation of analytical studies on the Soviet complement. Given the further circumstances that the Station did not have the time to train him more than superficially, and that the operations he handled were basically uncomplicated, it must be stated that Subject cannot now be considered to be a case officer.

This conscientious and intelligent officer has high interest and enthusiasm for operations, but it is believed that his forte and future lies in the management of technical operations. This has been recognized also by Headquarters in the assignment presently planned for him.

As a staff agent under tourist cover, he and his family adapted themselves remarkably well to the deep cover situation and to all other environmental factors.

SECTION C **NARRATIVE COMMENTS**

OFFICE OF ... MAIL ROOM FEB 13 1 26 PM '64

Indicate significant strengths or weaknesses demonstrated in current position keeping in proper perspective their relationship to overall performance. State suggestions made for improvement of work performance. Give recommendations for training. Comment on foreign language competence, if required for current position. Amplify or explain ratings given in Section B to provide best basis for determining future personnel action. Manner of performance of managerial or supervisory duties must be described, if applicable.

From the time of Subject's arrival in Mexico and through 31 December 1963, he was utilized principally in translation work and was held on tap for the position of heading up the Station's joint telephone tap center. Circumstances beyond the control of the Station and Subject are responsible for the fact that the incumbent in charge of the center will continue these duties and Subject will be given other responsibilities.

Primarily, Subject will be trained to handle analyst and case officer responsibilities in the Soviet field. The level and range of the responsibilities will depend on the progress Subject makes in handling these duties in a manner satisfactory to the Station.

Subject is most conscientious and effective in every assignment given him to date, and the Station is extremely pleased to have him available as an outside Station asset. He is enthusiastic about all his work, including certain part-time routine and arduous duties, and he looks forward with confidence to the prospect of becoming a case officer. Although it is premature to state positively that Subject will succeed as a case officer, the supervisor believes that Subject will undoubtedly progress adequately.

Subject and his family have acclimated themselves excellently to the deep cover situation, faster than most of the Station's other staff agents, and certainly with fewer problems and requests for guidance from the Station's staff.

During most of the period reported on, Subject was concerned with administrative problems associated with the phase-out of the Station. Despite the consequent operational lull, Subject continued to maintain a satisfactory degree of morale in agents assigned him, worked up and implemented realistic training programs, and continued to develop excellent targets studies against the possibility of a policy change. In addition, important information collected locally by Subject on illegal activities of Cuban refugees was of great interest to other agencies offices in the area. Subject was the only Station source of such information which was acquired only because of Subject's ability to maintain rapport with agents, terminated during the period because of the cutback in infiltration operations.

It could also be noted as Subject finishes his long tour at this Station and prepares for his next assignment, that he is a thoroughly professional intelligence officer and is, in many ways, an outstanding one. Technically, he is an expert on infiltration tactics and, through his Special Forces experience, an expert on anti-guerrilla warfare as well. Just as important, is his ability to gain respect and rapport with foreign agents. He has an imaginative approach to operations, is resourceful in devising tactics, and determined in carrying out his assignments. He is a definite asset to WOFIRM.

If extra space is needed to complete Section C, attach a separate sheet of paper. During the period under review, Subject has continued to produce at his previous high level and he has planned and executed three intelligence collection operations against a denied area with the two teams under his supervision and direction. His leadership qualities have, to a large degree, enabled him to maintain his commando group morale at a high level under the difficult circumstances of enforced inactivity. Subject's indigenous agents respect him and are willing to follow his instructions to the letter. Subject's seemingly limitless resourcefulness, drive and initiative coupled with his demonstrated proficiency for this type of work mark him as one of the few persons known to the Rater who is ideally suited to this particular type of agent handling on a day-to-day, face-to-face basis.

During the reporting period Subject has committed his four infiltration boat teams on a total of seven operations and excellent results have been realized. He has conducted extensive testing of equipment and techniques in support of Station requirements and Headquarters requests. His reporting after these field tests has shown that his reporting ability has improved to such a degree to warrant a rating of strong in this duty.

He is cost and security conscious and has demonstrated his effectiveness in the use of personnel, equipment and operational funds. Subject has not had the benefit of formal language training and does not have a definitive language capability. During the period of this report Subject has continued to show an outstanding proficiency in the supervision of the Field Agents under his control. He has continued to maintain the morale of his agents and to keep them at a high level of proficiency by a strong training schedule and by planning and executing outstanding operations in the field of reconnaissance, deception, and Special Operations Teams. During the last four months he has also had the responsibility of forming and training three additional Infiltration Craft Crews. Subject formed two Special Operations Infiltration/Exfiltration Teams and conducted one infil/exfil operation into PBRUMEN. Subject has remained active in testing new equipment and techniques for possible use by the Station. Subject has an excellent concept of Special Operations-PM techniques and acts as advisor to Chief of Special Operations Branch on PM type activities in Special Operations. Subject continues to provide reports on exile activities in all areas and is constantly pushing his Agents in this field. He is a hard worker and is a capable administrator and supervisor. He knows his job, does not need close supervision and has shown ability to branch out into other fields of WOFACT activities. He is cost and security conscious and has shown that he is effective in the use of personnel, space, equipment and operational funds.

SECTION C — NARRATIVE COMMENTS

Indicate significant strengths or weaknesses demonstrated in current position keeping in proper perspective their relationship to overall performance. State suggestions made for improvement of work performance. Give recommendations for training. Comment on foreign language competence, if required for current position. Amplify or explain ratings given in Section B to provide best basis for determining future personnel action. Manner of performance of managerial or supervisory duties and cost consciousness in the use of personnel, space, equipment and funds, must be commented on, if applicable. If extra space is needed to complete Section C, attach a separate sheet of paper.

Subject has been under my supervision for approximately 6 months. During this period he has shown an outstanding proficiency in the supervision of his Commando Group. He is responsible for the logistical support, maintenance, planning and operations of the group and must also maintain their motivation and moral. As a result of the stand-down in PM activities at this Station, one of his major duties has been keeping his group motivated and happy. Subject has performed these tasks in a very professional manner; he has shown strong leadership qualities and a definite ability to adapt to difficult and frustrating changes in the operational climate. Subject has had the additional duty of handling an FI Agent for the Station. He has spent long hours on this activity and has shown that he is fully capable of broadening his scope of activities to other fields besides the supervision of a commando group. He is cost and security conscious and has shown that he is effective in the use of personnel, space, equipment and operational funds.

Section D., 3.

This is the third Fitness Report prepared on Subject since his assignment to this Station. The comments set forth on the two previous Fitness Reports by the Reviewing Officer and the Chief of Station are in the main still applicable. The Reviewing Officer has been most favorably impressed with Subject's performance in his present position. Subject has continued to perform his job in his usual competent, dependable and professional manner. The Reviewing Officer shares the Rating Officer's high opinion of Subject's performance and there is no doubt that Subject has contributed significantly to the Station's activities. Subject's over-all performance continues to warrant an evaluation of Strong.

Additionally, Subject has a flair for getting along with the members of the Commando Group without losing objectivity. Subject's operational planning is sound and complete in all details. Subject is completely self-sufficient in operational command and agent relationship situations. Subject's performance at this Station clearly warrants an over-all evaluation of Strong.

He is capable of handling larger units of personnel and assuming greater responsibility in the PM field. If he were required to accept duties of a broader nature in the intelligence field involving less supervision of his own activities, he would need to improve in the areas of written and oral expression and in his understanding of KUBARK requirements and responsibilities. In this regard he would need additional training and exposure to more extensive KUBARK fields as he has not had the opportunity for participating in such KUBARK activities. Subject does not have the proficiency of the language used.

Continuation of FITNESS REPORT, Section D:

Subject is a well-qualified para-military specialist, who has fully mastered the tools of his trade. Subject applies all of his para-military knowledge in the performance of his current duties as the senior outside case officer for a thirty-man commando group, which is capable of carrying out a variety of different missions. These missions include caching operations, sabotage raids, tactical intelligence reconnaissance activities and contingency missions related to war plans. Subject is at his best in dealing with men and military equipment. Subject's major weakness is in records management and reports writing. Despite this minor weakness, Subject's over-all performance warrants an evaluation of Proficient.

Subject has the potential to train and operationally exploit para-military forces in units which have a T/O strength of not more than 60 men. Subject could command a conventional military formation at the battalion level. Subject is capable of mounting counter-insurgency operations with the use of forces up to battalion strength.

Subject's work comes to the attention of the Reviewing Officer on a bi-weekly basis.

Subject's future assignments should be in the para-military field. If Subject is to remain in operations in Latin America, he must be given an opportunity to study Spanish on a formal basis.

SECTION E NARRATIVE DESCRIPTION OF MANNER OF JOB PERFORMANCE

Stress strengths and weaknesses demonstrated in current position. Indicate suggestions made to employee for improvement of his work. Give recommendations for his training. Describe, if appropriate, his potential for development and for assuming greater responsibilities. Amplify or explain, if appropriate, ratings given in SECTIONS B, C, and D to provide the best basis for determining future personnel actions.

As a former military officer, Subject is hard working and abundantly sincere in his efforts to fight Communism. His performance since Aug 1961 has not been at the top level of his capabilities for several reasons, not all of which are within his ability to overcome. Subject has had little clandestine training, and is therefore not always able to comprehend the intangible factors which prevent, delay and cancel operations. A further reason is the absence of military law as a basis for discipline for his men. Still another reason is the directive for only limited action with which he has had to live since August. This is merely to say that in a period of policy formation when the action forces have had to be held in limbo, he has not been at his best.

Subject's dealings with his agents have in turn been affected by his own frustrations. His inability to rationalize situations has resulted in obtuse explanations to them which have made them harder to handle. His reluctance to put things on paper has detracted from his performance and denied him the clarifying process which reporting provides. His security consciousness has been similarly affected by his frustrations.

Subject is in need of training in tradecraft and PM operations. His basic qualifications for PM Case Officer work are such that he can, with training, do a much better job. This combined with a program of concentrated action would undoubtedly bring out the best in him, which should be of real value to the Agency.

MEMORANDUM FOR : Director of Personnel

SUBJECT : CIARDS Retirement of Mr. Grayston L. Lynch, GS-14, SOD, on the Basis of Qualifying Domestic Service

1. This memorandum submits a recommendation for your approval in paragraph 4.

2. After more than twenty years of active military service, Mr. Lynch joined CIA in February 1961 to assist in operations against the Cuban target. He was awarded the Intelligence Star for his participation in the Bay of Pigs and related activities in the spring of 1961. Because of the sensitivity of his duties in behalf of CIA, his periods of foreign service were not recorded in the usual manner. From August 1961 until June 1968 he was intensively involved in the recruitment, training, administration and operational direction of a large number of agents as well as the planning and direction of operations into Cuba.

3. After reviewing his application for admission to CIARDS and corroborating statements from Clandestine Service officers acquainted with his work, the Clandestine Service Career Service Board concluded that Mr. Lynch's case merits a recommendation for approval. It is our view that the demands placed upon him were at least on a par with those borne by operations officers assigned overseas.

4. It is, therefore, recommended that Mr. Lynch be designated a participant in the CIA Retirement and Disability System on the basis of qualifying domestic service. If he is accepted for CIARDS, Mr. Lynch will apply for disability retirement.

MEMORANDUM FOR THE RECORD

SUBJECT : Grayston L. Lynch

REFERENCE: Mr. Lynch's memorandum to Director of Personnel, dated 22 June 1971.

1. On the basis of what I can recall from the time I was connected with the Bay of Pigs activity and my years with WH Division thereafter, Mr. Lynch has stated his tasks correctly.

2. Since the issue is whether Mr. Lynch's service in Miami could be considered equivalent to that of an Operations Officer overseas, the following might be considered:

Mr. Lynch had to operate clandestinely.

He used pseudonyms, safesites for meetings, non-official cover.

He handled, trained and dispatched agents. He debriefed them. He worked with them side by side.

He worked long, irregular hours (days and nights) under unusual pressures and at personally inconvenient and unappealing sites.

Mr. Lynch was, during the Bay of Pigs period at least, in real personal danger. (Our case officers abroad do not often face such situations nor do they have to display such courage.)

Excluded from automatic
downgrading and
declassification

3. In summary, Mr. Lynch's tasks were professionally and personally more demanding than those of many of our Operations Officers abroad. He had to apply clandestine techniques and concepts in a highly volatile and difficult operational climate. To admit him to the CIA Retirement System seems justified.

MEMORANDUM FOR: Director of Personnel

SUBJECT : Inclusion in CIARDS - Grayson L. Lynch

1. Mr. Lynch's memorandum dated 22 June 1971 requesting that service at JMWAVE be considered as qualifying service under CIARDS has been reviewed by individuals familiar with his activities during the period noted. They state that his memorandum is factual and accurately represents the situation as it existed at JMWAVE.

2. The service described is considered comparable to that performed overseas. WH Division concurs in favorable action on his request should that be the recommendation of the Board.

MEMORANDUM FOR: Director of Personnel

SUBJECT : Recommendation for Approval of
Mr. Grayston L. Lynch as a Participant
in the CIA Retirement and Disability System

REFERENCE : HR 20-50

1. It is strongly recommended that Mr. Grayston L. Lynch be approved as a participant in the CIA Retirement and Disability System.

2. It is the opinion of the Special Operations Division that the duties performed by Mr. Lynch from the time he entered on duty in February 1961 until early 1968 meet the spirit and intent of the criteria for "qualifying service" as defined in HR 20-50b. The lone exception to these criteria is that Mr. Lynch was not "abroad" during the time involved except on a sporadic basis. This exception, however, was due completely to the geographical location of the area of operations. This location made it uniquely propitious to have Mr. Lynch assigned to and work out of a domestic base. There is no question, however, that Mr. Lynch's service was in the conduct and support of covert operations which required continuing practice of security and tradecraft procedures and which included, from time to time, hazards to his life and health. It is also believed that Mr. Lynch would be at a disadvantage in obtaining other employment because of the sensitivity of his past service as well as the dearth of requirements for his peculiar background, skills and knowledge.

3. On the basis of the above and Mr. Lynch's unique personal record, it is believed that his service during the described period is certainly equivalent to if not in excess of the requirements for "creditable service abroad" and that if it had not been for a geographical accident, this service would have been performed as

part of an assignment abroad within the fullest meaning of the definition contained in the referent regulation. Therefore, approval of Mr. Lynch's request for designation as a participant in the CIARDS on the basis of service performed between 1961 and 1968 is not only strongly recommended but is requested as the grant of an entitlement fully earned by a very deserving employee.

MEMORANDUM FOR: Director of Personnel

SUBJECT : Request for Designation as a Participant in CIARDS--Mr. Grayston L. Lynch

1. It is requested that domestic service reflected in the following paragraphs be approved as qualifying service for the CIARDS and that I be designated as a participant in the system.

2. I entered on duty with the Agency on 10 February 1961. I was sent TDY immediately to New Orleans, Louisiana and from there to Key West, Florida to prepare WH Division agent assets for operational missions. On 28 March 1961 I departed Key West, Florida aboard a covert Agency ship bound for Nicaragua where I engaged in the preparation of Agency vessels and assets scheduled for operations into Cuba. On 13 April 1961 I departed Nicaragua via an Agency vessel for the 17 April 1961 landing operation in the Bay of Pigs, Cuba. I was assigned as the Case Officer for the Agency command ship, Cuban Brigade Headquarters, and the Underwater Demolition Team (UDT) element. I participated in armed action both at sea and on shore during the four days of the invasion attempt and, per direct instructions from the DCI, engaged in a series of covert landings and operations into Cuba for several days following the invasion landing. I returned to Headquarters on 29 April 1961.

3. In August 1961 I was assigned PCS to JMWAVE at Miami, Florida as a Paramilitary Operations Officer. From my arrival in August 1961 until July 1965 I served under commercial cover outside the station, intermittantly using my home and various safehouses as "ad hoc" offices. All contact with the station was by telephone and/or personal meetings prearranged with station personnel. These personal contacts were either at my home, in safehouses, or at other meeting places deemed appropriate. During this period I was responsible for the recruitment, training, administration and operational direction of a very large group of Agents. This entailed numerous clandestine meetings, both day and night, with these Agents. Since they were in various stages of training, assessment or preparation for an operation and were located throughout Dade and Monroe counties in

SECRET

[illegible]

Florida, I was required to drive an average of 5000 miles per month to provide the necessary handling and support. The major training exercises were as follows:

a. Three black flights to ISOLATION for periods of one to three weeks duration during which time I was required to remain in the black training areas as handler for the Agents.

b. One three day trip to Lake Worth, Florida during which I conducted the ground phase of parachute training for 26 Agents and arranged for civilian instructors and planes for two parachute jumps per man.

c. Two black flights to Camp McKall, North Carolina to conduct parachute training for 36 Agents, during which time, as Chief Instructor, I made two parachute jumps.

d. Two black flights to the Ranger Training Center at Eglin AFB, Florida for additional parachute, commando and guerilla warfare training for 38 Agents. Both trips were of two weeks duration each and again, I made two parachute jumps.

e. Four black flights to Fort Stewart, Georgia for training in weapons and tactics for 38 Agents. Training was conducted with all weapons from the .45 calibre pistol up to and including the 4.2 inch mortar. Demolition and sabotage training including night and day tactical exercises using live ammunition and explosives were also conducted. Each exercise lasted from five to 15 days.

f. Eight training exercises from three to seven days duration each were conducted in and around the Everglades National Park and the Marquesas Keys in Florida.

g. Over 70 mission rehearsals of two or three days duration conducted in the Florida Keys.

4. In addition to the above training exercises I planned and directed 115 actual operations into Cuba during this period. This involved the isolation of a five to 25 man team in a safehouse for three days to two weeks preparing for an operation and remaining with them day and night until they were launched. It also involved receiving the team at the conclusion of the mission and again holding them in a safehouse for a two day debriefing period.

5. In 1965 I set up an office in Perrine, Florida, under commercial cover, to administer the Agent group. I remained in this office conducting operations and training as before until April 1966. My office was moved into the JMWAVE Station at that time, but I remained under commercial cover and my duties continued to be the same.

6. During the time I was assigned to JMWAVE I was required to participate in numerous voyages aboard Agency ships into international waters. Many of these were near to and into denied waters. I was also required to participate in several search and rescue aircraft flights of long duration over international water, near and into denied areas.

7. It is my belief that my activities and duties from August 1961 to June 1968 were of the types normally found only in overseas clandestine activities for which the five year CIARDS "creditable service abroad" requirement was intended. I am available for further explanation or clarification if any of the above information is required, or if confirmation of my service by other Agency personnel is needed, I submit the following names of knowledgeable individuals:

a. Gerald Droller, DDP/NSP
b. Robert Ortman, WH/COG
c. George French, SOD/CB
d. William Broe, C/WH

8. In view of the facts presented above, I request to be designated a participant in the CIA Retirement and Disability System and will apply for disability retirement when my participation is approved.

Mr. Grayston L. Lynch, is a Career Agent who entered on duty into the Agency in February 1961 and served in New Orleans, Louisiana and Key West, Florida preparing WH Agent assets for operational assignments. In March 1961 he left Key West, Florida aboard a covert Agency vessel for Nicaragua where he assisted in the preparation of Agency vessels and assets scheduled for operations into Cuba. In April 1961, he left Nicaragua on a Agency vessel to participate in the landing operations in the Bay of Pigs, Cuba. He was ~~[illegible]~~ involved in armed action both at sea and at shore during the four days of the invasion attempt and, from direct instructions from the DCI, engaged in series of covert landings and operations into Cuba for several days following the invasion landing. For this action Mr. Lynch ~~subsequently~~ received the Intelligence Star. Mr. Lynch subsequently served as a paramilitary operations officer at Miami, Florida until approximately June 1968. During this period he participated in numerous clandestine activities including agent training, parachute training, weapons training, ~~and~~ He Also planned and directed 115 actual operations into Cuba.

In the course of these earlier operational assignments, Mr. Lynch ~~[illegible]~~ developed a psychosis which will not permit him to travel by air at all nor by overland means for any lengthy period of time.

This has resulted in a medical hold being placed on Mr. Lynch for any overseas assignment PCS or TDY. Since he is uniquely a field special operations officer there are literally no departmental duties to which he can be assigned. Since there is no suitable assignment available for Mr. Lynch it is necessary to terminate Mr. Lynch's contract as a Career Agent. Since he is eligible for Involuntary Retirement under CIARDS, Mr. Lynch has made application for retirement effective 10 September 1971. In view of Mr. Lynch's age, specialized skills, long service in a uniquely sensitive area, and peculiar contribution to the Agency's mission it is believed that a termination bonus at the time of his retirement is fully warranted.

Mr. Lynch is currently the equivalent of a GS-14, step 5 with an annual salary of $23,591. The proposed $10,000 termination bonus represents, therefore, less than 42% of his annual salary or approximately 5 months pay. In connection with this, it should be noted that if he were being terminated rather than retiring, he would be entitled by virtue of the provisions of his contract to 90 days notice which would equal approximately $6,000 at his current rate of pay in salary alone. Additional fringe benefits would increase this figure.

MEMORANDUM FOR: Chief, SOD/SS/Personnel

SUBJECT : Mr. Grayston Lynch

1. Assuming no interruptions or changes of assignment or status in the interim, Mr. Lynch will complete his currently scheduled Spanish language training in mid-April 1971. Between now and then it is understood that he will--on his own initiative and with whatever assistance and encouragement we can properly provide--make an effort to overcome his phobia of flying and thereby, in due course, qualify medically for TDY or PCS overseas field duty.

2. In view of Mr. Lynch's past history, however, we cannot assume that he will be successful or will even actively press to overcome his problem. In spite of his career agent status and his operational performance (Intelligence Star), we cannot, in all conscience, carry him on SOD contract rolls indefinitely in an unproductive capacity. He has completed all of the advanced and refresher operations training necessary to qualify for assignment now. He has not adapted well nor has he been receptive to the kinds of headquarters duty assignments open to him. He is a field paramilitary officer.

3. It is prudent, therefore, to begin contingency planning now for his appropriate retirement and outplacement into a job which will offer him both security and personal satisfaction. His Spanish language training should enlarge his horizons and opportunities. We can predict he will not, at least at first, take at all kindly to the idea of retirement and relinquishing his Agency association. He is emotionally involved, and identifies himself as an Agency career field operations officer.

4. Please acquaint C/CSPS and DDP/JO with the background of this case, and together with them begin now to plan for this contingency.

MEMORANDUM FOR THE RECORD

SUBJECT: Retirement Annuity
Mr. Grayston Lynch

1. Retirement Operations Division of the Office of Personnel (Linda Birch) provided the following computations for a proposed annuity for Mr. Grayston Lynch if he retired on the dates indicated. These figures were computed on 30 October 1970 and were based on the following:

		31 Dec 1970	30 April 1971
AGE (DOB: 14 June 1923)		47 years, 6 mts.	47 years, 10 mts.
CREDITABLE SERVICE (Including S/L)		31 years, 8 mts.	32 years
HIGH AVERAGE (3 Years)		$19,655	$20,261
BASIC ANNUITY:	Per Annum	$ 9,979	10,478
	Per Month	832	873
BASIC ANNUITY REDUCED FOR SURVIVOR:			
	Per Annum	9,251	9,700
	Per Month	771	808
SURVIVOR ANNUITY:	Per Annum	5,488	5,763
	Per Month	457	480

2. The above annuity would be recomputed when Mr Lynch becomes 62 years old. This recomputation is required to drop off post 1956 military service which applies to Social Security eligibility. Subject has no choice in this matter if he is eligible for Social Security benefits. If he is NOT eligible for Social Security benefits then the military service will remain creditable toward his Civil Service retirement annuity. The recomputed annuity would be as follows:

BASIC ANNUITY:	Per Annum	$ 8,695	$ 9,145
	Per Month	725	762
BASIC ANNUITY REDUCED FOR SURVIVOR:			
	Per Annum	8,096	8,502

SURVIVOR ANNUITY:	Per Annum	$ 4,782	$ 5,030
	Per Month	399	419

3. It should be noted that the entire annuity at either time is reduced 2 % per year for each year Mr. Lynch is under 55 years of age. This amounts to a total reduction of approximately 15%.

MEMORANDUM FOR THE RECORD

SUBJECT: Grayston Lynch

1. Mr. Lynch reported to C/SOD/Pers for interview on 5 December 1968. JMWAVE officials had notified him of the medical decision and the purpose of this visit to arrange for a six month interim assignment period while he undergoes appropriate treatment in Miami. We discussed the terms of the agreement which was made part of memorandum of agreement and was signed by Mr. Lynch and C/SOD/Pers. -(attached)

2. Mr. Lynch visited WH Division for discussions regarding the interim assignment with Dave Philips, Cuba Desk. According to Lynch there was some difference of opinion about the job at this point as to whether he'd be working for JMCOBRA or for Cuba Desk. He discussed this again with WH officials who he says agreed that he would work on a project for Mr. Philips unless Mr. Esterline had something specific he needed him to do. A message was to be sent out to this effect by WH Division.

3. Mr. Redmond of Agent Panel and Mr. Pollock SAS/OP were advised of status of this case but did not need to see Mr. Lynch unless he wished an interview. Pete Gaughan and Dr. Robinson of OMS were contacted and Dr. Robinson provided the names of three cleared consultants in Miami area for Mr. Lynch's referral. Mr. Lynch had a brief interview with Mr. Holcomb to let him know that arrangements for the six month interim assignment had gone well, he understood the terms of the agreement, and hoped to return in six months qualified for full duty including overseas and flying. He then took care of his accountings in SOD/E&F and departed for the drive back to Florida.

4. Mr. Lynch appeared to be in good spirits on this visit. He seemed to understand fully the terms of the six month agreement and expressed appreciation for being given this period of time to prove himself qualified for continued employment. However, he was left with no doubt of our intentions to terminate his contract at the end of the six month

MEMORANDUM OF AGREEMENT

SUBJECT: Temporary Assignment -
Mr. Grayston Lynch

1. As a result of his recent fitness for duty physical examination, it was determined that Mr. Lynch is qualified only for domestic assignments not involving flying. This decision means that Mr. Lynch is not currently qualified to perform the duties required of him under the IUJEWEL Program. These duties involve primarily overseas assignments and require flying both as the normal means of transportation to and from areas of assignment and as an integral part of his job concerned with training and conduct of airborne operations.

2. Since Mr. Lynch is not qualified to perform the duties required of his position at this time or for the indefinite future, three courses of action have been considered as follows:

a. Termination of contract under the 90-days notice clause of his contract.

b. Initiation of action for disability retirement.

c. Approval of a 6-month domestic (temporary) assignment while Mr. Lynch pursues appropriate treatment to determine whether his current disability is temporary.

3. In recognition of Mr. Lynch's long period of dedicated service to the Federal Government and this Agency, it has been agreed to offer him the 6-month interim assignment as per paragraph 2.(c) above under the following conditions:

SECRET

a. That an appropriate domestic assignment is available.

b. That he pursues appropriate treatment during the 6-month assignment period.

c. That Mr. Lynch report for another medical evaluation at the end of the 6-month assignment to determine whether he is qualified for full duty including overseas assignments involving flying.

4. It is further agreed that if, at the end of the 6-month period, Mr. Lynch is not found qualified for full duty including overseas assignments involving flying, action will be initiated to terminate his contract employment as in paragraph 2.(a) or (b) above.

1. Mr. Lynch called to advise that he was still in the local area and ask if he could pick up his annuity check and change his forwarding address and banking instructions as he was no longer going to go to Tampa, Florida. He said he was buying part interest in a boat and had rented an apartment in Key West, Florida and would be living and working there. In this respect he wanted to know if he should not have a change in his cover status from "open" to "under cover" because of his "new" location.

2. Mr. Frank Stewart was advised of the change of Mr. Lynch's plans and his inquiry regarding a change in cover status. Mr. Stewart (SOD/Security) subsequently advised that Mr. Lynch would remain "open" and that he, Mr. Stewart would call Mr. Lynch and brief him on the subject.

3. Inquiry on Mr. Lynch's behalf into the other questions led to the following:

(over)

a. Mr. Paul Seidol, OP/Retirement Division, the officer who processed Mr. Lynch's retirement, is the appropriate local contact for Mr. Lynch to have to handle any problem with his retirement or his annuity payment. In this respect Mr. Seidol suggested that his telephone number be given to Mr. Lynch for this and future inquiries, so long as Mr. Lynch was in the local area. Otherwise, Mr. Lynch has been given correspondence instructions. Mr. Seidol's telephone number was then given telephonically to Mr. Lynch with instructions to call for arrangements regarding his annuity check, banking instructions, change of address, etc. Mr. Lynch acknowledged this instruction.

TO : Record

DATE: 15 July 1971

FROM : DDAldridge

SUBJECT: Mr. Grayston L. Lynch

File

Mr. Lynch telephoned today and advised that he did not want his termination bonus to be held for payment in Calendar Year 1972 as agreed upon, but would like to have it payed at the time of his retirement. I pointed out that this would result in a good tax bite, but [illegible] Gray stated that he would need the money at the time of retirement and would just have to sustain the additional tax.

Mr. Lynch also asked if he could obtain an advance on his salary of about $500 as his salary checks were mailed to a bank in Florida and he had exhausted his supply of [illegible] checks because he had thought he would have left the area by now. He was advised that this could be done but that it would take a memo from him to the Director of Finance. He stated that he would come to the office on 16 July to prepare the memo. He should be sent to C/SOD/B&F to initiate the memo and the action to obtain the advance on his salary.

MEMORANDUM FOR : Director of Personnel

SUBJECT : CIARDS Retirement of Mr. Grayston L. Lynch, GS-14, SOD, on the basis of Qualifying Domestic Service

1. This memorandum submits a recommendation for your approval in paragraph 4.

2. After more than twenty years of active military service, Mr. Lynch joined CIA in February 1961 to assist in operations against the Cuban target. He was awarded the Intelligence Star for his participation in the Bay of Pigs and related activities in the spring of 1961. Because of the sensitivity of his duties in behalf of CIA, his periods of foreign service were not recorded in the usual manner. From August 1961 until June 1968 he was intensively involved in the recruitment, training, administration and operational direction of a large number of agents as well as the planning and direction of operations into Cuba.

3. After reviewing his application for admission to CIARDS and corroborating statements from Clandestine Service officers acquainted with his work, the Clandestine Service Career Service Board concluded that Mr. Lynch's case merits a recommendation for approval. It is our view that the demands placed upon him were at least on a par with those borne by operations officers assigned overseas.

4. It is, therefore, recommended that Mr. Lynch be designated a participant in the CIA Retirement and Disability System on the basis of qualifying domestic service. If he is accepted for CIARDS, Mr. Lynch will apply for disability retirement.

MEMORANDUM FOR: Director of Personnel

SUBJECT : Recommendation for Approval of Mr. Grayston L. Lynch as a Participant in the CIA Retirement and Disability System

REFERENCE : HR 20-50

1. It is strongly recommended that Mr. Grayston L. Lynch be approved as a participant in the CIA Retirement and Disability System.

2. It is the opinion of the Special Operations Division that the duties performed by Mr. Lynch from the time he entered on duty in February 1961 until early 1968 meet the spirit and intent of the criteria for "qualifying service" as defined in HR 20-50b. The lone exception to these criteria is that Mr. Lynch was not "abroad" during the time involved except on a sporadic basis. This exception, however, was due completely to the geographical location of the area of operations. This location made it uniquely propitious to have Mr. Lynch assigned to and work out of a domestic base. There is no question, however, that Mr. Lynch's service was in the conduct and support of covert operations which required continuing practice of security and tradecraft procedures and which included, from time to time, hazards to his life and health. It is also believed that Mr. Lynch would be at a disadvantage in obtaining other employment because of the sensitivity of his past service as well as the dearth of requirements for his peculiar background, skills and knowledge.

3. On the basis of the above and Mr. Lynch's unique personal record, it is believed that his service during the described period is certainly equivalent to if not in excess of the requirements for "creditable service abroad" and that if it had not been for a geographical accident, this service would have been performed as

SECRET

part of an assignment abroad within the fullest meaning of the definition contained in the referent regulation. Therefore, approval of Mr. Lynch's request for designation as a participant in the CIARDS on the basis of service performed between 1961 and 1968 is not only strongly recommended but is requested as the grant of an entitlement fully earned by a very deserving employee.

MEMORANDUM FOR: Director of Personnel

SUBJECT : Request for Designation as a Participant in CIARDS--Mr. Grayston L. Lynch

1. It is requested that domestic service reflected in the following paragraphs be approved as qualifying service for the CIARDS and that I be designated as a participant in the system.

2. I entered on duty with the Agency on 10 February 1961. I was sent TDY immediately to New Orleans, Louisiana and from there to Key West, Florida to prepare WH Division agent assets for operational missions. On 28 March 1961 I departed Key West, Florida aboard a covert Agency ship bound for Nicaragua where I engaged in the preparation of Agency vessels and assets scheduled for operations into Cuba. On 13 April 1961 I departed Nicaragua via an Agency vessel for the 17 April 1961 landing operation in the Bay of Pigs, Cuba. I was assigned as the Case Officer for the Agency command ship, Cuban Brigade Headquarters, and the Underwater Demolition Team (UDT) element. I participated in armed action both at sea and on shore during the four days of the invasion attempt and, per direct instructions from the DCI, engaged in a series of covert landings and operations into Cuba for several days following the invasion landing. I returned to Headquarters on 29 April 1961.

3. In August 1961 I was assigned PCS to JMWAVE at Miami, Florida as a Paramilitary Operations Officer. From my arrival in August 1961 until July 1965 I served under commercial cover outside the station, intermittently using my home and various safehouses as "ad hoc" offices. All contact with the station was by telephone and/or personal meetings prearranged with station personnel. These personal contacts were either at my home, in safehouses, or at other meeting places deemed appropriate. During this period I was responsible for the recruitment, training, administration and operational direction of a very large group of Agents. This entailed numerous clandestine meetings, both day and night, with these Agents. Since they were in various stages of training, assessment or preparation for an operation and were located throughout Dade and Monroe counties in

Florida, I was required to drive an average of 3000 miles per month to provide the necessary handling and support. The major training exercises were as follows:

a. Three black flights to ISOLATION for periods of one to three weeks duration during which time I was required to remain in the black training areas as handler for the Agents.

b. One three day trip to Lake Worth, Florida during which I conducted the ground phase of parachute training for 26 Agents and arranged for civilian instructors and planes for two parachute jumps per man.

c. Two black flights to Camp McKall, North Carolina to conduct parachute training for 36 Agents, during which time, as Chief Instructor, I made two parachute jumps.

d. Two black flights to the Ranger Training Center at Eglin AFB, Florida for additional parachute, commando and guerilla warfare training for 38 Agents. Both trips were of two weeks duration each and again, I made two parachute jumps.

e. Four black flights to Fort Stewart, Georgia for training in weapons and tactics for 38 Agents. Training was conducted with all weapons from the .45 calibre pistol up to and including the 4.2 inch mortar. Demolition and sabotage training including night and day tactical exercises using live ammunition and explosives were also conducted. Each exercise lasted from five to 15 days.

f. Eight training exercises from three to seven days duration each were conducted in and around the Everglades National Park and the Marquesas Keys in Florida.

g. Over 70 mission rehearsals of two or three days duration conducted in the Florida Keys.

4. In addition to the above training exercises I planned and directed 115 actual operations into Cuba during this period. This involved the isolation of a five to 25 man team in a safehouse for three days to two weeks preparing for an operation and remaining with them day and night until they were launched. It also involved receiving the team at the conclusion of the mission and again holding them in a safehouse for a two day debriefing period.

5. In 1965 I set up an office in Perrine, Florida, under commercial cover, to administer the Agent group. I remained in this office conducting operations and training as before until April 1966. My office was moved into the JMWAVE station at that time, but I remained under commercial cover and my duties continued to be the same.

6. During the time I was assigned to JMWAVE I was required to participate in numerous voyages aboard Agency ships into international waters. Many of these were near to and into denied waters. I was also required to participate in several search and rescue aircraft flights of long duration over international water, near and into denied areas.

7. It is my belief that my activities and duties from August 1961 to June 1968 were of the types normally found only in overseas clandestine activities for which the five year CIARDS "creditable service abroad" requirement was intended. I am available for further explanation or clarification if any of the above information is required, or if confirmation of my service by other Agency personnel is needed, I submit the following names of knowledgeable individuals:

a. Gerald Droller, DDP/NSP
b. Robert Ortman, WH/COG
c. George French, SOD/GB
d. William Broe, C/WH

8. In view of the facts presented above, I request to be designated a participant in the CIA Retirement and Disability System and will apply for disability retirement when my participation is approved.

MEMORANDUM FOR RECORD

SUBJECT : Mr. Grayston L. Lynch

As of 29 May 1971 Mr Lynch was accredited with the following leave balances:

Annual Leave - 376 hours

Sick Leave - 340 hours

If Mr. Lynch's application for CIARDS and his application for Disability Retirement under CIARDS were all processed and awaiting approval, he could go on sick leave as of close of business 2 July to exhaust all sick leave and then all excess annual leave prior to retirement. He would retire under these circumstances, if approved as of COB 6 October 1971. (This date was computed by payroll based on the following assumptions; 1). He would take no leave between now and 2 July, 2). He earned 26 days leave per year, 3). He had a leave ceiling of 360 hours.

Durold D. Aldridge
AC/SOD/Personnel

Mr. Lynch will not be permitted to process all the paperwork for his pending retirement and then depart the area. Retirement Operations Division/OP will not accept his application for CIARDS retirement until he has actually been accepted into CIARDS, nor will they initiate a request to the OMS for a medical survey until an application has been submitted for Disability retirement, nor will they submit a request for medical survey under Civil Service and then convert to CIARDS. Concurrently, OMS will not review their requirements on Mr. Lynch prior to receiving a request from ROD/OP. Since neither Retirement Ops Div/OP nor OMS will take action pending resolution of Mr. Lynch's participation in CIARDS I advised him we would be unable to hit the 2 July target date for him to commence his leave in preparation for retirement. He xxx stated that

this was all right with him. Therefore, I am scheduling the following procedure:

As of 25 June 1971, Mr. Lynch's signed application for participation in CIARDS, form 3100 and Service Agreement accompanied by AC/SOD' recommendation was hand carried to CSIS for Board action. AC/SOD also added a note on the routing sheet requesting that the request receive every consideration on an expedite basis.

When the above application is approval, Mr. Lynch should be scheduled for a retirement interview with Mr. Paul Seidel to make application for Disability retirement and be scheduled for any physical examination or medical interview required.

Following the above, Mr. Lynch could commence his leave and proceed to Florida pending the outcome of his application for Disability Retirement. When approved he would continue to utilize his sick leave and excess annual leave until it was expired. The retirement would then become effective.

In an interview with Mr. Lynch on 15 June 1971, the C/SOD/SS and the AC/SOD/Pers discussed the possibility of obtaining ~~xx~~ a Termination Bonus in the amount of $10,000 payable on retirement with Mr.Lynch. This was because of Mr. Lynch's unique situation regarding his service and career with the Agency. It was pointed out that this was definitely not the normal ~~procedure~~ procedure, but was based purely on Mr. Gray's status as a Career Agent and the unusual aspects of his termination. It was agreed that although Mr. Gray would become eligible for this bonus, if we were able to get it approved, as of the date of his retirement, we would not make payment until ~~sixx~~ Calendar Year 1972 in order to give Mr. Gray benefit of the tax break resulting from the delayed payment. Mr. Gray agreed to all of the above provisions without equivication.

Mr. Gray was instructed to maintain constant contact with Maritime Branch —at least check with them twice a day to ascertain if there were messages or requirements for his presence or appointments scheduled for him. He agreed to this as he does not have a phone at home and there is no other positive means to contact him. SOD/Personnel is to leave any message necessary for him with the Secretary/Maritime Branch for delivery. (If no other contact possible, try informally through Jerry Sohl.)

SUBJECT: Mr. Grayston L. Lynch

The undersigned talked with Subject on 14 June in regards to his future. I told him Mr. Droller did not have the authority to authorize "absence from duty for up to a year" as was stated to Mr. Lynch. I told him SOD will take the proper action through the Agent Panel to try and find "a retirement assignment" for him in the Miami area. This action will probably take a few weeks and he will be kept informed of the progress. He was quite understanding and accepted the above with little comment.

FOREIGN LANGUAGE APTITUDE TESTING RESULTS

NAME [illegible] De [illegible]

DATE 13 August [illegible] Irving

Since many things other than aptitudes enter into the determination of training course performance, in any class of students there will usually be some whose performance will be better than would be expected from their test scores, just as there will likely be some whose performance is poorer than expected. STRENGTH OF MOTIVATION, PRIOR EXPERIENCE WITH A FOREIGN LANGUAGE, and other factors should be considered in selecting people for language training and in interpreting language training results. For example, the number of languages previously studied or learned and the amount of academic and non-academic language-learning experience are factors not measured by the tests but are indicative of probable success in learning a foreign language. Whether such experience was in the same language as the one to be studied or in a different one is, of course, an additional relevant factor.

MEMORANDUM FOR THE RECORD

Subject: Mr. Grayston Lynch

It was determined that no action would be taken on this case until after the first of the year (1971) at which time Mr. Lynch will be advised by C/SOD/Personnel that he will be made available for a suitable operational assignment, most likely overseas, unless he opts to apply for disability retirement.

If Mr. Lynch opts to apply for disability retirement he will be continued in his present assignment pending approval of his retirement.

If Mr. Lynch chooses to be shopped for a field assignment, SOD will initiate action to locate such a position. When found, Mr. Lynch will be processed for the assignment. Should he fail to be medically approved, action will be taken to obtain his retirement for medical reasons. Should an assignment not be forthcoming by April 1971, a medical disposition for overseas planning purposes (General) will be requested.

The purpose of the above scheduled action is to either find a suitable assignment for Mr. Lynch or to effect his disability retirement on either a voluntary or involuntary basis.

COURSE OBJECTIVES - CONTENT AND METHODS

CS Records I (Introduction to Records) is intended for Operations Officers and intelligence and clerical assistants who support operations through any form of records activity. It reviews the records mission of the CS and examines the logic and structure of the system itself. The responsibilities of CS personnel to the system, and the services provided by the different elements of the system, provide the central theme of the course. Students are familiarized with methods of input, maintenance and retrieval of information, and in disposition, disposal and destruction of the records themselves. The course includes an introduction to the various machine programs associated with the records system, and outlines the management cycle by which the system is controlled and modified.

S E C R E T COMMENTS

16 June 1970

By the instructor, the low grade in section 9 was due to a lack of motivation and interest on the part of Mr. Lynch. She said he appeared to have an attitude that the course content would come automatically and it wasn't necessary to study. ~~Even after was~~ Basic facts of the course must be learned early to successfully complete the course and even after ~~[illegible]~~ these points were repeated each day, but Lynch ~~failed~~ was unable to answer questions concerning them.

YEAR OF BIRTH: 1923
SERVICE DESIGNATION: Contract
GRADE : 14
NO. OF STUDENTS : 12
EOD DATE : Feb 61

COURSE OBJECTIVES - Content and Methods

The course aims to provide a description of counterintelligence in the covert and clandestine warfare of today in both friendly and enemy areas. To do so, a brief description of the intent, purpose, and dynamics of espionage, subversion and counterintelligence as practiced by the major enemy forces is provided and this is contrasted to the spectrum of counterintelligence activities of the United States of America and of allied countries. To support counterintelligence missions levied upon the Agency, a review of the cooperation and coordination and exchange of information and services between cooperating services is provided. Counterintelligence is then related to all other Clandestine Service operations and its place as a part thereof is demonstrated. To provide the student with a framework within which to work, the organization of the Agency for counterintelligence is also provided.

ACHIEVEMENT RECORD

This is a certificate of attendance. Since this course is a survey course, it does not attempt to qualify the student as a counterintelligence operations officer and no evaluation is made of individual performance.

DATES OF COURSE: 30 March - 10 April 1970

A. COURSE OBJECTIVES

1. This course is designed primarily for either a case officer who expects to stage and manage an audio surveillance operation, or for those who have related responsibilities, i.e., desk officer and physical security officers.

2. Although the course provides a basic familiarization with audio devices the primary emphasis is on the collection of target data, planning the operation, locating a listening post, supporting the entry, exploiting "the take", and the orderly termination of the operation once it has outlived its usefulness. In short, managing an audio operation from inception to termination.

3. The course provides a basic knowledge of "quick plant" devices to permit the exploitation of certain targets of opportunity. The same devices could be concealed and used for "Carry In" devices.

4. Finally, the course provides instruction in the first echelon maintenance of listening post equipment, so that an operation can continue without the constant presence of an audio technician.

SUBJECT : Maritime Branch Nominee for the Special Operations Division's Historical Program

REFERENCE : Chief, Special Operations Division Memorandum dated 24 December 1969. Subject: Historical Program

1. Considering the current manpower shortages and relative inexperience in the Maritime Branch, I recommend that only one quarter man year be devoted to the Historical Program in calendar years 1970-71. If and when officers report on board who have the unique or special knowledge required to write histories, then these personnel will be assigned this task and a subsequent increase in man years available will be made.

2. I nominate Mr. Grayston L. Lynch to write histories in CY 1970-71. This officer combines the unique knowledge of first hand operational experience with the qualities of a good narrative writer.

1. CONTENTS OF REF DISCUSSED WITH DEVUONO WHO REACTED VERY STRONGLY. ALTHOUGH INFORMED THAT CABLE DID NOT REJECT CLAIM, DEVUONO CLEARLY ANTICIPATES THAT REJECTION WOULD COME FOLLOWING DISCUSSIONS AT HEADQUARTERS. DEVUONO STATED THAT THE BOARD HAD ALL THE FACTS, THAT HE COULD ADD NOTHING TO WHAT HAD BEEN WRITTEN AND THAT "HQS DISCUSSIONS" WAS EUPHEMISM FOR REJECTION.

2. DEVUONO HAS SUFFERED LOSS OF PERSONAL PROPERTY BEFORE AND DOES NOT FEEL THAT HE WAS PROPERLY CONPENSATED. HE CITES MANY OF THE DIFFICULTIES THAT HE ENCOUNTERED DURING AND AFTER THE BAY OF PIGS WHEN MANY OFFICERS MADE EXTENSIVE PROMISES WITHOUT AUTHORITY OR ABILITY TO FOLLOW-THROUGH. AT PRESENT DEVUONO SCHEDULED TO GO TO LAOS LEAVING HIS FAMILY IN THE JMWAVE AREA. IT DESIRABLE THAT DECISION THIS CLAIM BE MADE SOONEST.

O - Outstanding	Performance is so exceptional in relation to requirements of the work and in comparison to the performance of others doing similar work as to warrant special recognition.

SPECIFIC DUTIES

List up to six of the most important specific duties performed during the rating period. Insert rating letter which best describes the manner in which employee performs EACH specific duty. Consider ONLY effectiveness in performance of that duty. All employees with supervisory responsibilities MUST be rated on their ability to supervise *(indicate number of employees supervised).*

SECTION C NARRATIVE COMMENTS

Indicate significant strengths or weaknesses demonstrated in current position keeping in proper perspective their relationship to overall performance. State suggestions made for improvement of work performance. Give recommendations for training. Comment on foreign language competence, if required for current position. Amplify or explain ratings given in Section B to provide best basis for determining future personnel action. Manner of performance of managerial or supervisory duties and cost consciousness in the use of personnel, space, equipment and funds, must be commented on, if applicable. If extra space is needed to complete Section C, attach a separate sheet of paper.

During most of the period reported on, Subject was concerned with administrative problems associated with the phase-out of the Station. Despite the consequent operational lull, Subject continued to maintain a satisfactory degree of morale in agents assigned him, worked up and implemented realistic training programs, and continued to develop excellent targets studies against the possibility of a policy change. In addition, important information collected locally by Subject on illegal activities of Cuban refugees was of great interest to other agencies offices in the area. Subject was the only Station source of such information which was acquired only because of Subject's ability to maintain rapport with agents, terminated during the period because of the cutback in infiltration operations.

It could also be noted as Subject finishes his long tour at this Station and prepares for his next assignment, that he is a thoroughly professional intelligence officer and is, in many ways, an outstanding one. Technically, he is an expert on infiltration tactics and, though his Special Forces experience, an expert on anti-guerrilla warfare as well. Just as important, is his ability to gain respect and rapport with foreign agents. He has an imaginative approach to operations, is resourceful in devising tactics, and determined in carrying out his assignments. He is a definite asset to WOFIRM.

INFO - CHIEF, WH/COG - CHIEF, WOTACK - CHIEF, WOMOLD

FROM - CHIEF OF STATION, JMWAVE

SUBJECT - RYBAT - AVAILABILITY CAREER AGENT /GS-14/ OF IRVING C. DEVUONO FOR REASSIGNMENT

DUE TO AN EXTENSIVE CUTBACK IN SPECIAL OPERATIONS AT JMWAVE STATION, DICTATED BY REASONS OF ECONOMY AS WELL AS A CHANGE IN OPERATIONAL POLICY, THE SERVICES OF IRVING C. DEVUONO ARE NO LONGER NEEDED AND HE MAY BE CONSIDERED AVAILABLE FOR REASSIGNMENT. RESUMES OF DEVUONO'S WOFIRM AND PRE-WOFIRM EXPERIENCE, PREFERENCE AS TO REASSIGNMENT AND SUPERVISOR'S COMMENTS ON DEVUONO'S PERFORMANCE FOLLOW.

WOFIRM EXPERIENCE

1. FOLLOWING RETIREMENT FROM THE U. S. ARMY IN 1960, DEVUONO ENTERED WOFIRM 1 FEBRUARY 1961 AS CONTRACT AGENT GS-11. HE WAS CONVERTED TO CAREER AGENT, GS-13 IN MID-1961 AND WAS PROMOTED TO GS-14 LEVEL IN LATE 1967.

2. DEVUONO'S FIRST ASSIGNMENT WITH WOFIRM WAS AS PM OFFICER IN THE BAY OF PIGS TASK FORCE. HE ENGAGED IN THE LAST STAGES OF PREPARATION FOR THE BAY OF PIGS INVASION AND ACTIVELY PARTICIPATED IN THE LANDING AND SUBSEQUENT RESCUE OPERATIONS. FOR HIS PERFORMANCE, HE WAS DECORATED BY THE THEN CHIEF, WOFIRM.

3. DEVUONO WAS THEN ASSIGNED TO THE JMWAVE STATION AND HAS FULFILLED THE FUNCTION OF PM OFFICER ASSIGNED AS CASE OFFICER FOR THE AMLILAC COMMANDO GROUP WHICH HAS VARIED IN STRENGTH OVER THE YEARS FROM 42 TO 24 TRAINED ASSETS. ONE OF DEVUONO'S MOST IMPORTANT TASKS HAS BEEN CONCEIVING, PLANNING AND BRIEFING OF THE AMLILAC TEAM ON JMWAVE SPECIAL OPERATIONS. [illegible]

DEVUONO'S TASKS WERE CENTERED AROUND TRAINING AND RUNNING OPERATIONS INTO THE DENIED AREA. THESE OPERATIONS INCLUDED SABOTAGE, RAIDS, INFILTRATION AND EXFILTRATION OF SO TEAMS ON VOLENS MISSIONS, RECONNAISANCE, AND ELINT DECEPTION OPERATIONS. BECAUSE THE AMLILAC GROUP HAS ALSO MANNED AND OPERATED THE INFILTRATION CRAFT ASSIGNED TO THE ACTIVITY, SUBJECT HAS ALSO BEEN RESPONSIBLE FOR OVERALL SUPERVISION OF MAINTENANCE AND OPERATIONAL USE OF SOME 17 SMALL CRAFT, AS WELL AS INSURING THAT BOAT CREWS MAINTAINED THEIR PROFICIENCY.

PRE-WOFIRM EXPERIENCE

1. PRIOR TO JOINING WOFIRM, DEVUONO SERVED IN THE U. S. ARMY FOR 21 YEARS, RETIRING AS A CAPTAIN IN LATE 1960. THE LAST FIVE YEARS OF HIS ARMY CAREER WERE SPENT IN SPECIAL FORCES UNITS WHERE HE SERVED AS TEAM LEADER OF OPERATIONAL TEAMS AND AS AIR OPERATIONS AND TRAINING OFFICER. DEVUONO SERVED IN FRANCE AND GERMANY FOR OVER FOUR YEARS, IN PANAMA, PUERTO RICO AND CUBA, AND THE BETTER PART OF ONE YEAR IN LAOS. HE IS QUALIFIED IN ALL PHASES OF SPECIAL FORCES AND AIRBORNE OPERATIONS - SPECIAL NOTE SHOULD BE TAKEN OF HIS QUALIFICATIONS AS MASTER PARACHUTIST, RADIO OPERATOR, AND SPECIAL FORCES INSTRUCTOR.

ASSIGNMENT PREFERENCE

1. SO CASE OFFICER IN ACTIVE OPERATIONS IN LATIN AMERICA
2. SO CASE OFFICER IN ACTIVE OPERATIONS IN SOUTHEAST ASIA
3. SO CASE OFFICER IN MIDDLE EAST OR AFRICA
4. INSTRUCTOR

SUPERVISOR'S COMMENTS

1. DEVUONO'S PERFORMANCE AT JMWAVE LEAVES NO DOUBT THAT HE IS EXTREMELY WELL QUALIFIED IN ALL PHASES OF SPECIAL OPERATIONS WORK. DESPITE, OR PERHAPS AS A RESULT OF, HIS ELEVEN YEARS EXPERIENCE IN THIS FIELD, HE RETAINS DEDICATION AND ENTHUSIASM

FOR HIS WORK, AS REFLECTED BY HIS CONSTANT SEARCH TO IMPROVE MODUS OPERANDI. HIS TARGET STUDIES AND PREPARATION FOR OPERATION HAVE UNIFORMLY DEMONSTRATED HIS CONSCIENTIOUS APPROACH TO THE TASK AND A THOROUGHNESS THAT COMES FROM EXPERIENCE. HE IS A STRONG LEADER, AND HAS DEVELOPED EXCELLENT RAPPORT WITH HIS AGENT PERSONNEL, THUS GAINING THEIR ACCEPTANCE FOR THE HIGH LEVEL OF PERFORMANCE HE EXPECTS.

2. IN ADDITION TO THE FOREGOING, DEVUONO IS ALWAYS ALERT TO WOLENS REQUIREMENTS, BOTH AS A BY-PRODUCT AS WELL AS THE PRIME OBJECTIVE OF CERTAIN OPERATIONS HE HAS DIRECTED. HE HAS ALWAYS USED HIS AGENT PERSONNEL, PARTICULARLY HIS PRINCIPAL AGENT, AS SOURCES OF WOLENS OPERATIONAL AND TARGET INFORMATION COLLECTED FROM THE EXILE COMMUNITY.

3. THE STATION FEELS THAT DEVUONO IS A HIGHLY VALUABLE ASSET TO OUR ORGANIZATION AND RECOMMENDS HIM WITHOUT QUALIFICATION FOR ANY ASSIGNMENT WITHIN HIS FIELD.

SPECIAL NOTE

Fitness Reports must be prepared with due regard for security considerations. For example, in the case of administrative and support personnel and others whose duties do not in themselves reveal sources of information and methods of operation, it is normally expected that a complete and realistic statement of specific duties may be reported in Section B. However, the nature, source, purpose or disposition of information or operations will not be included. On the other hand, the position titles and description of specific duties of certain other employees may jeopardize security and should not be fully reported on this form. In these cases, general statements of specific duties will be included in Section B indicating the level of responsibility.

SECTION C — NARRATIVE COMMENTS

Indicate significant strengths or weaknesses demonstrated in current position keeping in proper perspective their relationship to overall performance. State suggestions made for improvement of work performance. Give recommendations for training. Comment on foreign language competence, if required for current position. Amplify or explain ratings given in Section B to provide best basis for determining future personnel action. Manner of performance of managerial or supervisory duties and cost consciousness in the use of personnel, space, equipment and funds, must be commented on, if applicable. If extra space is needed to complete Section C, attach a separate sheet of paper.

During the period under review, Subject has continued to produce at his previous high level and he has planned and executed three intelligence collection operations against a denied area with the two teams under his supervision and direction. His leadership qualities have, to a large degree, enabled him to maintain his commando group morale at a high level under the difficult circumstances of enforced inactivity. Subject's indigenous agents respect him and are willing to follow his instructions to the letter. Subject's seemingly limitless resourcefulness, drive and initiative coupled with his demonstrated proficiency for this type of work mark him as one of the few persons known to the Rater who is ideally suited to this particular type of agent handling on a day-to-day, face-to-face basis.

During the reporting period Subject has committed his four infiltration boat teams on a total of seven operations and excellent results have been realized. He has conducted extensive testing of equipment and techniques in support of Station requirements and Headquarters requests. His reporting after these field tests has shown that his reporting ability has improved to such a degree to warrant a rating of strong in this duty.

He is cost and security conscious and has demonstrated his effectiveness in the use of personnel, equipment and operational funds. Subject has not had the benefit of formal language training and does not have a definitive language capability. In view of his long tenure of field assignments during his career with WOFACT, it is recommended he be given

SECTION C NARRATIVE COMMENTS

Indicate significant strengths or weaknesses demonstrated in current position keeping in proper perspective their relationship to overall performance. State suggestions made for improvement of work performance. Give recommendations for training. Comment on foreign language competence, if required for current position. Amplify or explain ratings given in Section B to provide best basis for determining future personnel action. Manner of performance of managerial or supervisory duties and cost consciousness in the use of personnel, space, equipment and funds, must be commented on, if applicable. If extra space is needed to complete Section C, attach a separate sheet of paper.

Subject has been under my supervision for approximately 6 months. During this period he has shown an outstanding proficiency in the supervision of his Commando Group. He is responsible for the logistical support, maintenance, planning and operations of the group and must also maintain their motivation and moral. As a result of the stand-down in PM activities at this Station, one of his major duties has been keeping his group motivated and happy. Subject has performed these tasks in a very professional manner; he has shown strong leadership qualities and a definite ability to adapt to difficult and frustrating changes in the operational climate. Subject has had the additional duty of handling an FI Agent for the Station. He has spent long hours on this activity and has shown that he is fully capable of broadening his scope of activities to other fields besides the supervision of a commando group. He is cost and security conscious and has shown that he is effective in the use of personnel, space, equipment and operational funds.

However, the nature, source, purpose or disposition of information or operations will not be included. On the other hand, the position titles and description of specific duties of certain other employees may jeopardize security and should not be fully reported on this form. BRIEF FOR THE DIRECTOR OF CENTRAL INTELLIGENCE

Grayston L. Lynch, Captain, U. S. Army (retired), Career Agent,
DDP/CA Staff, GS-13 Equivalent
Recommended for Intelligence Star

Captain Lynch was employed by another government agency prior to the Cuban invasion. During the preparations for the Cuban invasion, Captain Lynch was granted Agent status with CIA with the understanding he would return to his parent agency at the completion of the project. The Board recommends that he be awarded the Intelligence Star for his activities under fire on 16-17 April 1961. He personally led the beach reconnaissance party on the night of 16 April and succeeded in placing beach markers in preparation for the landing. On 17 April, his ship was besieged by an air attack. He was successful in leading the convoy to a point off the beach, during which time gunfire from his vessel destroyed two of the attacking aircraft. During the period 22-24 April, Captain Lynch led a team of three back to the objective area and rescued nine survivors of the invasion forces.

MEMORANDUM FOR: C/WH/B&F

SUBJECT : Federal Income Taxes
Irving G. DEVUONO (P), Contract Employee

1. During his recent visit to Headquarters, DEVUONO raised questions concerning his Federal income tax returns and interest allegedly due for income received during calendar year 1962. He stated he had filed covert returns for 1961 and 1963 and that he would file a covert return for 1964. He had previously been advised that he owed interest on his 1962 income in the amount of $165.54. He stated that this was not correct as the verbal instructions given him by Mr. Robert Bladergroen of OGC were followed by him when he filed his 1962 covert return. According to DEVUONO, Bladergroen discussed tax matters with him during a visit to JMWAVE sometime in April 1963.

2. As I was not previously acquainted with the facts in DEVUONO's case, I did not attempt to judge it nor to promise him that it could be resolved to his satisfaction. I did, however, inform him we would investigate the matter and would officially advise the Station of the decision. Therefore, please initiate appropriate action with the covert tax people and the Office of General Counsel (Mr. Bladergroen) to set this matter at rest. Informally, Bladergroen informs me that he recalls his conversations with DEVUONO and that DEVUONO either did not understand his instructions or chose to disregard them. I believe Mrs. O'Leary and at least one other member of her staff with whom DEVUONO consulted during his visit can assist in resolving this matter. I do not find any correspondence in his Personnel Folder other than a copy of a cable, IN 57726, dated 12 June 1963, bearing on this Subject.

TO :Lynch, Grayston L. DATE: 22 [illegible] 1964

Thru :Recorder, Honor and Merit Awards Board

FROM :Security Advisor, Honor and Merit Awards Board

SUBJECT:Lynch, Grayston L. - Personnel Matter
(Award Recommendation)

1. The Office of Security has been advised that you will be a recipient of an honor award in the Headquarters Building in the near future. This memorandum is designed to alert you to the security implications of receiving this award. As must be obvious to you, your role with the organization has been one involving very sensitive operations and projects calling for extraordinary security precautions. You will be expected to continue this kind of exacting security orientation in all dealings you may have with the outside world regarding this award.

2. First, the organization's security policies require that the number of persons on the outside learning of an award be limited. In your case, such persons should be limited to those in your immediate family.

3. Secondly, you are asked to scrupulously avoid releasing or cooperating in the release of any publicity regarding the award to public information media such as radio, television or the newspapers. This award should never be mentioned in the presence of any reporter or representative of any public information media.

4. After receiving your award you will be asked to return it together with any accompanying papers to the Secretary, Honor and Merit Awards Board, for safekeeping. When the cover and security factors requiring secrecy about your connection with CIA are no longer operative these award materials will be returned to you.

MEMORANDUM FOR: Chief, COVER

SUBJECT : Alias Documentation for Irving C. DEVUONO (P)

REFERENCES: : Memo to C/COVER dated 23 May 1963
Memo to C/PM dated 18 July 1963

1. Irving C. DEVUONO has used the alias George Lee in the local area. The circumstances which required the use of this alias is as follows:

DEVUONO, accompanied by the Real Estate Officer from the Cover Branch, under the alias Gregory Williams, went to ISLAMORADA in April 1963 to determine the suitability of S/H 177 for the AMLILAC Group. It was not anticipated at that time that DEVUONO would be required to use his name with the owner, Eddie Sweeting. However, arrangements for the S/H were made on the spot and the name George Lee given as the occupant of the house.

2. If possible it is requested that alias documentation be established in the name of George Lee. This is not an absolute requirement, however, and a registered alias could be assigned.

MEMORANDUM TO: Chief of Station, JMWAVE

VIA : DCOS/OS

FROM : Chief, Finance, JMWAVE

SUBJECT : Tax Problem of Irving G. DEVUONO

While on TDY at Headquarters, the writer conferred with the Head of the Covert Tax Unit on the subject problem. The writer was informed that the Covert Tax Unit is not able to accept and forward a Covert return for the year 1962 for the subject individual since a Form 1099 had been issued. It was further stated that the Internal Revenue Service, while performing a service last year (tax year 1961) of this nature, would not under any circumstances permit a person and/or persons receiving a Form 1099 or W-2 to file a Covert Return for such reported income. Therefore, it appears all avenues of escape for Irving G. DEVUONO have been closed and he should file an amended return for Tax Year 1962 to include the KUBARK income reported on Form 1099.

MEMORANDUM FOR : Irving C. DEVUONO

SUBJECT : Letter of Instruction

1. This memorandum is to confirm your appointment as Chief, AMLILAC and to provide you with instructions for the direction of that group.

2. The mission is to adapt current assets into a force which can enter the target area by sea or air to conduct reconnaissance, caching, sabotage, raids and/or guerrilla warfare support operations.

3. The organizational concept to be followed is that of small teams which can function independently or in combination and entirely under indigenous leadership. All personnel should be fully qualified in basic paramilitary skills and should be physically and mentally prepared to mount operations on short notice. Airborne capabilities will be developed when facilities necessary for training become available.

4. The standards for members of the group should be constantly upgraded by culling of members who become marginal or who do not develop as expected. Recruitment of promising new members will be dependent on the needs of the station based on policy directives. Priority should be given to sabotage training to permit the mounting of a sabotage program at the earliest possible moment. Coincidentally, planning and thought should be given to the topics of cover, recruitment, training and establishment of those facilities necessary for a rapid expansion of the group if a full scale operational program should be developed. Also, the force should be identified to the primary exile authority as a non political and independent body which is unilaterally engaged in the overthrow of the existing regime. The tempo of training should be maintained at a level sufficient to assure the continual proficiency of the group in all categories of activity in readiness for the order to mount a full scale program with all teams participating simultaneously. Readiness will not itself be justification for operations.

5. Your staff must be organized to permit close contact with team members so as to assure control over them and at the same time provide full security for the existence of your organization. It must also provide security for the planning of all activities in such a way as to assure the compartmentation of staff and team personnel associated with the different categories of operational activity.

6. The following guide lines are provided for the organization:

a. The size and military nature of the force require that the highest possible standard of security be maintained for all personnel and activities. Specifically, the scope should not be comprehended by team members, and compartmentation by teams should be practiced to the maximum.

b. Should, if possible, be composed of men who have no dependents.

7. The following tasks should be undertaken immediately:

a. Continue development of cover for all personnel, their absences, injuries, deaths.

b. Continue the development of concepts to provide for training, during active and inactive periods, transportation to training and staging areas and safehouse utilization.

c. Continue to devise procedures for handling and storage of classified material, arms and equipment.

d. Establish standards for recruitment, discipline, chain of command and security.

1. The subject person has submitted the attached memorandum which outlines his objection to paying the self-employment social security tax under the proviso of being self employed. Unfortunately the subject's contract contains the following proviso:

SUBJECT : INCOME TAX

I was sent to this Station in Aug 61 and was given a cover breifing at Headquarters before I left in which I was told that since I was paying into a retirement fund of this organization that they would no longer withold Social Security from my pay. In late 61 I was notified that they wre refunding to me all money withheld for incme tax up to that time and that I would have to file on the inside and to start withholding my own taxes. This was done and I was told by this station to file the covert return with them and to file an overt return on my Army retirement pay. This I did for the year 1961. I was also told by BOB the tax man to file this years return the same way. I made my own tax withholding during 1962 and have the money to cover the taxes,but now I am told that because someone made a mistake and mailed both me and the IRS a form 1099 on my 1962 pay that now I must file an overt return. This now will cause me to pay $225.00 selfemployment tax And will make me liable to a 6% penalty for not filing an estimated retumn quarterly. Since I would not have had to pay these extra taxes if the mistake in mailing the form 1099 had not been made and since I did everything in this matter that the station wanted me to do I do not feel that this extra cost should be [illegible] by me. I feel this is penalizing me for someone elses mistake. I ~~ask~~ request that this matter be reconsidered and that I be informed as to how I should file my 1962 tax return and that I also be told how this years withholding is to be done.

MEMORANDUM FOR THE RECORD

SUBJECT: Transfer of Irving C. DEVUONO to the AMLILAC Group

1. On 15 March 1963 a meeting was held at Ace Cartography in order to advise both Irving G. CADICK and Irving C. DEVUONO as to the latters transfer from the AMTABBY group to the AMLILAC group. In attendance at this meeting were Stanley R. ZAMKA, CADICK, DEVUONO and the writer.

2. ZAMKA initiated the discussion by stating that the 15th would be DEVUONO's last day with CUSOG and that he should take care of any accounts outstanding and complete processing out of CUSOG. DEVUONO was advised he would be contacted by WALTUCK later in the day in reference to his next assignment.

3. CADICK was then advised he should plan a caching operation during the month of April. The exact location, weight and contents of the cache would be passed to him the afternoon of the 15th. CADICK requested that a boat, the Squall King, with which a great deal of training had been accomplished be permitted to go on this caching operation. ZAMKA agreed that security wise the use of an organic AMTABBY boat might be worthwhile. CADICK will include the use of the Squall King in the operational plan which he will submit this coming week.

4. This meeting broke up at 1130 hours, 15 March 1963.

Fitness Reports must be prepared with due regard for security considerations. For example, in the case of administrative and support personnel and others whose duties do not in themselves reveal sources of information and methods of operation, it is normally expected that a complete and realistic statement of specific duties may be reported in Section B. However, the nature, source, purpose or disposition of information or operations will not be included. On the other hand, the position titles and description of specific duties of certain other employees may jeopardize security and should not be fully reported on this form. In these cases, general statements of specific duties will be included in Section B indicating the level of responsibility.

The nature of the action could range from counseling, to further training, to placing on probation, to reassignment or to separation. Describe action taken or proposed in Section C.

SECTION C NARRATIVE COMMENTS

Indicate significant strengths or weaknesses demonstrated in current position keeping in proper perspective their relationship to overall performance. State suggestions made for improvement of work performance. Give recommendations for training. Comment on foreign language competence, if required for current position. Amplify or explain ratings given in Section B to provide best basis for determining future personnel action. Manner of performance of managerial or supervisory duties must be described, if applicable.

Subject has shown a decided proficiency in the supervision of the type of unit for which he has responsibility. His men respect him and follow his orders readily. He is resourceful, acts with initiative, and delegates responsibility. In his field he thinks clearly and is decisive and versatile in his actions. He is capable of handling larger units of personnel and assuming greater responsibility in the PM field. If he were required to accept duties of a broader nature in the intelligence field involving less supervision of his own activities, he would need to improve in the areas of written and oral expression and in his understanding of KUBARK requirements and responsibilities. In this regard he would need additional training and exposure to more extensive KUBARK fields as he has not had the opportunity for participating in such KUBARK activities. Subject does not have the proficiency of the language used.

Continuation of FITNESS REPORT, Section D:

Subject is a well-qualified para-military specialist, who has fully mastered the tools of his trade. Subject applies all of his para-military knowledge in the performance of his current duties as the senior outside case officer for a thirty-man commando group, which is capable of carrying out a variety of different missions. These missions include caching operations, sabotage raids, tactical intelligence reconnaissance activities and contingency missions related to war plans. Subject is at his best in dealing with men and military equipment. Subject's major weakness is in records management and reports writing. Despite this minor weakness, Subject's over-all performance warrants an evaluation of Proficient.

Subject has the potential to train and operationally exploit para-military forces in units which have a T/O strength of not more than 60 men. Subject could command a conventional military formation at the battalion level. Subject is capable of mounting counter-insurgency operations with the use of forces up to battalion strength.

Subject's work comes to the attention of the Reviewing Officer on a bi-weekly basis.

Subject's future assignments should be in the para-military field. If Subject is to remain in operations in Latin America, he must be given an opportunity to study Spanish on a formal basis.

SUBJECT: Fitness Report, Devuono

1. The subject report being due, the writer is the only person observing DEVUONO's work and has statements and commendations which should be reflected in his fitness report. The contents of this memorandum will be established in DEVUONO's file in other form at later date by the writer.

2. DEVUONO has completed one year with CUSOG. In this period he has shown a complete and practical knowledge of paramilitary techniques and tactics. This knowledge is born of experience and application. His application of this knowledge for KUBARK has resulted in visible progress in the technical abilities of CUSOG personnel.

3. He has shared CUSOG responsibilities of organization, administration and operational preparation in a manner to follow out KUBARK practices to its credit.

4. He carries out clear instructions to the letter, reflecting a military background.

5. Contrary to observances noted in a previous fitness report DEVUONO has been found to be anything but naive in his dealings with PBRUMENS during the period observed.

6. His administrative and accounting procedures within CUSOG are in order.

7. Hesitating to call them weaknesses, the writer must state that DEVUONO's entire experience with KUBARK has been field experience, usually far out on a long string of contacts into a KUBARK installation, a fact which has prevented a look at any of the administrative side of paramilitary as conducted by KUBARK.

8. This man has good potential for helping KUBARK's paramilitary effort, which potential will be more effective when he has been schooled in the terminologies and pecularities of paramilitary KUBARK-style. It is recommended a tour by DEVUONO where such schooling can be conducted as on-the-job training would most bring out this potential.

SECTION E NARRATIVE DESCRIPTION OF MANNER OF JOB PERFORMANCE

Stress strengths and weaknesses demonstrated in current position. Indicate suggestions made to employee for improvement of his work. Give recommendations for his training. Describe, if appropriate, his potential for development and for assuming greater responsibilities. Amplify or explain, if appropriate, ratings given in SECTIONS B, C, and D to provide the best basis for determining future personnel actions.

As a former military officer, Subject is hard working and abundantly sincere in his efforts to fight Communism. His performance since Aug 1961 has not been at the top level of his capabilities for several reasons, not all of which are within his ability to overcome. Subject has had little clandestine training, and is therefore not always able to comprehend the intangible factors which prevent, delay and cancel operations. A further reason is the absence of military law as a basis for discipline for his men. Still another reason is the directive for only limited action with which he has had to live since August. This is merely to say that in a period of policy formation when the action forces have had to be held in limbo, he has not been at his best.

Subject's dealings with his agents have in turn been affected by his own frustrations. His inability to rationalize situations has resulted in obtuse explanations to them which have made them harder to handle. His reluctance to put things on paper has detracted from his performance and denied him the clarifying process which reporting provides. His security consciousness has been similarly affected by his frustrations.

Subject is in need of training in tradecraft and PM operations. His basic qualifications for PM Case Officer work are such that he can, with training, do a much better job. This combined with a program of concentrated action would undoubtedly bring out the best in him, which should be of real value to the Agency.

MEMORANDUM FOR: Chief, WH/4

SUBJECT: Project ZRJEWEL Reports.
William Robertson - Grayston Lynch

REFERENCE: Memo from Chief, CA/PMG to Chief, WH/4; 1 June 1961, Subject: Assignment of Robertson and Lynch to WH Division.

1. Paragraph 9 of Reference requested that CA/C/PMG be kept informed of the standard of performance, and of the acquisition of additional capabilities by either training or experience, of Robertson and Lynch during the period of their assignment to WH Division.

2. As Robertson and Lynch now have been employed operationally by WH/4 for a period of six months, and as they are the first to have been engaged under the new ZRJEWEL program, it would be appreciated if we could have reports from Chief, WH/4 on these men at an early date. In addition to the data required on regular Fitness Reports, we are interested particularly in knowing from WH/4:

a. How these men are being used, i.e., whether they are engaged in operations, training, planning, etc.; and the extent to which this has been exclusively in the field of PM activities.

b. If engaged in agent operations, whether they are employed as singleton agents, principal agents, recruiters, etc.

c. The degree and general location of their possible exposure to hazardous duty, if any.

d. The degree to which they may have been compromised in terms of personal security, if at all, and the general location where this may have happened.

e. Any new skills they may have acquired either by training or experience.

SECRET

3. Also, since CA/PMG has ultimate responsibility for these ZRJEWEL personnel after their operational usefulness to WH Division has ended, it would be very helpful to us in planning the future conduct of the ZRJEWEL program if occasionally we could have a report directly from each of these men personally, giving us their own appraisal of their current utilization. In this regard we would appreciate your view as to whether this would be feasible, within the bounds of operational security, and whether it could best be accomplished by requesting written reports, or by oral de-briefings when these men are in the Washington area.

SUBJECT: Award Recommendation

Ref : Recommendation for Honor or Merit Award, dated 16 October 1961

1. In the reference DEVUONO is recommended for an honor or merit award. It is noted the reference states he is currently in the field.

2. If the award is granted, the following security measures are recommended:

a. The award should be retained within Headquarters until such time as DEVUONO returns to Headquarters on a permanent change of station and security/cover considerations permit the release of the award to him. There would, of course, be no objections to informing him of the granting of the award by use of Agency secure channels.

b. Prior to DEVUONO's receiving physical possession of the award he should be instructed there are no objections to his showing the award to his immediate family and his associates in the Agency but that he should not release or cooperate in releasing any publicity regarding the granting of the award.

MEMORANDUM

SUBJECT: Policy Concerning Guests at Award Ceremonies

1. The Office of the Director has determined that when inviting guests to award ceremonies, the Agency will be as liberal as possible within the bounds of available space and security considerations since one of the purposes of an award ceremony is to let the family, friends, and associates of the recipient know that he has been honored.

2. In implementing this policy the points listed below will be guiding criteria:

a. Any Agency employee who is a friend of a recipient may come to the ceremony, up to the limit of space available, if the recipient asks that he be present.

b. Any Government employee (who is not employed by the Agency but who is witting of the recipient's employment) can come so long as there are no operational security reasons that would make his presence inappropriate.

c. Any friend who is not employed by the Government may be invited only if it is obviously desirable (Example-- A very close old friend who stood in the relationship of "family" to the recipient when subject had no immediate family). Friends who are not employed by the Government normally would be discouraged.

MEMORANDUM FOR: Chief, Western Hemisphere Division

SUBJECT : Recommendation for Awards, Cases of Mr. William Robertson and Mr. Grayston Lynch

1. The purpose of this memorandum is to recommend cash awards for subject employees.

2. In recent paramilitary operations against Cuba, Mr. Lynch and Mr. Robertson served as operations officers of the Central Intelligence Agency vessels BLAGAR and BARBARA J respectively. Both of these employees, in the course of extremely hazardous operations, repeatedly exposed themselves to fire by opposing land, sea and air forces. Their fearless and skilled leadership enabled indigenous forces to conduct an amphibious landing under the most difficult conditions, and their courageous determination to keep their vessels in position to support the operations, although under heavy air attack, was in keeping with the best traditions of the American people at war. Furthermore, their repeated landings, in person, on a hostile shore for the purpose of rescuing Cuban survivors of the invasion force, was a demonstration of extraordinary valor. Their exemplary conduct throughout the combat action was above and beyond the call of duty.

3. Military personnel performing in combat in such a manner would be eligible for the highest decorations for heroism.

4. In view of the extraordinary heroism displayed by Mr. Robertson and Mr. Lynch, I strongly recommend that they be awarded an appropriate commendation, and, in addition, a cash bonus award of five thousand dollars ($5,000.00) each.

SUBJECT : S-14114
#180184

1. Reference is made to the memorandum dated 12 May 1961 in which a covert security clearance was requested to enable utilization of Subject as a Career Agent, serving as a paramilitary specialist in any area that is needed. Subject will aid in providing senior paramilitary support for Agency activity under Project ZRJEWEL.

2. This is to advise that a covert security clearance is granted for the use of the Subject, as described in your request as set forth in paragraph 1, above.

3. Subjects of covert security clearances are not to represent themselves as, nor are they to be represented as, employees of CIA.

4. Your attention is called to the fact that a covert security clearance does not constitute complete compliance with the provisions of CIA Regulation 10-210. Therefore, if you should desire at a later date to change the status or use of this individual, a request for clearance to cover any proposed change should be submitted to this office.

5. This clearance becomes invalid in the event the Subject's services are not utilized within six months of the date of this memorandum.

1 June 1961

MEMORANDUM FOR: Chief, WH/4

SUBJECT: Assignment of Robertson and Lynch to WH Division

1. This is in response to your oral request for the transfer or assignment of Robertson and Lynch from this Staff to WH Division.

2. These employees were recruited as Career Agents under CA/PMG Project ZRJEWEL, and therefore are to be administered in accordance with the terms of this Project.

3. Under the terms of Project ZRJEWEL, CA/C/PMG is responsible initially for their selection and recruitment, and subsequently for their training and developmental assignments until they are transferred to an existing operational project under jurisdiction of an operating division.

4. Selection and recruitment involves complete processing to contract status under provisions of HB 20-1000-1, and requires also:

a. Security Clearances

b. Medical Clearances

c. Provision of Cover

d. Financial Briefing

e. Assessment and Evaluation

5. Training and development requires that subjects be provided tutorial or group training, according to their individual needs, to qualify them as senior PM officers capable of serving overseas as

case officers, instructors, advisors, or consultants; and capable of developing indigenous forces, directing operations, and personally participating in operations. The training envisioned normally would include, but not be limited to:

a. Language aptitude testing and subsequent language training.

b. Clandestine tradecraft.

c. Paramilitary operations training.

d. Covert Action Operations training and CI Familiarization.

6. Although both subjects are now under contract, as of this time, of all of the above-mentioned items of processing, training and development, the following yet remains to be done:

Robertson - medical clearance, provision of cover, financial briefing, Spanish language aptitude test and Spanish language training. Clandestine refresher training as deemed advisable.

Lynch - provision of cover, financial briefing, assessment and evaluation, language aptitude test and possible language training, and all basic Clandestine Operations training.

7. Project ZRJEWEL further provides that administrative responsibility for these employees including compensation, operational security, etc. will be transferred to the Operating Division for such periods of time as the employees are under the jurisdiction of the Division for operational duties. For administrative purposes, it is suggested that WH Division assume these responsibilities for both Robertson and Lynch as of 1 June 1961.

8. One of the major considerations in the contract employment of these two officers has been that their lack of association with the Agency, thus far, permits their operational utilization in circumstances

where staff employees cannot participate, and their long range continued employment is, to a certain extent, dependent on their being able to maintain this posture. It is requested, therefore, that you take every reasonable precaution to maintain their 'deniable' status.

9. Since the CA Staff will once again become responsible for these officers whenever such time may come that you no longer have a requirement for them, it would be very much appreciated if this office would be kept advised as to their standard of performance, acquisition of additional capabilities, by either training or experience, and we should be consulted before any changes or amendments are made in their contracts which might become commitments to be assumed by the CA Staff.

[illegible] [illegible]
Mr. [redacted]

Dear Mr. [redacted]:

Reference is made to your contract with the United States Government, as represented by the Contracting Officer, effective 10 February 1961, as amended. Effective [illegible] 61, said contract, as amended, is hereby terminated by mutual consent of the parties thereto and in lieu thereof the following agreement is substituted.

The United States Government, as represented by the Contracting Officer, hereby contracts with you for your services as a Career Agent under the following terms and conditions:

1. Status. Your status is that of a Government employee under contract and, as such, your rights and benefits are governed by the provisions of this agreement. It is specifically understood that you are not entitled to rights and benefits pertaining to appointed staff status, except as provided herein.

2. Cover. In the performance of your services hereunder, you will act under cover suitable to conceal your relationship with the Government. It is expressly understood and agreed that any and all documents which you may execute in the course of such cover employment are subordinate to this agreement and any contradiction in terms which may in any way amplify, extend or restrict your rights and/or obligations hereunder shall be resolved by this agreement which shall always be dominant.

3. Compensation and Taxes. For your services as a Career Agent, you will be compensated at a basic salary of $11,155 ~~$11,000~~ per annum. You will be entitled to a post differential in conformance with applicable Government regulations. In addition you will be entitled to authorized overtime, within-grade promotions and legislative pay adjustments in substantial conformance with rules and regulations applicable to Government appointed personnel. Payments will be made as directed by you in writing in a manner acceptable to the Government. Monies paid you directly or guaranteed by the Government under this paragraph constitute income for Federal tax purposes. You will be advised as to the method to be followed in reporting and paying such taxes. The method as well as the procedures used by this organization to implement its tax reporting responsibilities will be based primarily upon cover and security requirements. Unless precluded by such requirements, taxes will be withheld therefrom and submitted by this organization.

4. Allowances. You will be entitled to: (a) living quarters allowances in conformance with applicable Government regulations. You may be provided quarters by your cover facility or the Government and, in such event, you will not be entitled to the living quarters allowances herein indicated.

(b) Cost of living allowances in conformance with applicable Government regulations including, but not limited to, a post allowance or an equalization allowance in lieu thereof, a supplementary post allowance, a transfer allowance, a home service transfer allowance, an education allowance and a separation allowance.

5. Travel. You will be advanced or reimbursed funds for travel and transportation expenses for you, your dependents, your household effects and your personal automobile to and from your permanent post of assignment, and for you alone for authorized operational travel. In addition you will be entitled to storage of such household and personal effects as are not shipped, in conformance with applicable Government regulations. Upon the completion of each two (2) years of successful overseas service under this contract, you may be authorized travel expenses for you and your dependents from your permanent post of duty overseas to your place of recorded residence in the United States and return travel expenses to your permanent post of duty overseas. You will be entitled to per diem in lieu of subsistence in the course of all travel performed hereunder and, when authorized, for you alone while on temporary duty away from your permanent post of assignment. All travel, transportation and per diem provided for under this paragraph must be properly authorized, and expenses incurred hereunder are subject to payment and accounting in compliance with applicable Government regulations or according to the established policies of your cover facility, whichever is directed by the Government.

6. Operational Expenses. You will be advanced or reimbursed funds for necessary operational expenses including, but not limited to, entertainment and the purchase of information, as specifically approved by the Government or your cover facility. Such funds will be subject to payment and accounting in compliance with applicable Government regulations or according to the established policies of your cover facility, whichever is directed by the Government.

7. Repayment. It is recognized that your failure to account for or refund any monies advanced you hereunder shall entitle the Government to withhold the total amount of such indebtedness or any portion thereof from any monies due you under the terms of this contract in such manner as it deems appropriate.

8. Benefits. (a) You will be entitled to death and disability benefits equal to those authorized under the Federal Employees' Compensation Act, as amended. Claims by you, your heirs, or legal representatives under this paragraph will be processed by this organization in accordance with its procedures in such manner as not to impair security.

(b) You will be entitled to the continuance of pay and allowances in a manner similar to that set forth in the Missing Persons Act (50 U.S.C.A., App. 1001-1015).

(c) You will be entitled to sick and annual leave equal to and subject to the same rules and regulations applicable to Government staff employees. Such annual leave may only be taken at times and places approved in advance by appropriate representatives of the Government.

(d) From the salary paid pursuant to this contract there shall be deducted the appropriate rate percentage (presently 6 1/2%) for deposit and eventual crediting to the Civil Service Retirement Fund. When circumstances of your cover warrant or require contributions to social security, such contributions will be at your expense and you will not be reimbursed therefor by the Government.

(e) (1) This organization is authorized to pay the cost of necessary hospitalization and related travel expenses for illness or injury incurred by the U.S. Citizen full-time Career Agent in the line of duty while permanently assigned abroad.

[illegible]

(2) This organization may pay certain necessary costs of hospitalization and related travel expenses for illness or injury incurred by the dependents of a U.S. citizen full-time Career Agent permanently assigned abroad, while they are located abroad.

It is understood and agreed that the eligibility and extent of the participation by you and your dependents in the above medical programs will be in conformance with the rules, regulations and policies of this organization in effect at the time an illness or injury is incurred, that all claims will be submitted only to this organization and that adjudication of such claims by this organization shall be final and conclusive.

(f) You are herein authorized to apply for enrollment in a health insurance program for certain selected Career Agents in this organization, subject to all the terms and conditions of that program. If accepted, this organization is presently authorized to bear a portion of the premium cost, you will bear the remainder. Your financial contribution will be effected either by payroll deduction or by direct remittance at periodic intervals to be established by this organization.

9. Offset. Any and all compensation, allowances or other benefits (including benefits in kind) received from or through your cover activities will be used to offset amounts due you under this contract and will reduce accordingly the Government's direct payment obligation hereunder. Sums so offset are payment by the Government under this contract and for purposes of Federal income taxation. You will report every four (4) months during the term of this agreement all benefits received from or through your cover activities and, if such benefits exceed those due you under this contract, the report will be accompanied by said excess amount, which you hereby agree is the sole property of the Government. Failure to submit timely reports and, as appropriate, excess payments, may result in suspension of any payments due you hereunder. As an alternative to the above, the Government may at any time exercise its basic right to require payment over to it of the emoluments received by you from or through your cover activities which would otherwise be offset as described above. In such cases the Government will pay directly to you the emoluments called for by this contract.

10. Execution of Documents. If, in the performance of services under this contract, you assume the custody of Government funds or take title of record to property of any nature whatsoever and wherever situate, which property has in fact been purchased with monies of the U.S. Government, you hereby recognize and acknowledge the existence of a trust relationship, either express or constructive, and you agree to execute whatever documents may be required by the Government to evidence this relationship.

11. Instructions. Instructions received by you from the Government in briefing, training or otherwise are a part of this contract and are incorporated herein, provided that such instructions are not inconsistent with the terms hereof.

12. Unauthorized Commitments. No promises or commitments pertaining to rights, privileges or benefits other than those expressly stipulated in writing in this agreement or any amendment thereto shall be binding on the Government.

13. Secrecy. You will be required to keep forever secret this contract and all information which you may obtain by reason hereof (unless released in

writing by the Government from such obligation), with full knowledge that violation of such secrecy may subject you to criminal prosecution under the Espionage Laws, dated 25 June 1948, as amended, and other applicable laws and regulations.

14. Term. This contract is effective as of 1 March 1961, and shall continue thereafter for an indefinite period unless sooner terminated:

(a) Upon ninety (90) days' actual notice by either party hereto, or

(b) Upon actual notice to you in the event initially required medical and security requirements for this contract cannot be met, or

(c) Without prior notice by the Government, in the event of a breach of this contract by your violation of the security provisions hereof or by your otherwise rendering yourself unavailable for acceptable service.

In the event of voluntary termination on your part or termination for cause by the Government while you are on an overseas assignment under this contract, you will not be entitled to the return travel expenses to the United States as set forth in paragraph five (5) above. Termination of this agreement will not release you from the obligations of any security oath you may be required to take.

MEMORANDUM FOR THE RECORD

SUBJECT: Contract Negotiations with Mr. Grayston L. Lynch

1. After discussing the proposed contract for Mr. Lynch with Messrs. Earman, Collins, Barnes, King, Esterline, and others and obtaining their agreement that the proposed contract was a fair one, I met with Mr. Lynch on the morning of 24 May 1961. I outlined, in detail, to him at that time the many advantages accruing to him through the new contract over the previous contract. Mr. Lynch stated that he had not been fully aware of these benefits, that he was afraid he had given the wrong impressions to us with regard to his salary demands, and that he would be glad to sign the contract as offered.

2. Mr. Lynch signed the contract later in the morning.

3. I also had advised Mr. Lynch that Colonel King and Mr. Esterline had been requested to look into the possibility and desirability of obtaining for him a bonus award because of his services on the Project. I told him that they had agreed to look into this, that no promises could be made, and that any such award was a matter entirely outside the scope of his contractual arrangements and employment by this Staff.

4. I then called Mr. Earman and advised him of the above. Mr. Earman indicated that he was sure the Director would be very pleased to hear that a suitable agreement had been reached, but that the Director also would undoubtedly raise the question of the bonus award at some future date. I, therefore, undertook on behalf of Mr. Earman to re-raise the question of the award with Mr. Esterline early in the week of May 29, 1961.

GRAYSTON L. LYNCH - COMPARISON OF CONTRACTS

1. TYPE OF CONTRACT

a. Under his present contract LYNCH is serving as a Contract Employee.

b. The new contract would make him a Career Agent. Under R 20-1000, a Career Agent is an individual who has demonstrated his operational value to the Agency over a period normally of not less than three years for U.S. citizens. LYNCH has served with the Agency only for a period of about three months.

2. COMPENSATION

a. Rate of pay under present contract is $9,500 per annum, plus a post differential in accordance with regulations.

155

b. New rate of pay would be $11,000, plus post differential, plus ingrade promotions and legislative pay adjustments effecting Government personnel.

3. ALLOWANCES

a. Present contract does not provide for any special allowances.

b. The new contract provides for (1) living quarters allowances, and (2), cost of living allowance including but not limited to, a post allowance or equivalent, supplementary post allowance, transfer allowance, home service transfer allowance, education allowance, and separation allowance.

4. TRAVEL

a. Present contract pays cost of operational travel, plus per diem in lieu of subsistence.

b. New contract pays cost of operational travel and per diem, plus: (1) cost of PCS travel and transportation for dependents, household effects and automobile; (2), storage of household and personal effects not shipped; and (3), after two years overseas, all travel for self and dependents from duty station to home residence and return to duty station.

5. OPERATIONAL EXPENSES

a. Present contract authorizes operational expenses as specifically approved.

b. New contract expands this to include operational entertainment and purchase of information.

6. BENEFITS

a. Present contract provides death and disability benefits under Federal Employees Compensation Act, and benefits under the Missing Persons act; and states that Social Security deductions will be withheld by the Government.

b. New contract provides for these same benefits; but would make deductions for the Civil Service Retirement Fund instead of the Social Security. In addition the new contract provides for, (1) Sick and Annual leave equal to that of Staff employees; (2), cost of hospitalization and travel for illness or injury incurred in line of duty, while PCS abroad; (3) cost of hospitalization and travel of dependents while abroad; and (4), authorization to apply for enrollment in the Agency health insurance program.

7. TERM

a. The term of the present contract is for one year, subject to termination upon 30 days notice.

b. The new contract is for an indefinite term, subject to termination upon 90 days notice.

8. SPECIAL BONUS

a. There is an Amendment to the present contract, dated 2 May 1961, and made retroactive to cover the period 28 March thru 22 April 1961, only, which authorizes a bonus of 40% of normal monthly compensation while LYNCH was serving aboard ship involved in clandestine maritime activity.

b. There can be no provision in any new contract for declaring a bonus for unforeseen future activities.

9. COMMENT

a. During our first discussions with LYNCH 10 May 1961, on the question of salary, he stated that he would not accept a new contract at the rate of pay ($9,500) of his present contract, because the Director had promised that he would receive more; however, he would not give us a figure that he would accept. Before the new contract was written he was told that it would be for $11,000, and he voiced no objection. After the contract was written and presented to him for signature, he stated that he wanted $12,500, plus "hazardous duty pay", and that he wanted to take the contract to the Director for review.

b. At the time of his retirement, LYNCH was an Army Captain with 20 years service, and I understand that he was in jump status. Remuneration for this service was about $9,425 per annum, including all allowances. His present retirement pay is $281 per month, or $3,372 per year, and I understand that he would be authorized to retain this in addition to all pay and allowances received from an Agency contract.

SUBJECT : Recall of Captain Rydberg and Mr. Lynch for further Testimony

1. Mr. Eduardo Garcia, owner of the ships used in the JMATE operation, has requested a $250. bonus for each of the men employed by him. This is consistent with the bonus arrangement for all Cubans participating in the operation.

2. Chief, WH Division, has approved the payment of such a bonus to all Garcia personnel, except the survivors of the Rio Escondido. He is withholding approval for these personnel, pending a further investigation into alleged mutinous acts by the survivors, while aboard the Blagar. He has requested that additional information on this subject be obtained from both Captain Rydberg and Mr. Lynch.

3. It is requested that you contact Captain Rydberg and Mr. Lynch, and have them return to Washington at their earliest convenience for the purpose of giving further testimony in this regard.

MEMORANDUM FOR THE RECORD

SUBJECT: G.L. Lynch - ZRJEWEL

1. Lynch called today at 1200 noon. He said that he wanted to let me know that he was back, and to find out what had been done about his contract.

2. I told him that I had heard nothing since he had left. I said that before he left we had rather leaned over backwards to write a contract for him which he had not accepted; that instead he had taken the matter to the Director, and that I had then been requested to deliver a copy of the contract to the Director's office which I had done. I said that I had then acted as a messenger boy only, and had not discussed the matter at the Director's office, nor heard anything about it since.

3. Lynch said that he could fill me in from there. He said that at the Director's office the contract had been turned over to the Director's Executive Officer who was to review it and recommend a salary figure. Lynch said that he had agreed to accept whatever figure the Executive Officer recommended, and was told to call CA/C/PMG/Mr. Cox on his return.

4. I asked Lynch where he could now be reached, and he said that he was at Bob Moore's office on X-8912.

NOTE:

Since his precipitate meeting with the Director about 1730 hours on 16 May 1961, Lynch has not been heard from. Presumably he returned to his home in Fayetteville, North Carolina.

On 18 May 1961, CA/PMG had calls from the office of both WH/4 and C/WH asking if we knew of Lynch's whereabout, and whether we had a record of his Fayetteville address. The answer to both questions was negative. Subsequently his address was located in files and WH was informed.

Mr [redacted]

Dear Mr. [redacted]:

The United States Government, as represented by the Contracting Officer, hereby contracts with you as a Contract Employee for the use of your services and the performance of duties of a confidential nature under the following terms and conditions:

1. Compensation. In full consideration for the use of your services and the performance of specified confidential duties, you will be paid an amount calculated at the rate of $9500 per annum. In addition, you will be entitled to a post differential in conformance with applicable Government regulations. Payments will be made as directed by you in writing in a manner acceptable to the Government. Monies paid you directly or guaranteed by the Government under this paragraph constitute income for Federal tax purposes. You will be advised as to the method to be followed in reporting and paying such taxes. The method as well as the procedures used by this organization to implement its tax reporting responsibilities will be based primarily upon cover and security requirements. Unless precluded by such requirements, taxes will be withheld therefrom and submitted by this organization.

2. Travel. You will be advanced or reimbursed funds for necessary expenses incurred in connection with such operational travel as may be directed or authorized by the Government. This may include per diem in lieu of subsistence in the course of such travel and while on temporary duty away from your domestic permanent post of assignment. Payment and accounting for such expenses will be in conformance with applicable Government regulations.

3. Operational Expenses. You will be advanced or reimbursed funds for necessary operational expenses as specifically approved and financially limited by the Government. Such funds will be subject to payment and accounting in conformance with applicable Government regulations.

4. Repayment. It is recognized that your failure to account for or refund any monies advanced you hereunder shall entitle the Government to withhold the total amount of such indebtedness or any portion thereof from any monies due you under the terms of this contract in such manner as it deems appropriate.

5. Benefits. (a) You will be entitled to death and disability benefits equal to those authorized under the Federal Employees' Compensation Act, as amended. Claims by you, your heirs, or legal representatives under this paragraph will be processed by this organization in accordance with its procedures in such manner as not to impair security.

(b) You will be entitled to the continuance of pay and allowances in a manner similar to that set forth in the Missing Persons Act (50 U.S.C.A., App. 1001-1015).

(c) The United States Government will withhold from the compensation due you under this contract, social security deductions in conformance with the Social Security Act of 1935, as amended, and the procedures of this Organization (presently 3% on the first $4800). For reasons of security, all inquiries concerning your relationship to the Social Security system shall be made directly to this Organization, and in no event may any such problem be presented by you or on your behalf to any representative of the Bureau of Old Age and Survivors Insurance unless authorized by this Organization.

5. Funding. If necessary to protect the security of this arrangement, monies due you hereunder may be funded in other than a direct manner. It is understood and agreed that any monies so funded constitute payment by the Government in satisfaction of its obligations under this agreement.

7. Execution of Documents. If, in the performance of services under this contract, you assume the custody of Government funds or take title of record to property of any nature whatsoever and wherever situate, which property has in fact been purchased with monies of the U. S. Government, you hereby recognize and acknowledge the existence of a trust relationship, either express or constructive, and you agree to execute whatever documents may be required by the Government to evidence this relationship.

8. Secrecy. You will be required to keep forever secret this contract and all information which you may obtain by reason hereof (unless otherwise instructed by an authorized Government representative), with full knowledge that violation of such secrecy may subject you to criminal prosecution under the Espionage Laws, dated 25 June 1948, as amended, and other applicable laws and regulations.

9. Instructions. Instructions received by you from the Government in briefing, training or otherwise are a part of this contract and are incorporated herein, provided that such instructions are not inconsistent with the terms hereof.

10. Unauthorized Commitments. No promises or commitments pertaining to rights, privileges or benefits other than those expressly stipulated in writing in this agreement or any amendment thereto shall be binding on the Government.

11. Term. This contract is effective as of 11 Jul-1961, and shall continue thereafter for a period of one (1) year unless sooner terminated:

(a) Upon thirty (30) days' actual notice by either party hereto, or

(b) Upon actual notice to you in the event the results of an initially required medical examination are determined by this organization to be unsatisfactory, or

(c) Without prior notice by the Government, in the event of a breach of this contract by your violation of the security provisions hereof or by your otherwise rendering yourself unavailable for acceptable service.

Subject to the availability of appropriations, this agreement may be extended upon notice from the Government. Termination of this agreement will not release you from the obligations of any security oath you may be required to take.

MEMORANDUM FOR: Chief, WH/4

SUBJECT: Assignment of Robertson and Lynch to WH Division

1. This is in response to your oral request for the transfer or assignment of Robertson and Lynch from this Staff to WH Division.

2. These employees were recruited as Career Agents under CA/PMG Project PRJEWEL, and therefore are to be administered in accordance with the terms of this Project.

3. Under the terms of Project ZRJEWEL, CA/C/PMG is responsible initially for their selection and recruitment, and subsequently for their training and developmental assignments until they are transferred to an existing operational project under jurisdiction of an operating division.

4. Selection and recruitment involves complete processing to contract under provisions of HB 20-1000-1, and requires also:

a. security clearances

b. Medical Clearances

C. provision of cover

d. Financial Briefing

e. Assessment and Evaluation

5. Training and development requires that subject to be provided tutorial or group training, according to their individual needs, to qualify them as senior PM Officers capable of serving overseas as case officer, instructors, advisers, or consultants; and capable of developing indigenous forces, directing operations, and personally participating in operations. The training envisioned normally would include, but not be limited to:

a. Language aptitude testing and subsequent language training
b. Clandestine tradecraft
c. Paramilitary operations training
d. Covert Action Operations training and CI Familiarization

6. Although both subjects are now under contract, as of this time, of all of the above mentioned items of processing, training and development, the following yet remains to be done:

Robertson : Medical clearance, provision of cover, financial briefing, Spanish language aptitude test and spanish language training, Clandestine refresher training as deemed adviseable.

SECRET

COPY

Lynch - provision of cover, financial briefing, assessment and evaluation, language aptitude test and possible language training, and all basic Clandestine Operations training.

7. Project ZRJEWELL further provides that administrative responsibility for these employees including compensation, operational security etc. will be transferred to the Operating Division for such periods of time as the employees are under the jurisdiction of the Division for operational duties. For administrative purposes, it is suggested that WH Division assume these responsibilities for both Robertson and Lynch as of 1 June 1961.

8. On of the major considerations in the contract employment of these two officers has been that their lack of association with the Agency, thus far, permits their operational utilization in circumstances where staff employees cannot participate, and their long range continued employment is, to a certain extent, dependent on their being abot to maintain this posture. It is requested, therefore, that you take every reasonable precaution to maintain their "deniable" status.

9. Since the CA Staff will once again become responsible for these officers whenever such time may come that you no longer have a reqiore,emt fpr tje,. ot wpi;l be veru ,icj a??recoated of tjos office would be kept advised as to their standard of performance, acquisition of additional capabilities, by either training or experience, and we should be consulted before any changes or amendments are made in their contracts which might become commitments to be assumed by the CA Staff

SUBJECT: LYNCH, Grayston L.

Per telephone request of Helen Ingraham/CI Staff, IR on Grayston L. Lynch is forwarded. I saw subject 2 November 1960 when he came in to follow up on his application dated 4 January 1960 when he was interviewed by Mr. Neil Doherty, then Chief/DRB. Subject returned to the United States in July 1960. He had served as Team Leader with the Laos Army where he ran a training center in PAO Vientiane. I told him Mr. Moore was working on something for him and that if it developed, he would be contacted. That was my last contact with Mr. Lynch.

WASHINGTON, D. C. 20415

CSC FORM 400

IMPORTANT MESSAGE TO ELIGIBLES

YOU HAVE RECEIVED AN ELIGIBLE NOTICE OF RATING. WHAT DOES THIS MEAN?

IT MEANS THAT: Your name has been placed on the list of persons who have passed this examination, in its proper relative standing. This list of eligibles, or register, is kept by the office whose name and address appears in the lower right-hand corner on the other side of this notice.

IT MEANS THAT: When your name is reached on the register, you will be considered for the type of jobs for which you have qualified, (in the geographical area) covered by the examination. (When a Federal agency requests the Commission to supply the names of eligibles, the names of the three eligibles at the top of the register are certified to the agency for consideration.) The agency appointing officer may choose any one of these three persons, so long as he complies with the Veterans' Preference Act of 1944, as amended.

IT MEANS THAT: Your prospects for getting a job from this examination cannot be predicted. They depend upon how many vacancies may occur to be filled by eligibles, and on your relative standing on the register. Your name will be certified for consideration as it comes within reach and as requests for eligibles are received. (If you are not selected, your name will go back on the register in its proper relative standing, to be considered again when within reach until the register is terminated.)

IT MEANS THAT: YOU MUST INFORM THE OFFICE WHICH ISSUED THIS NOTICE OF RATING OF ANY CHANGES IN YOUR ADDRESS OR IN THE CONDITIONS UNDER WHICH YOU WILL ACCEPT APPOINTMENT. SEND ANY NEW INFORMATION CONCERNING YOUR ADDRESS OR AVAILABILITY TO THE OFFICE WHOSE NAME AND ADDRESS IS SHOWN IN THE LOWER RIGHT-HAND CORNER ON THE OTHER SIDE OF THIS NOTICE, AND REFER TO THE TITLE OF THE EXAMINATION AND THE RATING RECEIVED.

ADDITIONAL INFORMATION

1. Any offer of appointment or inquiry as to availability which you may receive from a Federal agency will show whether you are being considered for a limited temporary, a career-conditional, or a career appointment.

2. If, when you are considered for appointment, you signify that you are not available or you fail to reply to a communication, your name will be removed from the register until you satisfactorily explain your reasons and specify the conditions under which you would be willing to accept any appointment. When you are unable to accept any appointment you should request that your name be suspended from the register until you are again able to accept [illegible] requests for restoration to the register while it is still in use, changes in availability, or transfer of eligibility, will be acted on without further notice to you.

3. If you are now employed by the Federal Government and have received an eligible rating, show this notice to your personnel officer. He should be aware of your eligibility on this examination. THIS DOES NOT RELEASE YOU FROM YOUR RESPONSIBILITY TO KEEP THE OFFICE MAINTAINING YOUR ELIGIBILITY INFORMED OF CHANGES AS MENTIONED ABOVE.

4. A competitor who received an eligible rating may, under certain conditions, have his eligibility transferred from the register of one civil service office to a similar register in another civil service office.

A competitor who wishes to have his eligibility transferred should send his request to the office where his eligibility is maintained. [illegible] determination will then be made, and the competitor will be notified, as to whether his eligibility can be transferred.

5. A register established from an examination held in order to fill a specific type of position at a stated salary may also be used to fill vacancies in related positions or at a lower salary. When you accept a career-conditional or a career appointment, your name will be removed from all registers established as a result of this examination. Until your name is removed, your willingness to accept a lower salary will not affect your eligibility for positions at a higher salary.

U.S. GOVERNMENT PRINTING OFFICE: 1965 O—794-130

If you are not appointed or the register is not officially terminated earlier, your eligibility from this examination will be in effect for a period of 18 months only unless you submit up-to-date information about your qualifications before that time by letter, Standard Form 57 or Form 57A; however, such information will not be accepted if you have had eligibility for less than 1 year. The date of issue which appears on this "Notice of Rating" is that on which your period of eligibility began.

MEMORANDUM FOR: Chairman, Career Service Board, NPIC

THROUGH : Secretary, Career Service Board, NPIC

SUBJECT : Recommendation for Promotion

1. NAME: Maksymiec, Myroslaw Andrew

2. POSITION TITLE AND PRESENT ASSIGNMENT:

Photog (Gen) occupying Physical Scientist Slot, assigned to the Exploratory Development Laboratory Branch of the Plans and Development Staff.

3. PRESENT GRADE, TIME IN CIA:

GS-7/3, EOD Date November 1961

4. EDUCATION AND TRAINING: High School

5. EXPERIENCE:

Mr. Maksymiec retired as a Master Sergeant in July 1961, after 20 years of Army photographic experience. He worked in PSD/PIB from November 1961 until 15 September 1963. On this date he was assigned to the Exploratory Development Laboratory Branch of the Plans and Development Staff on a 30-day trial basis. This period was extended to January, 1964 at which time the assignment was made permanent.

SUBJECT: Recommendation for Promotion

6. JUSTIFICATION FOR PROMOTION:

Mr. Maksymiec's primary experience has been in practical photography. Since joining the Exploratory Development Laboratory Branch, he has learned the theoretical side of photography and combined this with his already extensive knowledge of the photographic process. He has carried out several investigations which indicate a natural bent for scientific methods. After initial briefings, he requires little, if any, supervision. His maturity is a distinct asset in his work, where extreme attention to detail and good judgement are absolute necessities. He exhibits a willingness to work for the group, no matter the hours, and cooperates and works well with others.

His responsibilities and quality of effort are deserving of more than his current GS-7 status. It is therefore recommended that Mr. Maksymiec be promoted to GS-8.

Mr. Myroslaw Maksymiec

Dear Mr. Maksymiec:

This letter is in response to the comment you made to the Director on Alumni Day, 26 April 1975, concerning a special medallion for NPIC employees who participated in the Cuban missile crisis.

I have had the appropriate records reviewed. The Certificate of Commendation you and other NPIC employees received was awarded by direction of the President in recognition of the meritorious service performed.

It is hoped that the lack of a medallion to accompany this certificate will in no way detract from the contribution you made during this period of crisis.

Sincerely,

/s/ John F. Blake

MEMORANDUM FOR: Director of Personnel

Fred:

1. The facts behind the question raised with the Director by Mr. Maksymec on Saturday, 26 April, are, according to him, as follows.

2. After NPIC had done its fine work during the Cuban missile crisis it appears that two different types of recognition were given. Determinations were made first on certain individuals whose contributions were such that they should receive an Agency medal award. A second group of some 200 were then identified for their level of contribution and received some kind of certificate from the White House signed by the President. Mr. Maksymec was in the latter group and espouses the cause that a "special medallion" should have been given along with the White House certificate. Mr. Bob Gaynor also spoke to me on this matter on Saturday, and has a good recollection on the whole matter.

3. Will you do what you can on the matter and prepare me a letter to be sent to Mr. Maksymec?

MEMORANDUM FOR THE RECORD

SUBJECT: Mr. Myroslaw Maksymiec - Retired Employee

The meeting with Mr. Maksymiec on 6 May 1975 was to satisfy his request to review his official personnel file (this matter was being treated in the manner of a request under the Freedom of Information Act). Location: Main Reception Interview Room at Headquarters Building - 3 p.m.

The duration of the meeting was one (1) hour of which time Mr. Maksymiec used approximately 7 to 8 minutes to quickly thumb-thru the OPF. It is my impression that he was surprised: 1) we were allowing him to see all the material in the file (he described vividly, a 1971 unpleasant encounter with Mr. Echols, the Director of Personnel, who refused to show him a document and would only read to him a small portion from it - this caused his request and subsequent interview with the DCI, Mr. Helms), and 2) at the reality that the file contained nothing actually derogatory (he stated he had seen and signed the fitness reports so these represented nothing unknown).

The major portion of the time was consumed in my listening to his evaluation and assessment of the various supervisors and co-workers at NPIC and their shortcomings. He regaled me with much of his background and history with the military and initial application and entrance on duty with the Agency; his personal acquaintance and relationships with notables - a former American Ambassador to Ethiopia, Joseph Simonson, the Emperor of Ethiopia, several Generals and Congressional personalities, Mr. Helms and Mr. Arthur Lundahl, and his membership in the Explorer Club.

Presently he is Vice President for Sales of the Environmental Coating Industries Corporation located in Annandale, Virginia - the company removes corrosion and stains from surfaces. He offered the company services at the 1974 Alumni session, to clean the stains from the Nathan Hale statue at the front of the building, at a cost of $300. He plans to follow-up on his proposal, since he has not heard anything from the Agency.

He mentioned that Mr. Blake, at the direction of the DCI, (1975 Alumni Day) was to explore and advise him (Maksymiec) of the possibility of striking and issuing a medal to about 200 Agency personnel (of whom he is one) for their participation in certain aspects of the 1962 Cuban crisis.

Our meeting ended with Mr. Maksymiec indicating he had no intention of "going after anybody," but he was curious what was in his file, and that was the basis for asking to see it.

If extra space is needed to complete Section C, attach a separate sheet of paper.

During the past reporting period, Mr. Maksymiec's responsibilities were more pointedly directed towards the requirements of a laboratory technician as described in the position description and less towards his previous utilization as a photographer. A conference was held with him on 15 June to explain the need for this redirection and a memo ATB 147/70 dated 16 June was prepared and furnished to him detailing of performing these duties and was anxious to stop being thought of as a photographer and welcomed the opportunity to move into a more technically oriented activity. The specific duties outlined are listed in Section B of this report.

It was expected that there would be a learning period during which his proficiency would gradually increase in these new responsibilities. However, progress has not been as rapid as had been hoped due to what appears to be a lack of initiative on his part coupled with severe emotional outbursts against his immediate supervisor and other Center personnel. The latest of these occurred on 28 August in which he used abusive language in the presence of other Branch personnel including the Branch Chief against his Section Chief. This necessitated a written letter of reprimand and his transference to direct supervision by the Branch Chief, and as of 5 October 1970, to another Section within the Branch.

The ratings of M in Duties 1 and 2 of Section B reflect primarily the subject's reluctant participation in data collection and his lack of initiative in learning the operation of the microdensitometer. In duties 4, 5, 6, he has required a maximum amount of supervision which has resulted in senior personnel doing the work

COMMENTS OF REVIEWING OFFICIAL

I concur with the rater's comments. We have been making every effort to aid Mr. Maksymiec in becoming an asset to RED as a laboratory technician. To date, there has been little noticeable progress; in fact, the temper outbursts mentioned above indicate a deteriorating condition. Unless this situation improves, it may be necessary to recommend termination action.

As I have stated in previous comments, it's unfortunate that he cannot find a position which takes advantage of his expertise in photography, since this would go a long way to resolving his problems.

themselves. It may be argued that this has not provided him with sufficient first-level supervision to allow him to learn the skills required to perform these duties.

To insure that he is given every opportunity to perform in his new section, written assignments and accomplishments will be submitted on a daily basis.

In line with previous reports, it is still felt that Mr. Maksymiec is essentially mis-assigned as he is an expert photographer and should be assigned in some area where his skill can be utilized to its fullest extent.

NOV 3 1 21 PM '69

Mr. Maksymiec is basically an excellent photographer who usually lends a hand as a D&E Technician. Unfortunately, he must be rated according to his job classification as a D&E Technician, and he suffers accordingly.

In his previous fitness report, he was alerted to the urgent need to direct his interest toward becoming a technician and away from his photographic activities. He has not completely heeded this advice.

Two distinct training activities were advised for assisting him in making the transition: a course of instruction in math necessary to discharging technician's duties, and on the job project work. The former persisted for only a short time, due presumably to his lack of ability and/or interests. He improved very little from this instruction. His assistance on a project for developing an ammonia leak detector was effective, and the project was a success; however, his thin knowledge of the scientific method diminished his appreciation of the concept of experimentally controlled variables. In short, he had to be watched closely to insure that his well-meaning "improvement" did not disrupt the experimental plan. His interest and cooperation in this program were commendable, and his overall project performance was adequate.

Mr. Maksymiec is basically mis-assigned. His abilities and interests lie in the photographic field where he does a very commendable job. However, the Laboratory needs the services of properly trained technicians to assist the physical scientists in their research efforts. Since Mr. Maksymiec's expertise is not in this area, it is again recommended that suitable employment as a photographer be found for him.

Mr. Maksymiec's ability as a staff photographer is un-diminished. His photographic ability is considered by all in the Center as excellent.

It has been pointed out to Mr. Maksymiec that the laboratory does not have a basic requirement or a slot for a photographer, and since he is carried as a D & E technician, he should be more qualified than he is in other aspects of photographic and scientific research other than straight "picture taking", as he does not have the basic foundation either in formal education or experience to perform successfully as a D & E technician. This lack of qualification in this area can be partly explained by two factors: (1.) Mr. Maksymiec's position description was recently changed due to the reorientation of the laboratory's primary mission and function; and (2.) Because of his previous photographic responsibilities he did not have the opportunity to gain the new skills required to fulfill his new duties as a D & E technician. Mr. Maksymiec will have to be re-trained from a photographer into a D & E technician so that he can contribute more to help solve the laboratory assigned tasks.

Mr. Maksymiec still had problems in his relationship with other members of the laboratory during this reporting period. It appears to have been about his concern with his position in the laboratory grade structure and his feeling that he was "ignored" by senior members of the laboratory. Mr. Maksymiec seems to have had a feeling that members of the laboratory including his Chief did not recognize his ability as a photographer and pay suitable deference to his age.

COMMENTS OF REVIEWING OFFICIAL

I concur in the ratings and comments of the rating officer. In the latter part of the rating period the activities of the Exploratory Laboratory were being changed from ad hoc research projects to a directed program of planned investigations against NPIC and community problems. This change in activities reduced the freedom of choice in tasks to be accomplished and increased the demand for versatility in laboratory personnel. The lack of freedom and the assignment of unfamiliar tasks are distasteful to Mr. Maksymiec since he doubts that these activities will provide the personal recognition he has enjoyed for many years as an outstanding photographer.

Maksymiec, Myroslaw | Fitness Report

Section C Continued

He has also had serious disagreements with a summer intern and another member of the laboratory which had to be settled by conferences with the laboratory chief. A major disagreement with the Laboratory Chief took place recently which resulted from his feeling that he had been treated unfairly without consideration for his age, knowledge and training.

As a result of these problems, a series of conferences with Mr. Maksymiec and senior members of the division were held in order to find a possible solution for his problem. Because of these meetings, an in-house training program has been initiated for Mr. Maksymiec. It is hoped that this will do much to alleviate his feelings of repression and make him a contributing member of the laboratory once again.

Section D Continued

In spite of the reduction in need for Mr. Maksymiec's primary skills, he has expressed a desire to continue his present assignment. Therefore, a program of retraining has been instituted to broaden his knowledge and increase his versatility in carrying out laboratory investigations. Mr. Maksymiec is a hard working, dedicated employee and there is every reason to expect that he will try hard to overcome his deficiencies. However, his age, limited education, previous success in photography, and lack of knowledge in scientific methods pose serious obstacles to be overcome. His present attitude is characterized by his own statement, "Show me how, and I will do it."

Mr. Maksymiec continues to excel in his primary duty as staff photographer. He processes his own photography and the finished product is consistently outstanding.

He cooperates most willingly with other members of the staff in assisting them with the practical photographic aspects of their projects.

There have been a few minor personality conflicts on procedural matters related to job assignments between Mr. Maksymiec and both staff and non-staff personnel, which have been reported to his laboratory chief and the executive officer, TDS. It is believed that this is due to his strong desire to excel at his job. This problem has been discussed with Mr. Maksymiec and it is expected that he will avoid such occurrences in the future.

During this reporting period Mr. Maksymiec has satisfactorily completed a night school course in technical reading and writing at Montgomery Junior College and is currently pursuing a course in photography at American University. He is to be highly commended for this continuing effort to train himself for a more responsible position.

MAP ROOM

Mr. Maksymiec is a valuable member of the EDLB and serves as its senior lab technician. He works closely with other members of the staff and contributes to the success of the laboratory.

His duties require him to maintain and develop many skills in the field of photographics. He carries out these duties and other responsibilities in a professional manner and with a minimum of supervision.

As senior laboratory technician he provides guidance for his junior technician. His ability to train this man in the field of photographic technology is considered superior.

Mr. Maksymiec recently completed a review course in "Basic Grammar." This course pointed out his main difficulties in written expression, and his teacher suggested methods for overcoming these difficulties. As a result of this course and after a consultation with Mr. R. B. Cheatham of the Educational and Psychological Service Bureau, Georgetown University, Mr. Maksymiec plans on taking a special English course at Montgomery Junior College this fall. This course concentrates on the fundamental of reading and writing. When he successfully completes this English course, he expects to continue his education with the ultimate goal of receiving his Bachelor's degree. Mr. Maksymiec is ambitious and hopes to train himself for a more responsible position. He is to be commended for this effort, and he will be given all possible aid within the laboratory to help him fulfill his educational program.

Indicate significant strengths or weaknesses demonstrated in current position keeping in proper perspective their relationship to overall performance. State suggestions made for improvement of work performance. Give recommendations for training. Comment on foreign language competence, if required for current position. Amplify or explain ratings given in Section B to provide best basis for determining future personnel action. Manner of performance of managerial or supervisory duties must be described, if applicable.

Mr. Maksymiec continues to support the Exploratory Development Laboratory Branch well as its senior laboratory technician. His duties require him to work closely with the physical scientists and by himself on various projects which require many practical and some theoretical skills.

Mr. Maksymiec works very well with others, follows instructions willingly, and carries out his responsibilities in a professional manner. He requires very little supervision and completes his assignments quickly and competently.

Mr. Maksymiec has made a conscientious effort to overcome his writing deficiency and has greatly improved this necessary skill since his last review. Although there is still room for improvement, it is felt that real progress has been made and improvement will continue in the future with sufficient practice.

Mr. Maksymiec's duties require him to provide guidance to the laboratory's junior technician. His ability to train this man and to help him increase his photographic skills is considered above average. It is felt that he is presently doing the work of a higher grade, so it is recommended that Mr. Maksymiec be promoted to GS-09.

Section II COURSE OBJECTIVES - CONTENT AND METHOD

This course is taught 2 hours a day for 2 weeks. A pretest is given to determine the student's proficiency. The course is conducted through lectures, examples, and exercises; and the evaluation is based on a series of quizzes and a final examination.

The objectives of the course are the review and application of basic grammar principles and fundamental punctuation rules.

Section III METHOD OF EVALUATION

Student achievement is judged on the basis of competence in understanding and applying the principles and rules presented in the course objectives.

Section IV ACHIEVEMENT RECORD

This trainee's rating is marked by an asterisk.

Subject	Poor	Fair	Satisfactory	Excellent
Grammar	3*	3	11	6
Punctuation	5*	9	6	2

EXCELLENT - - Thorough knowledge of material presented and above average performance in meeting course goals.

SATISFACTORY- average knowledge of material presented and adequate performance in meeting course goals.

FAIR- - - - - borderline knowledge of material presented and limited performance in meeting course goals.

POOR- - - - - inadequate knowledge of material presented and unsatisfactory performance in meeting course goals.

Section V COMMENTS

This review course in grammar and punctuation was too advanced for Mr. Maksymiec. He needs an elementary course on the English fundamentals preferably on a tutorial basis before he can adequately apply the rules of punctuation and grammar to his work.

In a personal conference with Mr. Maksymiec, the instructor analyzed his weaknesses in grammar and punctuation and suggested ways in which he might improve his performance in these areas.

EDUCATIONAL AND PSYCHOLOGICAL
SERVICES BUREAU

August 24, 1966

Name: Mr. Myroslaw A. Maksymiec

Mr. Myroslaw A. Maksymiec, age 49, came to this Bureau on August 1, 1966, in connection with the Veterans Administration's educational and vocational counseling program for former servicemen. Mr. Maksymiec is married, has two children, ages five and eight, and is employed by a federal governmental agency as a photographic research technician (GS 09/3). He retired from the United States Army in 1961 in the grade of Master Sergeant after serving for over 20 years with primary duties as an intelligence photographer. His education includes eight years of formal schooling, a high school completion equivalence certificate, and additional courses with the Graduate School, Department of Agriculture, and the United States Armed Forces Institute. Mr. Maksymiec stated that he was interested in further education at the college level in order to improve himself both personally and professionally in a field related to his present vocational activities.

In addition to several conferences with the undersigned, Mr. Maksymiec was administered a battery of educational and vocational tests. This report contains the results of these conferences and tests, the results of which should not be interpreted either as conclusive or final. They should be considered primarily as indications of various psychological factors that should be seriously considered by Mr. Maksymiec in making decisions concerning his educational and vocational goals.

In order to determine Mr. Maksymiec's fields of vocational interest he was given the Kuder Vocational Preference Record. When compared to a representative group of men in the national population, Mr. Maksymiec indicated that his interests are significantly similar to persons who are engaged in computational, scientific, and literary activities. Men who have interests similar to Mr. Maksymiec's are found in various engineering fields, astronomy, seismology, economics, psychology, and technical publications writing. These fields are closely allied to his present occupational endeavors.

On the Educational Interest Inventory, a device that is beneficial to an individual in discovering his interests in various fields of study, Mr. Maksymiec's responses indicated that his study interests are very high in physics; high in engineering, chemistry, earth science, and history and political science; high average in communication, zoology, and mathematics; and average in psychology. The areas in which he showed low to average interest were music, education, industrial arts, agriculture, botany, sociology, literature, art, business administration, and economics.

Name: Myroslaw A. Maksymiec

Mr. Maksymiec also took the Army General Classification Test, Civilian Edition, to find out his overall level of mental ability. His score revealed that he exceeds approximately 78 percent of adults in general mental capacity as measured by this instrument. A safer evaluation of his performance is that he is probably in the upper 25 percent of adults regarding his global intelligence.

On the Michigan Vocabulary Profile Test, an instrument that attempts to measure a person's intellectual interests as well as the amount of information he has retained in various areas of knowledge, Mr. Maksymiec indicated, when compared with college freshmen, that he exceeds approximately 50 percent in his knowledge of human relations, 69 percent in government, and 67 percent in the physical sciences. On the lower side, he does as well or better than 24 percent in his familiarity with commerce, 31 percent in mathematics, and 24 percent in fine arts.

In order to find out Mr. Maksymiec's ability to handle English, a basic necessity for one to perform well in college, he was given the Cooperative English Tests. When compared to college freshmen, he showed that he exceeds from 52 percent to 78 percent in his understanding of vocabulary; from 5 to 17 percent in his ability to comprehend what he reads; from 2 to 11 percent in his speed of comprehension; and from 18 to 36 percent in his overall ability to know and understand what he reads under timed conditions. In his skill to express himself properly in English, he exceeds from 1 to 6 percent of college freshmen. When reading and expression are combined into one score, it may be said that Mr. Maksymiec exceeds from 6 to 12 percent of college freshmen in his overall usage of English.

The results of the above tests indicate that Mr. Maksymiec has made the most of his learning opportunities both within and outside the military service. Although he completed only eight years of school, he has acquired a considerable amount of knowledge by observation, reading, and personal experience. In spite of his broad experiences and acquired knowledge, it will be necessary for him to improve his reading and writing skills in English, however, before he begins college courses. Although he manifests a high interest in engineering and scientific fields, he should probably not consider these fields as majors because of his deficiency in mathematics. It is believed the skills in English can be developed but it is doubtful if the mathematical deficiencies can be overcome sufficiently to major in a scientific area. It is probably advisable, therefore, for Mr. Maksymiec to consider one of the social sciences as a college major. His background in photography and military subjects, combined with a college major in an appropriate social science, would probably provide him with the necessary qualifications to become a geographer or an intelligence analyst in government service.

It is understood that Mr. Maksymiec has enrolled in Montogomery Junior College, Takoma Park, Maryland, for the 1966 fall semester and that he will take a special English course concentrating on the fundamentals of reading

Name: Myroslaw A. Maksymiec

and written expression. After he completes this instruction, he might consider working for an associate of arts degree in a social science at this junior college with the ultimate goal of transferring later to a four-year college to work toward a bachelor degree.

I have appreciated knowing and talking with Mr. Maksymiec and I trust he will contact this Bureau if he requires further counseling assistance. My best wishes go with this report in whatever plans Mr. Maksymiec makes concerning his future plans and goals.

JUN 18

Mr. Maksymiec, in serving as the senior laboratory technician, sets a fine example for those whose responsibilities are similar and for the younger professionals for whom he provides photographic laboratory services. As a photographer he possesses rare compositional skills; his photographs of equipment for report and briefing purposes are exceptionally well-crafted, the finishing of surpassing quality. His work is careful, thorough, painstakingly accurate, and professional by all standards.

After more than a year in his present position, he feels more relaxed and self-assured. He asserts his views and ideas more competently and has become an integral and important part of this laboratory's operations. Mr. Maksymiec works exceptionally well with others, accepts responsibility freely and requires a minimum of direction. Most of his assignments come as discretionary orders, with complete freedom to utilize his own talents and inclinations towards the solution of his assigned problems. He continues to improve his capabilities, and is presently enrolled in a Department of Agriculture course in the fundamentals of photographic color processing, at his own request.

Mr. Maksymiec's one major weakness lies in the difficulty with which he writes reports. The ability to communicate ideas and results of investigations clearly, through written reports, is a necessary attribute of laboratory branch members, and Mr. Maksymiec must concentrate extra effort to improve his performance in this regard. During the next reporting period, he will be given assistance to improve his reporting capabilities.

Manner of performance of managerial or supervisory duties must be described, if applicable.

Mr. Maksymiec's background and experience lie in practical photography, about which there is extremely little he does not know. He transferred from PSD/PLB primarily because there was little opportunity to use this experience, and because the advancement potential appeared to be minimal.

From the day of his transfer, Mr. Maksymiec has performed capably. Much of the work has been new to him, requiring him to learn and master many aspects of theoretical photography. He has acquired proficiency in the use of laboratory measuring instruments. He has applied himself and learns rapidly, with good retention. His frame of mind has improved, and this is manifested in a more relaxed, yet completely involved approach to his work. He works well with other and cooperates fully in all group problems. He accepts responsibility and requires direction of effort only in those theoretical areas where he has no experience. When responsible for the expenditure of funds, he exhibits a commendable cost-consciousness.

He recently took examinations for the purposes of completing his High School education, and has attended mathematics classes at Fort Myer. This is an additional indication of the interest and feeling for his job, which is manifested by a consistently proficient level of output. He is a valued member of the Exploratory Development Laboratory Staff.

EXPERIENCE

Mr. Maksymiec retired as a Master Sergeant in July 1961 after 20 years of Army photographic experience. He has been with the Center from November 1961 and with the Exploratory Development Laboratory Branch of the Plans and Development Staff since 15 September 1963. He is the senior technician for the laboratory.

JUSTIFICATION

Mr. Maksymiec's laboratory skills are of the highest professional quality. His duties as the senior laboratory technician require him to work closely with the physical scientists and by himself on various projects which require many practical and some theoretical skills. He conducts experimental laboratory investigations related to the photographic process, develops special techniques, and constructs supporting equipment. He carries out his assignments with little or no supervision and works well with others in the laboratory. He is an important and valued member of the Exploratory Development Laboratory Branch. It is felt that Mr. Maksymiec is doing the work of a higher grade; therefore, it is recommended that Mr. Maksymiec be promoted to grade GS-09.

Dear Mr. Lundahl:

While I would like to make public the truly outstanding accomplishments of the National Photographic Interpretation Center, I realize that the anonymity of an organization of your high professional competence in the intelligence field must be maintained.

I do want you and your people to know of my very deep appreciation for the tremendous task you are performing under most trying circumstances. The analysis and interpretation of the Cuban photography and the reporting of your findings promptly and succinctly to me and to my principal policy advisers, most particularly the Secretary of State and the Secretary of Defense, has been exemplary.

You have my thanks and the thanks of your government for a very remarkable performance of duty and my personal commendation goes to all of you.

MEMORANDUM FOR: Director, National Photographic Interpretation Center

SUBJECT : Commendation

1. As Director of Central Intelligence and on behalf of the entire intelligence community as well as the United States Government, I wish to commend you and the personnel under your command for the outstanding work you have been performing, especially during the past four months of the Cuban buildup.

2. Your analysis and interpretation of the Cuban photography and the manner in which you reported your findings to the President, his principal policy advisors, most particularly the Secretary of State and the Secretary of Defense, and the entire intelligence community have been of the highest order.

3. I have full knowledge of the tremendous pressures and long working hours with which NPIC was confronted. I regret that the anonymity required of a professional intelligence agency such as yours prevents public acknowledgment of NPIC accomplishments. You and your people should take great pride in your accomplishments as well as in your ability to perform them without public acclaim.

A DETAILED DISCUSSION OF A&E INFORMATION IN TERMS OF SPECIFIC CONTEMPLATED ASSIGNMENTS MAY BE ARRANGED BY CALLING X3052.

2. A&E Comments: Mr. Maksymiec performs poorly on various measures of intellectual ability. (He evidently has a foreign language background which may have affected his performance particularly on the verbal tests.) His knowledge of contemporary world-affairs approaches an average rating in comparison with Agency professional personnel. He also performs fairly well on a test of arithmetic problems. He would appear best suited for an essentially technician level position, which presumably the proposed "Photographer" position would be.

Enclosure No. 1, Page 1

During the period November 1961 to the present, I am employed by the Central Intelligence Agency, located in Washington, D. C.

I lectured, conducted seminar, and advised on the operations of photography, cameras, lighting, printing, processing, and editing.

On an independent basis I performed complex black and white and color, still, and motion picture photographic assignments. Utilized, as appropriate, combinations of cameras, and other gear which included ultra-high speed cameras (1-5 thousand frames per second) plus compatible stroboscope lighting components, varied mirror, filter, and mounting devices.

Advised on the installation and operation of photographic set-up and rendered the technical decisions relative to the required optical, mechanical, and electronic adjustments.

Commendations:

I was awarded the 'Certificate of Commendation' by direction of the President of the United States, for meritorious service with the Central Intelligence Agency, on January 9, 1963.

Works:

'Come Along to Ethiopia' by Joseph Simonson was published in 1968 by T. S. Denison and Co., Inc. Pictures utilized in this historical-pictorial endeavor were my works and credit is given accordingly in the introduction. (Library of Congress 67-28078)

MYROSLAW ANDREW MAKSYMIEC
APRIL 26, 1917
FM. 171 - Experience 18-2

Enclosure No. 2, Page 1

During the period 1957 through 1961, I was employed by the Publications and Services Branch, Office Assistant Chief of Staff for Intelligence, Headquarters, Department of the U. S. Army, Washington, D. C.

Mission

Use, setup, arrangement of photographic equipment, techniques, and processes.

Develop, adapt, and create the foregoing in order to be responsive to unprecedented situations that require photographic equipment for situations of extreme conditions. (Weather, radiation, explosion, etc.). Create training films to deal with specific subjects.

Conduct training classes in basic and advanced photography, motion picture, and laboratory procedures.

Operations

I was responsible for the direction of technician/specialist photographers, concerned with reproduction of film using the most advanced Eastman-Kodak, Bell and Howell, and Houston Fearless printing and processing equipments.

During this phase there was a demand for high production and extreme accuracy in a minimum of time. My responsibilities required me to adapt to changing conditions under adverse conditions to achieve objectives that were required in a matter of hours.

I developed workload schedules based on task/mission requirements, available manpower, and the degree of skill available. The changing tasks and mission objectives required a maximum ability on my part to train personnel to meet the requirements of operating officials.

I established and conducted training classes in the operation and maintenance of equipment.

I developed workload schedules based on task/program/mission requirements, priorities, available manpower, and the degree of skill available.

MYROSLAW ANDREW MAKSYMIEC

FM. 171 - Experience 18-2

Enclosure No. 2, Page 2

Broke down each task into specific operations and handling elements, established a sequence of operations compatible to economical, efficient, and timely reproduction of motion picture film. I applied labor standards by utilization of labor standard data to each work increment to be performed.

I was responsible for determining the overall manpower requirements, equipment, materials, etc., necessary to accomplish the objectives of the organization under my jurisdiction.

I maintained progress chart status of all assigned task, program, established priorities, and directed technician in proper sequence to prevent production delays, work stoppage, and disruption of work schedule.

I reviewed quality and quantity of work produced by means of sampling, inspection, etc.

Accomplishments - Commendations

(1) Awarded 'Certificate of Appreciation', Department of Defense, Military Assistance Institute.

"As the termination of your active service draws near, I desire to express my personal appreciation for the splendid service you have rendered the Military Assistance Institute during the past two and one-half years. Whenever you were called upon to serve as a guest briefer for Officers assigned to duty with the MAAG-Ethiopia, you cheerfully accepted this responsibility, in addition to your regularly assigned military duties.

Your expert knowledge of the culture, geography, history, and living problems in this area was extremely beneficial to U. S. Military personnel stationed with the MAAG.

The successful manner in which you presented these subjects, (illustrated with colored slides of scenes professionally photographed by you) materially aided our students to adjust themselves to conditions encountered in living in an unfamiliar country and in becoming productive at an early date after arrival at their new station.

Enclosure No. 2, Page 3

The attached Certificate of Appreciation is but a minor expression of our thanks to you for your efforts. The staff and faculty of the Institute join me in wishing you every success."

None of the assignments that I gave Mr. MAKSYMIEC were routine, nor were they easy. Invariably they involved considerable ability, tenacity, diplomacy, and judgment. He always accomplished his mission. His detailed captions were usually accurate and valuable, showing a keen insight into the subject (human or machine) being covered.

His work in photography was so outstanding that at one time at Addis Ababa, at a request from TIME - LIFE Magazines, I consented for Mr. MAKSYMIEC to complete a photographic report commenced by Mr. Alfred Eisenstadt, one of the outstanding photographers in the U. S. Several pages of pictures taken by Mr. MAKSYMIEC appeared with the article in LIFE Magazine. His work also was commended personally by the U. S. Ambassador to Ethiopia and by the Emperior Haile Selassie I, who awarded him a gold medal.

Enclosure No. 2, Page 4

Mr. MAKSYMIEC's many skills include outstanding technical ability in every phase of operations in a photographic laboratory.

I have been informed that while working in Washington, at the Pentagon, Mr. MAKSYMIEC has continued to serve the interests of the United States. He has been a lecturer at the Military Assistance Institute, and in that capacity has been officially commended by Brigadier General Henry C. Newton, Director of the Institute.

While I was attending the U. S. Army War College at Carlisle, Pennsylvania in 1958-1959, Mr. MAKSYMIEC was of considerable assistance to me in the detailed preparation of my thesis: "The Greater Somaliland Movement, a study in the strategic significance to the United States".

Based on my personal observation and knowledge, I feel that Mr. MAKSYMIEC is eminently qualified for specialized work in the field of intelligence. He would be particularly valuable in all phases of photography, and in collection, evaluation, or dissemination of Intelligence. His investigative ability, particularly in the fields of map reading, geography, order of battle, or technical subjects is outstanding. He has the unique ability to collect and assemble pertinent facts and to prepare clear and concise written reports."

Enclosure No. 3, Page 1

During the period 1954 through 1956, I was assigned by Army Attache System, G2 Intelligence, Department of the Army, to conduct, direct, establish photographic center and perform specific photographic assignments in Ethiopia, Africa.

Mission and Tasks

During this period I directed and participated in photography of selected areas, equipments, training film, and selected subjects.

I modified and planned the installation of photographic equipments that were faced with situations of excessive heat in some instances and of severe low temperatures in others. These conditions were also subject to abnormal influences.

It was essential that I had a thorough familiarity with the mission objectives that would permit me to plan the photographic recording and reporting on film within a minimum of interference with program operating sequences. This required me to participate with operating officials, engineers, scientists, as a member of the team in order to define the capabilities and limitation of cameras and equipment to the total planning of the specific program. This broad knowledge permitted me to utilize my abilities, imagination, and creative ability to fully develop the photographic aspects.

I determined the kind of film, position, camera coverage, background, etc.

I developed the workload schedules based on mission requirements, priorities, manpower, and the degree of ability available.

I reviewed quantity and quality of work performed by means of visual inspection and by discussions with team leaders, particularly where problem areas existed or the mission was one with unusual scope and objectives.

I was responsible for the procurement of photographic equipment and supplies necessary for the assigned mission. This responsibility also included the repair and maintenance of all equipments in use.

Enclosure No. 3, Page 2

I maintained progress charts for all tasks, programs, missions, that indicated the status of installation, filming, reproduction actions for each task/program.

I directed the reproduction phases of the forgoing filming as indicated in Enclosure No. 2.

Artistic Segments

I exercised artistic and creative ability in using photography as a means of communication of information, historical, splendor, etc., to fulfill educational, military, international objectives.

I exercised control of the settings, actions of the event to be photographed. I suggested actions/behavior of principals; selected backgrounds; rehersed actions prior to photographing events.

Training

I conducted orientation and briefing courses for U. S. personnel in basic-advanced photography and basic-advanced laboratory techniques.

"It is a genuine pleasure to forward herewith a gold medallion which His Imperial Majesty, Haile Selassie I, Emperor of Ethiopia, sent to the American Embassy herewith the desire that it be transmitted to you by this office. His Imperial Majesty, upon giving the medallion to the Charge d'Affaires, said that he wished you to have it as a token of his appreciation of your work.

Since high recognition reflects very honorably on your period of service here in Ethiopia and is a fine recommendation of your professional talents. (2) Letter of Appreciation - State Department to Department of the Army:

"Whether this is unusual or whether you can appropriately pass this letter on to officials concerned in the Department of Defense I do not know. But I do want to write the strongest sort of commendation of the work of Master Sergeant Myroslaw A. Maksymiec. Sergeant Maksymiec was associated in the Office of the Army Attache here in Addis Ababa, particularly for the purpose of photographic coverage.

It would please me if you would be able to forward this letter of mine to appropriate officials in the Defense Department. I know that Colonel John D. Townsend, who was the Army Attache here during practically all of Sergeant Maksymiec's service, would agree with me both in my estimate of the Sergeant's usefulness and efficiency and in seeing to it that this letter of commendation be endorsed in the Defense Department.

At the present time Sergeant Maksymiec is assigned in the photography laboratory in the Pentagon. Undoubtedly he is making a fine contribution there. I do know that he was of vast importance to our total American operation here in Ethiopia, not only military, while he was stationed with the Army Attache in Addis Ababa. He is a competent, cooperative, and persistent workman in attaining desired goals. His photographic output is way above average, both in quantity and quality. The Army Attache system, based on my observation of Sergeant Maksymiec's work in Ethiopia, stands in very great debt to him."

(3) Letter of Appreciation. Corps of Engineers, U. S. Army Map Service to Department of Army - Intelligence:

"During his recently completed tour of duty in the office of the Army Attaché, Ethiopia, M/Sgt. Myroslaw A. Maksymiec, was able to make an outstanding contribution to the Engineer intelligence and photography holdings on that country. The material he acquired and gave to the Engineers for reproduction was of quality and quantity far exceeding that which has normally been received from similar sources.

Considering the nature of the country in which M/Sgt. Maksymiec served, the material acquired could only have been obtained as a result of an enterprising, ~~persi~~stent, and determined effort on his part.

A great number of the photographs taken by M/Sgt. Maksymiec have been retained by the Engineers to be used in Engineer intelligence studies. Favorable comments following his debriefing were due largely to the accurate and current information supplied by him.

Since satisfaction of Engineer requirements undoubtedly constituted only part of the overall duties of the Attache, Ethiopia, M/Sgt. Maksymiec's alertness and enthusiasm towards collection of materials of Engineer interest are greatly appreciated. He has made an invaluable contribution to the Engineer Intelligence and mapping effort.

It is requested that this letter be made a part of M/Sgt. Maksymiec's official records."

During the period 1950 through 1953, I was the Supervisory Photographer for Chief of Photographic Laboratory for the Department of the Army, Office of the Army Attache, American Embassy, London, England.

Mission

Direct the technical operations of Technical Photographers and Photographic Laboratory Technicians. Operations included all of European Theater.

Training

I conducted regular seminars on all aspects of photography and photo laboratory techniques for personnel assigned to the European Area.

Operations

I performed the basic operations as indicated in Experience 18-3 - Mission-Tasks and Artistic Segments. In addition to the foregoing I supervised specialists and technicians' efforts in high volume reproduction of film that averaged over a million feet (black/white/color) of motion picture film.

Equipment utilized was the latest Eastman-Kodak, Bell and Howell, and Houston Fearless printing and processing equipment.

In directing this effort I worked in close coordination with motion picture producers in the planning and organizing the photographic aspects of specific task/program. It was my duty to plan work and secure esthetically perfect photographs that will permit achieve attainment of task/program objectives. This required the ability and judgment in varying processes, also in the utilization of equipment that transcended the normal processes and procedures in order to produce effects that would spotlight the task/program objectives which the photograph was designed to produce.
